

Proceedings of the Nutrition Society

Volume 59, 2000 ISSN: 0029-6651

Aims and Scope

Proceedings of the Nutrition Society publishes papers and abstracts presented by members and invited speakers at the scientific meetings of The Nutrition Society.

Coverage includes:

- Clinical nutrition and metabolism
- Obesity and body composition
- Infant nutrition
- Diet selection and control of intake
- Nutrition and behaviour
- Reproduction, growth and development
- International and public health nutrition
- Animal nutrition and metabolism
- Molecular aspects of nutrition
- Functional foods
- Macronutrient metabolism
- Micronutrients and antioxidants
- Companion animal nutrition
- Epidemiology

Proceedings of the Nutrition Society is published six times a year by CABI Publishing on behalf of The Nutrition Society.

The contents page of this journal is available on the Internet before publication at: <http://www.cabi.org/>

Honorary Editorial Board and Programmes Committee

J D Oldham
Chair

C J Seal
Programmes Secretary

K M Younger
Proceedings Editor

Group Secretaries

R Dewhurst
Animal Nutrition and Metabolism

P W Emery
Macronutrient Metabolism

S C Langley-Evans
Reproduction and Development

G Carlson
Clinical Nutrition and Metabolism

H J Powers
Micronutrient Metabolism

H Roche
Irish Section Secretary

P S Shetty
International and Public Health Nutrition

I Kyriazakis
Nutrition and Behaviour

W L Wrieden
Scottish Section Secretary

Editorial Staff

A S Thiruchelvam
Publications Co-ordinator

C Helliard
Publications Assistant

C T Hughes
Technical Editor

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its application to the maintenance of human and animal health.

Honorary Officers of The Society

C M Williams
President

J L Buttriss
Secretary

J J Strain
Treasurer

C J Seal
Programmes Secretary

J F Andrews
Publications Officer

R J Cottrell
Development Officer

Application for membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from the Honorary Secretary, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Telephone: +44(0)20 7602 0228, Fax: +44(0)20 7602 1756

The Nutrition Society Home Page is at <http://www.nutsoc.org.uk>

Proceedings of the
Nutrition
Society

Abstracts of Original Communications

1A–139A

University of Glasgow, Glasgow, 29 June–2 July 1999

- Haemoglobin, zinc, selenium and manganese status of preterm infants at term.
L. D. Marriott, J. A. Bishop, A. C. Kimber, K. D. Foote, H. T. Delves & J. B. Morgan 2A
- Assessing calcium intake in teenage girls: validation of a food-frequency questionnaire.
H. L. Lambert & M. E. Barker 2A
- Effects of vitamin A deficiency during pregnancy on plasma amino acid profiles in the rat.
C. Antipatis, D. S. Brown, R. M. Palmer & C. J. Ashworth 3A
- Activities of antioxidant metallo-enzymes in diabetic mothers and their offspring.
R. E. Sims, A. C. Phylactos, M. A. Crawford, C. Lowy & B. Offley-Shore 3A
- The effect of dietary Mg supplementation on erythrocyte and plasma Mg concentrations in the follicular v. the luteal phase of the menstrual cycle in thirteen women with premenstrual symptoms compared with normal controls.
M. C. De Souza, A. F. Walker, P. A. Robinson, A. Morris & K. M. Bolland 4A
- Vitamin B₆ status indices in a representative sample of British young people aged 4–18 years.
K. Pentieva, C. Bates & A. Prentice 4A
- Poor iron status in children aged 1.5 to 4.5 years from a British national survey: associated dietary and socio-economic risk factors.
C. W. Thane, C. M. Walmsley & C. J. Bates 5A
- Does energy density alone drive energy intake?
C. A. Reid & R. J. Stubbs 5A
- Does short term therapeutic fasting affect psychological and physiological performance?
P. Faber, A. M. Johnstone, C. Shannon, L. Stevenson, D. Clerkin, C. A. Reid, E. R. Gibney, M. Elia & R. J. Stubbs 6A
- Effects of graded increases of fat in the diet on quantitative and qualitative food intake in normal weight men.
N. Mazlan, T. Brick, C. A. Reid & R. J. Stubbs 6A
- Ad libitum* food intake as a measure of satiety: comparison of a single food test meal and a mixed food buffet.
S. J. Long, E. M. Griffiths, P. J. Rogers & L. M. Morgan 7A
- Does the physical state of a meal influence appetite response and subsequent food intake?
S. J. Long, E. L. Grilli, P. J. Rogers & L. M. Morgan 7A
- The effect of meal fat content and energy density on hormonal responses, gastric emptying and satiety in man.
S. J. Long, A. Giouvanoudi, W. B. Amaee, J. A. Sutton, N. Spyrou, P. J. Rogers & L. M. Morgan 8A
- Effects of graded increases of fat in the diet on energy and macronutrient intake in overweight men.
S. D. Connolly, E. L. Shannon, N. Mazlan, C. A. Reid & R. J. Stubbs 8A

