WEED TECHNOLOGY

WEED TECHNOLOGY

VOLUME 33 MARCH–APRIL 2019 NUMBER 2

• RESEARCH ARTICLES

Interactions of quizalofop-p-ethyl mixed with contact herbicides in ACCase-resistant rice production Samer Y. Rustom, Eric P. Webster, David C. Blouin and Benjamin M. McKnight	233
Influence of formulation and rate on rice tolerance to early-season applications of acetochlor Michael Fogleman, Jason K. Norsworthy, Tom Barber and Edward Gbur	239
Florpyrauxifen-benzyl activity on perennial grass weeds found in Louisiana rice production Gustavo M. Teló, Eric P. Webster, David C. Blouin, Benjamin M. McKnight and Samer Y. Rustom, Jr	246
Influence of a thiamethoxam seed treatment on acetolactate synthase–inhibiting herbicide–induced injury to inbred and hybrid imidazolinone-resistant rice Steven M. Martin, Jason K. Norsworthy, Robert C. Scott, Jarrod Hardke, Gus M. Lorenz and Edward Gbur	253
Spray deposition, adjuvants, and physiochemical properties affect benzobicyclon efficacy Chad Brabham, Jason K. Norsworthy, Craig A. Sandoski, Vijay K. Varanasi and Lauren M. Schwartz-Lazaro	258
Evaluation of 2,4-D-based herbicide mixtures for control of glyphosate-resistant Palmer amaranth (<i>Amaranthus palmeri</i>) Benjamin H. Lawrence, Jason A. Bond, Thomas W. Eubank, Bobby R. Golden, Donald R. Cook and Joseph P. Mangialardi	263
Barnyardgrass (<i>Echinochloa crus-galli</i>) control as affected by application timing of glufosinate applied alone or mixed with graminicides	
Amber N. Eytcheson and Daniel B. Reynolds Influence of competitive duration of blessed milkthistle (Silybum marianum) with wheat Abdul Rehman, Rafi Qamar, Muhammad Ehsan Safdar, Atique-ur Rehman, Hafiz Muhammad Rashad Javeed,	272
Muhammad Shoaib, Rizwan Maqbool and Tasawer Abbas	280
Matthew R. Foster, James L. Griffin, Josh T. Copes and David C. Blouin	287
Environmental factors may influence interseeded annual ryegrass and red clover establishment and growth more than soil residual herbicide applications Victoria L. Stanton and Erin R. Haramoto	296
Horseweed (Conyza canadensis) suppression from cover crop mixtures and fall-applied residual herbicides Kara B. Pittman, Jacob N. Barney and Michael L. Flessner	303
Evaluation of cover crop sensitivity to residual herbicides applied in the previous soybean [Glycine max (L.) Merr] crop Derek M. Whalen, Mandy D. Bish, Bryan G. Young, Aaron G. Hager, Shawn P. Conley, Daniel B. Reynolds,	0.1.0
Lawrence E. Steckel, Jason K. Norsworthy and Kevin W. Bradley	312
John T. Buol, Daniel B. Reynolds, Darrin M. Dodds, J. Anthony Mills, Robert L. Nichols, Jason A. Bond, Johnie N. Jenkins and Janice L. DuBien	321
False-green kyllinga (<i>Kyllinga gracillima</i>) control in cool-season turfgrass Matthew T. Elmore, Aaron J. Patton, Daniel P. Tuck, James A. Murphy and Jenny Carleo	329
First report of kochia (<i>Bassia scoparia</i>) with cross-resistance to dicamba and fluroxypyr in western Kansas Vipan Kumar, Randall S. Currie, Prashant Jha and Phillip W. Stahlman	335
Dicamba-resistant kochia (<i>Bassia scoparia</i>) in Kansas: characterization and management with fall- or spring-applied PRE herbicides Vipan Kumar, Ryan P. Engel, Randall Currie, Prashant Jha, Phillip W. Stahlman and Curtis Thompson	342
Nontarget site resistance in Palmer amaranth [Amaranthus palmeri (S.) Wats.] confers cross-resistance to protoporphyrinogen oxidase-inhibiting herbicides	240
Vijay K. Varanasi, Chad Brabham, Nicholas E. Korres and Jason K. Norsworthy Distribution of herbicide-resistant Palmer amaranth (<i>Amaranthus palmeri</i>) in row crop production systems in Texas	349
Russ Garetson, Viiav Singh, Shilpa Singh, Peter Dotrav and Muthukumar Bagavathiannan	355

Multiple herbicide-resistant horseweed (<i>Conyza canadensis</i>) dose response to tolpyralate and tolpyralate plus atrazine and comparison to industry standard herbicides in corn	
Brendan A. Metzger, Nader Soltani, Alan J. Raeder, David C. Hooker, Darren E. Robinson and Peter H. Sikkema	366
• NOTES	
Integrating cultivation using a tine weeder with herbicides in conventional peanut production	
W. Carroll Johnson III and Xuelin Luo.	374
Effect of rate and timing of indaziflam on 'Sunbelt' and muscadine grape	
Nicholas T. Basinger, Katherine M. Jennings, David W. Monks and Wayne E. Mitchem	380
• ERRATUM	
Florpyrauxifen-benzyl activity on perennial grass weeds found in Louisiana rice production – ERRATUM	
Gustavo M. Teló, Eric P. Webster, David C. Blouin, Benjamin M. McKnight and Samer Y. Rustom Jr	386

Published six times a year by the Weed Science Society of America

Jason K. Norsworthy, Editor

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. Weed Science is focused on understanding "why" phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. Weed Technology focuses on understanding "how" weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. Invasive Plant Science and Management is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for Weed Technology include all aspects of weed management in agricultural, horticultural, ornamental, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; weed resistance to herbicides; herbicide resistant crops; biological weed control agents; new weed management techniques; impacts of weed competition with crops; vegetation management with plant growth regulators; weed surveys; weed-related grower surveys; education; and extension. Symposia papers and reviews are accepted. Consult the editor for additional information.

Associate Editors (Assignment Year)

Jason Bond, *Stoneville, MS* (2010) Kevin Bradley, *Columbia, MO* (2012) Barry Brecke, *Jay, FL* (2013) Peter Dittmar, *Gainesville, FL* (2016) Steve Fennimore, *Salinas, CA* (2004) Aaron Hager, *Urbana, IL* (2012)

Brad Hanson, *Davis, CA* (2013)

Weed Technology (ISSN 0890-037X) is published by the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234. It is published bimonthly, one volume per year, six issues per year beginning in February.

Membership includes online access to *Weed Technology, Weed Science, Invasive Plant Science and Management,* and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Technology* subscription page at https://www.cambridge.org/core/journals/weed-technology/subscribe; Email: subscriptions_newyork@cambridge.org in USA, journals@cambridge.org outside USA.

Weed Technology publishes six times a year in February, April, June, August, October, and December. Annual institutional electronic subscription rates: US \$388.00; UK £270.00.

Please use Editorial Manager to access manuscript submissions (http://www.editorialmanager.com/wt). Authors are asked to pay \$85 for the first page and \$65 per page thereafter as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Technology* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique propagative materials they might possess with other workers in that area who request such materials for the purpose of scientific research.
