de Gruyter Series in Logic and Its Applications

Editorial Board: W.A. Hodges, R. Jensen, S. Lempp, M. Magidor

An international series of research monographs and textbooks in mathematical logic and related fields. Proceedings of conferences devoted to topics of current research interest may also be included. Written by experts, the volumes in this series cover the major areas of contemporary logic, such as set theory, recursion theory, proof theory, and model theory as well as applications to other fields of mathematics.

The publications in this series should be useful both as texts for courses and as guides for lectures and seminars. At the same time, the volumes are sufficiently advanced to serve as a solid basis for further research.

Volume 5: Inner Models and Large Cardinals

New

Martin Zeman

2002. xii + 369 pages. ISBN 3-11-016368-3. Cloth \$128.95

Volume 4: Aspects of Complexity

New

Minicourses in Algorithmics, Complexity, and Computational Algebra, Mathematics Workshop, Kaikoura, New Zealand, January 7-15, 2000
Rod Downey, Denis Hirschfeldt, editors

2001. viii + 172 pages. ISBN 3-11-016810-3. Cloth \$89.95

Volume 3: Fine Structure and Class Forcing

Sy D. Friedman

2000. x + 221 pages. ISBN 3-11-016777-8. Cloth \$84.95

Volume 2: Recursion Theory and Complexity

Proceedings of the Kazan '97 Workshop, Kazan, Russia, July 14-19, 1997
Marat M. Arslanov • Steffen Lempp, editors

1999. viii + 239 pages. ISBN 3-11-016587-2. Cloth \$98.95

Volume 1: The Axiom of Determinacy, Forcing Axioms, and the Nonstationary Ideal

W. Hugh Woodin

1999. vi + 934 pages. ISBN 3-11-015708-X. Cloth \$158.95

(Prices are subject to change)

Australasian Association for Logic 2000 Annual Conference, The University of the Sunshine Coast, June 29–July 2, 2000	287
International Conference on Theoretical Computer Science (IFIP TCS2000), Tohoku University, Sendai, Japan, August 17–19, 2000	291
7th Workshop on Logic, Language, Information and Computation (WoLLIC'2000), Natal, Rio Grandê do Norte, Brazil, August 15–18, 2000	293
XII Brazilian Logic Conference, Itatiaia, Brazil, May 25–28, 1999	295
Notices	296

Articles should be expository or survey papers of broad interest that are accessible to a wide audience of logicians. They may deal with any areas of logic including mathematical or philosophical logic, logic in computer science or linguistics, the history or philosophy of logic, and applications of logic to other fields.

Communications should be announcements of important new results and ideas in any aspect of logic: they may be short papers in their final form or preliminary announcements (extended abstracts, position papers) of longer, full papers that will be published elsewhere. In any case, they should include, in addition to a description of the new results or ideas, enough history, background, and explanation to make the significance of the work apparent to a wide audience. *Communications* will be quickly refereed and published within six months of the submission of final versions.

Articles should be submitted to **Andreas R. Blass**, *Department of Mathematics, University of Michigan, Ann Arbor, MI 48109, USA* (ablass@umich.edu). *Communications* may be submitted to any of the other editors: **John P. Burgess**, *Department of Philosophy, Princeton University, Princeton, NJ 08544, USA* (jburgess@pucc.princeton.edu); or **Matthew Foreman**, *Department of Mathematics, University of California, Irvine, CA 92697, USA* (mforeman@math.uci.edu); or **Akihiro Kanamori**, *Department of Mathematics, Boston University, Boston, MA 02215, USA* (aki@math.bu.edu); or **Manuel Lerman**, *Department of Mathematics, University of Connecticut, Storrs, CT 06269, USA* (mlerman@math.uconn.edu); or **H. Dugald Macpherson**, *Department of Pure Mathematics, University of Leeds, Leeds LS2 9JT, England* (pmthdm@amsta.leeds.ac.uk); or **Philip J. Scott**, *Department of Mathematics, University of Ottawa, 585 King Edward, Ottawa, Ontario, Canada K1N 6N5* (phil@csi.uottawa.ca).

Books for review in the BULLETIN should be sent to **Herbert B. Enderton**, *Association for Symbolic Logic, UCLA, Los Angeles, CA 90095-1555, USA*. The other editors of reviews are **Geoffrey Hellman** (hellm001@umn.edu), **Thomas Jech** (jech@math.psu.edu), **Wolfgang Pohlers** (pohlers@escher.uni-muenster.de), and **Philip Scowcroft** (pscowcroft@wesleyan.edu). Submitted manuscripts should be typewritten with wide margins and with double spacing between the lines, or prepared with a word processor, such as L^AT_EX or Microsoft Word. Two copies of the manuscript should be sent to the editor, and the author should also keep a complete copy and the electronic file from which the submitted copy was prepared, if a word processor was used. After the paper is accepted in its final form, an electronic copy will be appreciated and will advance the final publication date of the paper, especially if it is in L^AT_EX or A_MS-L^AT_EX. The JOURNAL and the BULLETIN OF SYMBOLIC LOGIC are typeset in a version of A_MS-L^AT_EX, using a stylefile which is posted on the ASL Website, <http://www.aslonline.org>, along with instructions for its use. Fifty offprints of each article are supplied at no charge, and additional offprints may be purchased if desired.

Postscript files of articles published in the BULLETIN may be downloaded using a Web browser from <http://www.math.ucla.edu/~asl/bsltoc.htm>.

Requests for information, applications for membership, orders for back volumes, business correspondence, and notices and announcements for publication in the BULLETIN should be sent to the Secretary-Treasurer of the Association, **Charles Steinhorn**, *ASL, Box 742, Vassar College, 124 Raymond Avenue, Poughkeepsie, NY 12604 USA*. The electronic mail-address of the Association's business office is asl@vassar.edu. The ASL Website is located at <http://www.aslonline.org>.

All back volumes of the BULLETIN are available, from the Office of the Secretary-Treasurer who has information on prices and discounts to individual and institutional members.