The influence of maternal nutrient restriction between early to mid gestation on placental weight and leptin abundance in sheep. <i>V. Wilson, J. Dandrea, T. Stephenson, R. Webb & M. E. Symonds</i>	9A
A biomarker for carbohydrate is still elusive: insulin-like growth factor-1 and its binding protein do not provide the answer. <i>A. Greenhalgh, J. Cade, B. Sanghera, M. Gibson, A. Heald, J. Sampayo, A. White & J. K. Cruickshank</i>	9A
Comparison of retinyl esters and apolipoprotein B-48 as markers of dietary-derived lipoproteins in postmenopausal women: importance of the source of retinyl esters used to label the meals. <i>K. D. R. R. Silva, J. A. Lovegrove, J. W. Wright & C. M. Williams</i>	10A
Effect of antecedent meal frequency on metabolic handling of a large meal in lean and obese subjects. <i>F. E. Leahy, S. A. Jebb, P. R. Murgatroyd & A. M. Prentice</i>	10A
Alteration in postprandial lipid metabolism with increasing sucrose content of test meal. <i>J. Bennoson, K. Sassi, A. E. Jones & S. A. Wootton</i>	11A
Effects of different patterns of brisk walking on plasma triacylglycerol concentrations throughout a day with normal meals. <i>M. H. Murphy, A. E. Hardman & A. M. Nevill</i>	11A
Effect of breed and diet on polyunsaturated fatty acid composition in the phospholipid fraction of <i>longissimus dorsi</i> muscle in cattle. <i>N.-J. Choi, M. Enser, J. D. Wood & N. D. Scollan</i>	12A
Diurnal variation in erythrocyte glutathione and glutathione reductase in normal adult males. <i>L. Yi, C. Persaud, N. R. Gibson & A. A. Jackson</i>	12A
Effect of timing of tuna oil supply to the sow on piglet tissue composition at birth. <i>J. A. Rooke, A. G. Sinclair & V. C. Bland</i>	13A
Effect of acute leptin administration on thermoregulation in day old lambs during non-rapid eye movement sleep. <i>A. Mostyn, E. J. Dastoor, T. Stephenson, R. Webb, D. H. Keisler & M. E. Symonds</i>	13A
The effect of modified sham-feeding meals of varying fat content on postprandial triacylglycerol, insulin and glucose responses. <i>K. G. Jackson, M. D. Robertson, L. O. Deane, B. A. Fielding, K. N. Frayn & C. M. Williams</i>	14A
Correlation between linoleic acid intake, and linoleic acid content of adipose tissue and LDL lipid fractions in subjects with substantial atherosclerotic plaques. <i>J. M. Garry, F. Thies, P. Yaqoob, D. Fowler, A. Chulakadabba, J. Williams, C. P. Shearman, P. C. Calder & R. F. Grimble</i>	14A
Dose-dependent enrichment of blood and spleen leucocyte lipid fractions with eicosapentaenoic acid is independent of its position in dietary triacylglycerols. <i>S. Kew, F. Thies, S. M. Wells & P. C. Calder</i>	15A
What is the appropriate VCO ₂ term for ¹³ C breath tests in free living subjects? <i>C. Slater, T. Preston & L. T. Weaver</i>	15A
The importance of α-linolenic acid as a source of long chain N-3 polyunsaturated fatty acids and its influence on risk factors of cardiovascular disease. <i>P. A. Wilkinson, E. Ah-Sing, C. Emery, A. Fereday, D. J. Millward, S. Richards, J. Sheppard & B. A. Griffin</i>	16A
Postprandial concentrations of plasma deoxycholic acid after the consumption of different dietary fats in premenopausal women. <i>V. Costarelli & T. A. B. Sanders</i>	16A
The effects of nutrients and complex phenols and tannins on salivary hormone and protein secretion in free living subjects. <i>B. A. Messenger, M. N. Clifford & L. M. Morgan</i>	17A
Investigation of the effects of whole black tea on hormone levels in rat salivary glands. <i>B. A. Messenger, N. McArdle, M. N. Clifford & L. M. Morgan</i>	17A

