# DEVELOPMENT AND PSYCHOPATHOLOGY

 **Cambridge  
Journals**

---

## EDITORS:

Dante Cicchetti, *University of Rochester*  
Barry Nurcombe, *Child and Adolescent  
Psychiatric Hospital, Vanderbilt University*

This multidisciplinary journal is devoted to the publication of original empirical, theoretical and review papers which address the interrelationship of normal and pathological development in adults and children. It is intended to serve and integrate the emerging field of developmental psychopathology which strives to understand patterns of adaptation and maladaptation *throughout* the life span. Explorations of abnormal functioning in the social, emotional, cognitive, linguistic and biological domains help to clarify normal developmental processes. Reciprocally, elucidations of principles of normal development help to broaden our understanding of psychopathological conditions. Contributions may also be on the processes underlying the adaptive outcomes in populations "at risk" for psychopathology. This journal is of vital interest to psychologists, psychiatrists, social scientists, neuroscientists, pediatricians and researchers.

*Development and Psychopathology* (ISSN 0954-5794) is published quarterly. Subscriptions to Volume 1 (1989) or Volume 2 (1990) are each \$75.00 for institutions; \$35.00 for individuals; single parts \$20.00.

# PSYCHOLOGICAL SCIENCE

*Published for the  
American Psychological Society*

## EDITOR

William K Estes, *Harvard University*

*Psychological Science* is a new bimonthly publication being launched as the flagship journal of the American Psychological Society, founded 1988, to regain the scientific focus of psychological research. The journal is designed to be the forum for research, theory, and application in psychology and the closely related behavioral, cognitive, neural, and social sciences. The journal also considers psychology in government and public affairs. Unlike most research journals, *Psychological Science* encourages articles of general theoretical significance or of broad interest across specialties.

## *Recent Articles*

The Prenatal Origins of Behavioral Organization,  
*William P Smotherman and Scott R Robinson*

Facts, Fantasies, and the Future of Child Care in  
the United States, *Sandra Scarr et al.*

Serial vs Parallel Processing, *James T Townsend*

Answering Reading Comprehension Items Without  
Passages on the SAT, *Stuart Katz et al.*

Infants' Perception of Phase Structure in Music,  
*Carol L Krumhansl and Peter W Jusczyk*

*Psychological Science* (ISSN 0956-7976) is published bimonthly. Volume 1 (1990) subscriptions (US and Canada only): \$100.00 institutions; \$50.00 for non-member individuals. APS members receive the journal as part of their dues.
