Aims and Scope

The *European Journal of Archaeology* is the international, peer-reviewed journal of the European Association of Archaeologists aiming to publish the best new archaeological research undertaken in and around Europe.

Articles cover a wealth of topics including major reviews of the prehistoric and historic archaeology of Europe and neighbouring regions; reports on key archaeological discoveries set within a European context; cutting-edge research and debates on science-based archaeology, archaeological method and theory, public archaeology and the history of archaeology; and interviews reflecting upon the life and work of significant European archaeologists. All articles are published with short, accessible abstracts in English, French and German.