Oral load of L-methionine required to saturate trans-sulfuration pathway, impair glycine synthesis and increase plasma homocysteine in fasting normal males.	
<i>J. M. Jackson, A. G. A. Jackson, C. Persaud & A. A. Jackson</i>	18A
Triacylglycerol-rich lipoproteins in postprandial plasma.	
<i>A. J. Hawdon, B. J. Gould & B. A. Griffin</i>	18A
A comparison of four highly sensitive immuno-detection methods for apolipoprotein B-48.	
<i>N. Mohd-Esa & B. J. Gould</i>	19A
An ultradian rhythm in urine volume and urea nitrogen excretion in normal adult males in the fed and fasted states.	
<i>L. Yi, N. R. Gibson, C. Persaud & A. A. Jackson</i>	19A
Impaired postprandial lipid metabolism in middle-aged men.	
<i>M. A. Humayun, A. E. Jones, J. Bennoson & S. A. Wootton</i>	20A
Does combined oral contraceptive use alter postprandial lipid metabolism?	
<i>H. A. Pawson, A. E. Jones, M. Masding, D. Sandeman & S. A. Wootton</i>	20A
Purification of the major plasma lipid classes by solid phase extraction on aminopropyl silica cartridges.	
<i>P. Wright, G. C. Burdge, A. E. Jones & S. A. Wootton</i>	21A
Variations in the serum cholesterol, Ferric reducing ability of plasma and LDL lagphase over 4 weeks in untreated human subjects.	
<i>M. Chopra, S. Kavanagh, P. Fitzsimons & D. I. Thurnham</i>	21A
The effect of methionine depletion on IGF-I secretion and protein synthetic rate in ovine hepatocytes.	
<i>N. M. Wheelhouse, D. G. Hazlerigg, J. C. Macrae & M. A. Lomax</i>	22A
Analysis of <i>ob</i> (obese) gene expression in porcine adipose tissues by a competitive reverse transcription polymerase chain reaction.	
<i>N. L. Doble, D. G. Hazlerigg, S. A. Edwards & P. Trayhurn</i>	22A
Plasma homocysteine and patterns of food consumption in people aged over 65 years.	
<i>B. M. Margetts, R. L. Thompson, C. J. Bates, M. A. Mansoor & A. A. Jackson</i>	23A
Nutritional influences on peri and post-menopausal bone loss: interim 12 month findings from a five year longitudinal investigation in Scottish women.	
<i>S. A. New, H. M. Macdonald, S. P. Robins, M. H. N. Golden, D. A. Grubb & D. M. Reid</i>	23A
Effect of moderate consumption of red wine or vodka on serum lipids, apolipoproteins and susceptibility of LDL to oxidation.	
<i>I. S. Young, P. Sharpe, C. Mercer, D. McMaster & A. E. Evans</i>	24A
Decreasing phyloquinone (vitamin K ₁) and total fat intake in a 10-year longitudinal study of Scottish adults.	
<i>C. Bolton-Smith, R. J. G. Price & M. J. Shearer</i>	24A
The impact of a dietary intervention in a community based breakfast club: nutrient intake and measurement issues.	
<i>A. S. Anderson & A. Bell</i>	25A
Impact of family eating habits on fruit and vegetable consumption in children aged 5½ to 8½ years.	
<i>P. J. Longbottom, W. L. Wrieden, C. M. Pine & J. A. Davies</i>	25A
Influence of dietary intake on peak bone mass attainment in elite female ballet dancers and healthy age-matched controls: baseline results from a three-year longitudinal study.	
<i>S. A. New, C. E. Pearson, A. M. Gowing & N. J. Keay</i>	26A
Use of habitual diet records to estimate the fats required to achieve target fatty acid intakes in an intervention study of subjects living in a residential setting.	
<i>C. N. M. Kelly, R. D. Smith, M. C. Nydahl & C. M. Williams</i>	26A
Changes in nutrient intake in peri and early post-menopausal Scottish women over a five year period.	
<i>H. M. Macdonald, S. A. New, M. H. N. Golden, D. A. Grubb & D. M. Reid</i>	27A
Urbanization and coronary heart disease risk factors in South Asian children.	
<i>R. Hakeem, J. Thomas & S. H. Badruddin</i>	27A

