doi: 10.1017/S1047951118001518, Published by Cambridge University Press, 30 August 2018.

The publisher apologises for an error in the text on the first page of the above Brief Report. The sentence

“Echocardiography revealed that cardiac chambers, being more prominent in left atrium and ventricle, were markedly dilated cardiac chambers were more prominent in left atrium and ventricle; left ventricular internal dimension in end-diastole was 42 mm (M-mode Z-score: 4.57) and left atrium:aorta ratio was 2.72.”

was amended incorrectly and should read as follows:

“Echocardiography revealed that cardiac chambers, being more prominent in left atrium and ventricle, were markedly dilated. Left ventricular internal dimension in end-diastole was 42 mm (M-mode Z-score: 4.57) and left atrium:aorta ratio was 2.72.”
