

The Institute of Field Archaeologists Yearbook

The Institute of Field Archaeologists was founded in 1982 to advance the practice of archaeology by promoting professional standards and ethics for the conservation, management and study of the archaeological resource. It is the sole body providing professional accreditation for United Kingdom archaeologists.

The IFA Yearbook has been designed to be very useful both for IFA members as a ready source for key specialist products and services, and for the UK's top specifiers of archaeology work to help them locate just the right specialist for the job. It also features a wide range of colour illustrated technical articles from the top experts.

For Yearbook subscription information please contact Gillian Phillips by e-mail on gillian.phillips1@virgin.net

To receive Yearbook advertising information please contact Gordon Sorensen by e-mail on gordon@cathcomm.demon.co.uk

SETTING STANDARDS IN ARCHAEOLOGY

THE REVIEW OF ARCHAEOLOGY

The Review of Archaeology publishes reviews and commentary by distinguished scholars covering a wide range of subjects with the aim of advancing our knowledge of prehistory and stimulating discourse on its various aspects.

subscription.

CatchWord

Benefits include:

- Document to document linking via references
- Fully searchable across full text, abstracts, titles, TOC, and figures
- Links to and from major Abstract and Indexing resources
- Full text searching across multiple journals
- Fast download, browsing and printing times
- TOC alerting service
- Multi-format delivery options including PDF

All you need to do is go to:

<http://www.catchword.com/titles/00338222.htm>

and follow the instructions.

With free software and free support, viewing your journals online has never been so easy.

Radiocarbon reaches libraries, labs, individuals, and institutions in North America, South America, Europe, the Middle East, Asia, Africa, and Australasia. We can help you reach your target market, wherever it is.

We publish three issues per volume year. Advertise in two consecutive issues and get the third at a significant discount (must reserve all three ads at once for discount to apply).

We accept full-page and multipage advertisements in black and white or full-color. You may send camera-ready copy, film negatives, or digital files. Or, for a small fee, we will create an ad from your supplied text and graphics.

*For more information, please contact Managing Editor
Kimberley Elliott at editor@radiocarbon.org.*

The test of time

Radiocarbon dating Services

At the Rafter Radiocarbon Laboratory we have been successfully meeting the test of time for more than 45 years.

Athol Rafter established the laboratory in 1952. Today, using Accelerator Mass Spectrometry, we carry on the tradition of excellence that Athol Rafter began.

At Rafter we understand what our clients expect: accurate dating, at competitive rates and superior turnaround times and service.

Recent work undertaken by our team of multi-disciplinary scientists includes:

- Improving methods for contamination removal in textile dating
- Refining paleodietary studies
- Improving techniques for pollen dating
- Overcoming marine shell dating problems

The Rafter Radiocarbon Laboratory has an international reputation for accurately dating a wide range of organic materials, sediments, textiles, bone, ivory, paper, wood, parchment, charcoal, shell, foraminifera and peat.

We also offer a wide range of archaeometric services that include stable isotope measurements ($\delta^{13}\text{C}$, $\delta^{15}\text{N}$, $\delta^{18}\text{O}$), amino acid profiles, PIXE/PIGME, X-ray diffraction, petrology and palynology.

For accurate dating and analysis results that will stand the test of time, talk with Dr Roger Sparks at the Rafter Radiocarbon Laboratory about your next project.