Urbanization and atherogenicity of the diets of South Asian children. <i>R. Hakeem, J. Thomas & S. H. Badruddin</i>	28A
Interaction between nutrition and physical activity on peak bone mass attainment: preliminary findings from a longitudinal study in elite female gymnasts and healthy age-matched controls. <i>S. A. New, J. A. Nurmi, J. A. Bishop, S. Carr-Bains, P. Taylor & C. Cooper</i>	28A
Prevalence of dietary under-reporting by student volunteers residing in a fully-catered hall of residence. <i>R. D. Smith, K. King, C. N. M. Kelly, A. E. Jones, M. C. Nydahl & C. M. Williams</i>	29A
Detailed analysis of fat sources in diets eaten in a residential hall: basis for planning a dietary intervention. <i>M. C. Nydahl, R. D. Smith, C. N. M. Kelly & C. M. Williams</i>	29A
Socioeconomic differences in preschool-child-feeding practices in Karachi. <i>R. Hakeem & M. Khanum</i>	30A
Nutrient intake and nutrient density of foods consumed by elite adolescent orienteers responsible for their own meals in boarding school <i>A. K. Yngve, U. M. Ekelund & M. Sjöström</i>	30A
The contribution of breakfast to the diet in the Stanislas cohort: family resemblance in energy intakes. <i>B. Herbeth, A. Lluch & G. Siest</i>	31A
Nutrient intake in elite female gymnasts and healthy age-matched controls: analysis of baseline data. <i>J. A. Nurmi, J. A. Bishop, S. Carr-Bains, J. Gardner, F. S. Taylor & S. A. New</i>	31A
Micronutrient intake, physical activity levels and lifestyle patterns amongst Surrey adolescent females: comparison of groups with different intakes of calcium. <i>J. Catterick, J. A. Bishop, A. Hunter, C. Mays & S. A. New</i>	32A
Intra- and inter-individual variability and lack of seasonal variation of plasma phylloquinone (vitamin K ₁) for Scottish men and women. <i>S. T. Fenton, C. Bolton-Smith, D. Harrington & M. J. Shearer</i>	32A
Accuracy of self-reported data: anthropometric and household measurements. <i>T. N. Watson, H. S. Bates, A. Greenhalgh & J. Cade</i>	33A
Evaluation of food photographs for use in estimating portion size in epidemiological research. <i>J. Pollard, J. Cade & A. Aslett-Bentley</i>	33A
Can food groups be used as proxy measures for energy and selected nutrients in a population of pre-pubescent children? <i>K. I. Pirie & B. M. Margetts</i>	34A
Young women's confidence about cooking skills in relation to food choice. <i>J. M. Lawrence, R. L. Thompson & B. M. Margetts</i>	34A
Body mass index and fat distribution in Mongolian women. <i>C. Tuya, C. Wilkinson & G. McNeill</i>	35A
Nutrition-public health links: current beliefs reported by general practitioners and practice nurses working in Scotland. <i>S. E. Morris, C. R. Hankey, M. E. J. Lean & C. M. Hunter</i>	35A
Nutritional counselling by nurses working in Scottish family-planning services. <i>S. Tessier, S. E. Morris, J. F. Murray & M. E. J. Lean</i>	36A
Patterns of colonic starch fermentation from infancy to adulthood. <i>M. T. Christian, C. A. Edwards, T. Preston, L. A. Johnston, R. Varley & L. T. Weaver</i>	36A
A relationship between arachidonic and docosahexaenoic acids in the erythrocyte membrane of pregnant women and preterm infants. <i>M. Crawford, B. Thomas, K. Ghebremeskel, B. Offley-Shore & L. Lowy</i>	37A
Association between socio-economic status and fatty acid status in women of child-bearing age. <i>C. Montgomery, C. Berry, N. Sattar, N. Caine, M. McMillan, J. Norrie & L. Weaver</i>	37A
The formula-fed infant not consuming docosahexaenoate does not accumulate docosahexaenoate at the same rate as the breast-fed infant. <i>S. C. Cunnane, V. Francescutti, J. T. Brenna & M. A. Crawford</i>	38A

Gastrointestinal handling and metabolic disposal of ^{13}C -labelled tripalmitin during rehabilitation from childhood malnutrition.	
<i>J. L. Murphy, V. A. Badaloo, E. N. Robinson, T. E. Forrester, S. A. Wootton & A. A. Jackson</i>	38A
Whole-body protein turnover during pregnancy, maternal body composition and fetal outcome.	
<i>S. L. Duggleby & A. A. Jackson</i>	39A
Physical activity, food intake and body fat in childhood.	
<i>J. A. Payne, N. R. Belton & A. C. Payne</i>	39A
The influence of maternal nutrition in early, mid and late gestation on maternal plasma insulin-like growth factor-I concentrations.	
<i>H. J. Budge, L. Heasman, J. Dandrea, T. Stephenson & M. E. Symonds</i>	40A
Effect of delayed sucking on piglet plasma IgG concentrations.	
<i>I. M. Bland, J. A. Rooke, V. C. Bland & A. G. Sinclair</i>	40A
The gastrointestinal handling and metabolic disposal of ^{13}C -labelled tripalmitin by preterm infants.	
<i>J. S. Craig, D. J. Mitchell, T. R. J. Tubman, M. M. T. O'Hare, B. G. McClure, P. D. Williams, A. McCallum, A. Cawood, J. L. Murphy & S. A. Wootton</i>	41A
The impact of psychosocial factors on diet and growth in children with cystic fibrosis.	
<i>H. Anthony & S. Paxton</i>	41A
Bioelectrical impedance spectroscopy in an obese population before and after weight loss.	
<i>M. C. W. Van Wijk, T. P. Gill & M. Elia</i>	42A
Use of the retinol binding protein/transthyretin ratio for assessment of vitamin A status during the acute phase response.	
<i>S. M. Filteau, M. Gamble, K. Sullivan, J. F. Willumsen & K. Simmank</i>	42A
Plasma transferrin receptor concentrations as a measure of iron status in <i>Plasmodium Falciparum</i> malaria.	
<i>R. Beesley, S. Filteau, A. Tomkins, T. Doherty, H. Ayles, A. Reid, T. Ellman & S. Parton</i>	43A
Estimation of changes in intra-abdominal adipose tissue in obese people on a weight-loss programme.	
<i>E. G. Kamel, G. McNeill & M. C. W. Van Wijk</i>	43A
Knowledge and use of probiotics by health professionals in the UK.	
<i>N. Jotcham, N. Burgher & C. Shortt</i>	44A
Protease inhibitor-associated lipodystrophy in HIV-seropositive men increases postprandial lipid oxidation.	
<i>L. J. Ware, J. Morlese, M. Krueger, B. Gazzard, A. A. Jackson & S. A. Wootton</i>	44A
The role of nutritional supplementation in reducing body wasting in institutionalized neurologically disabled children.	
<i>E. Ball, M. O'Sullivan & P. M. Mathias</i>	45A
The effect of dietary methionine supplementation on hepatic glutathione metabolism, hepatic protein content, and α -1 acid glycoprotein in endotoxin-treated rats fed low protein diets.	
<i>A. A. Alhamdan & R. F. Grimble</i>	45A
Early exposure to cows milk and solid foods in infancy and risk of insulin-dependent diabetes mellitus.	
<i>F. Esfarjany, N. Valie & M. R. Azar</i>	46A
Database search strategies for randomized controlled trials in nutrition for the Cochrane Collaboration.	
<i>A. Avenell, H. Handoll & A. Grant</i>	46A
Does vitamin A, zinc and riboflavin status influence iron status in children aged 1.5 to 4.5 years?	
<i>R. L. Thompson, B. M. Margetts & A. A. Jackson</i>	47A
Lutein and zeaxanthin levels in newborn infants and their mothers.	
<i>V. C. Jewell, D. Sweet, R. Tubman, C. A. Northrop-Clewes & D. I. Thurnham</i>	47A
Supplementation with red palm oil changes acute-phase response in lactating Tanzanian women.	
<i>G. Lietz, G. Mulokozi, R. Beesley, S. Filteau, C. J. K. Henry & A. Tomkins</i>	48A
The effect of phyto-oestrogen supplementation on antioxidant status.	
<i>J. V. Woodside, E. E. Denholm, M. J. Campbell, I. S. Young, J. Honour & A. Leathem</i>	48A

Improving the nutritional status of women in an inner city population following the birth of a low birth weight baby. <i>W. Doyle, A. Srivastava, I. Golfetto, M. A. Crawford & K. L. Costeloe</i>	49A
Iron status of preschool children aged 1.5 to 4.5 years: associations with breakfast cereals, vitamin C and meat. <i>S. A. Gibson</i>	49A
Reduction in somatic cell count in cows' milk and mastitis by use of a selenium-containing multi-trace element-vitamin rumen bolus system. <i>R. G. Hemingway, J. J. Parkins, N. S. Ritchie & D. J. Taylor</i>	50A
Effects of modified maternal body composition at farrowing and dietary protein in lactation on piglet growth. <i>A. G. Sinclair, V. C. Bland & S. A. Edwards</i>	50A
Effect of intake on whole body plasma amino acid kinetics in sheep. <i>I. C. Savary, S. O. Hoskin & G. E. Lobley</i>	51A
Relationship between efficiency of utilization of metabolizable energy for poultry and water extract viscosity in twelve wheat samples. <i>V. Pirgozliev, P. Rose, P. Kettlewell & M. Bedford</i>	51A
Effect of choice-feeding during pregnancy on body composition of gilts at farrowing and piglet birth weights in two different genotypes. <i>G. Jones, S. A. Edwards, S. Hoste & S. Jagger</i>	52A
Effects of different <i>Aspergillus</i> preparations on fermentation in the rumen-simulating fermenter, Rusitec. <i>C. J. Newbold, F. M. McIntosh & R. J. Wallace</i>	52A
Stability and stabilization of potential feed additive enzymes in rumen fluid. <i>D. P. Morgavi, C. J. Newbold, D. E. Beever & R. J. Wallace</i>	53A
Phytase supplementation of diets for laying hens. <i>G. R. Barkley, J. M. Forbes & H. M. Miller</i>	53A
Effects of a defined fat emulsion, Olibra™ on energy and macronutrient intakes 4 h and 8 h post-consumption in lean, overweight and obese subjects. <i>A. A. Burns, M. B. E. Livingstone, R. W. Welch, P. J. Robson, A. Dunne, L. Lindmark & I. Rowland</i>	54A
Protein intake and appetite control: differences between casein and whey as fast and slow proteins. <i>S. J. Long, C. E. Wood, A. P. Taylor, W. Hall & D. J. Millward</i>	54A
Effect of supplements of fruit and vegetables on food intake, body weight and appetite among Scottish consumers. <i>H. Clark, C. L. S. Harrison, C. A. Reid, T. P. Gill & R. J. Stubbs</i>	55A
Effect of a 36-hour fast on hunger, appetite and food intake in lean men and women. <i>A. M. Johnstone, P. Faber, D. Clerkin, C. Shannon, L. Stevenson, C. A. Reid, E. R. Gibney, M. Elia & R. J. Stubbs</i>	55A
Validation of weighed intake and diet diary methods used to assess dietary intake in infants aged 6–12 months and children aged 12–24 months. <i>J. A. Lanigan, M. S. Lawson, J. C. K. Wells & A. Lucas</i>	56A
Maternal and neonatal anthropometry. <i>P. H. C. Rondó & A. M. Tomkins</i>	56A
Fatty acid composition of breast milk of Gambian mothers. <i>M. McMillan, J. Bunn, N. Caine, C. Montgomery & L. Weaver</i>	57A
Erythrocyte acetylcholinesterase activity in neonates: evidence for linoleate-acetylcholinesterase interaction. <i>D. C. Bitsanis, K. L. Costeloe, A. C. Phylactos & M. A. Crawford</i>	57A
Neutral fatty acid status of pregnant Korean women and their neonates compared with non-pregnant women. <i>Y. Min, K. Ghebremeskel, M. A. Crawford, J.-H. Nam, A. Kim & J.-N. Koo</i>	58A

Breast milk fatty acid composition in Hong Kong and Mainland Chinese Women. <i>Z.-Y. Chen</i>	58A
Fatty acid composition of maternal milk from insulin dependent diabetic, gestational diabetic and healthy control women. <i>B. Thomas, K. Ghebremeskel, B. Offley-Shore, C. Lowy & M. A. Crawford</i>	59A
The fatty acid composition of mothers' plasma, cord plasma and breast milk of Karen women from Thailand refugee camps. <i>I. Golfetto, D. C. Bitsanis, L. Dubowitz, B. Heer & M. A. Crawford</i>	59A
Factors associated with early adiposity rebound. <i>A. R. Dorosty, P. Emmett, I. Rogers & J. J. Reilly</i>	60A
Influence of diet and socio-economic factors on the nutritional status of pre-school children in Uganda. <i>J. K. Kikafunda & A. F. Walker</i>	60A
Development of waist circumference percentiles in British children aged 5.0 to 16.0 years. <i>H. D. McCarthy, H. F. Crawley & K. V. Jarrett</i>	61A
A prospective cohort study of factors influencing breast-feeding initiation and duration in rural Australia. <i>R. M. Hughes & M. Landers</i>	61A
Maternal protein deficiency alters the fetal growth trajectory during late gestation. <i>W. D. Rees, S. M. Hay, R. M. Palmer & C. Antipatis</i>	62A
Metabolic properties of faecal samples from breast-fed and formula-fed babies. <i>P. M. Heavey, A. J. McBain, C. J. Rumney, I. R. Rowland, S.-A. H. Savage & C. A. Edwards</i>	62A
Factors associated with the introduction of complementary foods to the preterm infant. <i>F. J. Norris, C. M. Williams, M. S. Larkin, S. M. Hampton & J. B. Morgan</i>	63A
Food antibodies in breast-milk samples from mothers of preterm infants. <i>F. J. Norris, N. J. Beveridge, C. M. Williams, M. S. Larkin, J. B. Morgan & S. M. Hampton</i>	63A
Investigation of bacterial colonization of the colon in breast-fed infants using novel techniques. <i>F. Martin, S.-A. H. Savage, A. M. Parrett, G. Gramet, J. Dore & C. A. Edwards</i>	64A
Excretion of faecal starch and fat in breast-fed and formula-fed infants during weaning: a longitudinal study. <i>A. M. Parrett, S. Khanna & C. A. Edwards</i>	64A
Identification of the obese child: adequacy of simple obesity definitions for clinical practice and epidemiology. <i>J. J. Reilly, A. R. Dorosty & P. Emmett</i>	65A
An investigation of pre-operative fasting times. <i>Z. Brooke & J. Coad</i>	65A
Sex differences in the risk of nutritional failure in children with cystic fibrosis. <i>H. Anthony, F. Mattinson, E. Volders & L. Bond</i>	66A
Dietary fat and insulin resistance: influence of increased long-chain <i>n</i> -3 polyunsaturated fatty acid intakes or a reduced saturated fat intake on the insulin sensitivity of hormone sensitive lipase action in middle-aged men. <i>K. A. Slevin, A. C. Fereday, E. Ah Sing, A. Irvine, L. M. Morgan, C. M. Williams, J. Wright & D. J. Millward</i>	66A
Diurnal variation in insulin sensitivity in man: effect of time of day on post-heparin plasma lipoprotein lipase activity. <i>M. P. Arasaradnam, R. Gama & L. M. Morgan</i>	67A
An adverse low density lipoprotein-cholesterol response to fish oil supplementation is observed in subjects with an apoE4 genotype. <i>A. M. Minihane, P. J. Talmund, S. E. Humphries, M. C. Murphy, B. A. Griffin & C. M. Williams</i>	67A
Effects of a multivitamin-multimineral supplement on metabolic parameters and psychological wellbeing in type II diabetes. <i>G. Marakis, A. F. Walker & H. Simpson</i>	68A

- The lactose [^{13}C]-ureide breath test for measuring oro-caecal transit time.
D. J. Morrison, B. Dodson, T. Preston & L. T. Weaver 68A
- Altered metabolism of ^{13}C -labelled tripalmitin in cystic fibrosis patients compared with controls.
K. M. Laiho, J. Gavin, J. L. Murphy, G. J. Connett & S. A. Wootton 69A
- The impact of a transferable programme of intensified nutritional counselling in cardiac rehabilitation following myocardial infarction.
W. S. Leslie, C. R. Hankey, J. E. P. Currall, D. Matthews & M. E. J. Lean 69A

Dublin Institute of Technology, Republic of Ireland, 1–3 September 1999

- A comparison of actual relative weight with perceived body shape of Dublin primary schoolchildren.
A. C. Griffin & M. A. T. Flynn 71A
- Energy expenditure and its components in relation to body fatness and risk of obesity in primary school children.
A. F. McGloin, M. B. E. Livingstone, L. C. Greene, S. E. Webb, J. M. A. Gibson, S. A. Jebb, T. J. Cole, W. A. Coward, A. Wright & A. M. Prentice 71A
- Health Behaviour in School Children (HBSC): food habits of dieting teenagers.
G. Nolan, S. Friel, S. Nic Gabhainn & C. Kelleher 72A
- Tracking of snacking patterns reported by Northern Ireland adolescents.
P. J. Robson, A. M. Gray, M. B. E. Livingstone, G. W. Cran, J. J. Strain, J. M. Savage & C. A. G. Boreham 72A
- Nutritional value of different types of school meals.
W. L. Wrieden, A. Bell & R.-A. Main 73A
- The nutritional adequacy of school meals: a pilot study in preparation for the introduction of standards, 2002.
S. L. Reeves, V. Halpenny, E. Bowers & S. Talbot 73A
- A comparison of energy, food and nutrient intakes between a private hospital and two public hospitals.
R. Shirley & M. Moloney 74A
- Patient satisfaction and food wastage in a private hospital: a comparison with two public hospitals.
A. Heffernan & M. Moloney 74A
- Oral nutritional supplements: method of distribution, prescription *v* receipt.
E. B. O'Sullivan, P. Flood, G. Ryan & M. Moloney 75A
- Home tube feeding in Dublin: a comparison of the practices of a paediatric hospital in Dublin with the BAPEN standards.
E. McNamara, M. Breslin, P. Flood & N. P. Kennedy 75A
- Anthropometric data of healthy elderly Irish subjects.
C. Corish, P. Flood & N. P. Kennedy 76A
- Anthropometric measurements in inflammatory bowel disease.
S. Lindsay, A. Cahill & M. E. J. Lean 76A
- Improved nutritional and clinical management increases growth in children with human immunodeficiency virus infection.
E. Ball, D. Duiculescu, M. O'Sullivan, E. Mihai, P. Calistru & P. M. Mathias 77A
- Supplementary feeding with Nutrifil reduces malnutrition and improves growth in institutionalized neurologically handicapped children in Romania.
M. O'Sullivan, E. Ball & P. M. Mathias 77A
- Public health nurses: attitudes to and perceptions of the community nutrition service.
G. Mallon & K. Younger 78A
- Survey on Lifestyle, Attitudes and Nutrition, SLÁN: risk factor profile of diabetic respondents.
J. Harrington, S. Friel & C. Kelleher 78A
- Survey on Lifestyle, Attitudes and Nutrition (SLÁN): food habits of those aged 65 years and over.
K. Rossnagel, S. Friel & C. Kelleher 79A

Consumer motivation and high nutrient availability in relation to food. <i>N. C. Ester & C. M. Delahunty</i>	79A
Trends in dietary intake over 10 years by sex in an area of social deprivation and high risk of coronary heart disease. <i>W. L. Wrieden, H. Tunstall-Pedoe, M. K. Hannah & C. Bolton-Smith</i>	80A
Alteration of dietary fat and carbohydrate intakes in Irish males: a feasibility study. <i>P. O'Connor & M. A. T. Flynn</i>	80A
Food and nutrient intakes in pregnant Irish adolescents and young women. <i>S. E. Floyd, P. J. Finn, S. Patterson & M. A. T. Flynn</i>	81A
Adaptations to folate requirement in pregnancy. <i>E. P. Quinlivan, J. McPartlin, D. G. Weir & J. M. Scott</i>	81A
Folic acid fortification of bread: effect of chronic consumption on unmetabolised folic acid in serum. <i>M. R. Sweeney, J. McPartlin, D. G. Weir & J. M. Scott</i>	82A
Differences in erythrocyte folate values measured by microbiological and radiometric assays. <i>B. M. J. Wilson, H. McNulty, J. McPartlin, J. J. Strain, D. G. Weir & J. M. Scott</i>	82A
Effect of folic acid-fortified foods on the folate status of folate-deficient rats. <i>K. O'Leary & P. J. A. Sheehy</i>	83A
Low dose vitamin B ₆ lowers fasting homocysteine levels. <i>M. C. McKinley, H. McNulty, J. McPartlin, J. J. Strain, D. G. Weir & J. M. Scott</i>	83A
Effect of dietary antioxidants on <i>in vitro</i> oxidation of low density lipoprotein under physiologically relevant oxidising conditions. <i>C. O'Hagan, J. McEneny & I. S. Young</i>	84A
Incorporation of low doses of fish oils into platelet phospholipids and effects on postprandial plasma lipids and lipoproteins. <i>A. M. Tully, E. J. Noone, H. M. Roche & M. J. Gibney</i>	84A
The effect of dietary intake of low dose fish oil for 16 weeks on cholesteryl ester transfer protein mass activity, and on plasma and HDL lipids. <i>E. Noone, H. M. Roche, I. Black, A. M. Tully & M. J. Gibney</i>	85A
Effect of supplementing healthy volunteers with low dose <i>n</i> -3 polyunsaturated fatty acids (<i>n</i> -3 PUFA) on the susceptibility of low density lipoprotein (LDL) to oxidative modification. <i>S. Higgins, Y. L. Carroll, N. M. O'Brien & P. A. Morrissey</i>	85A
Assessment of the bioavailability of <i>n</i> -3 polyunsaturated acids (PUFA) in foods enriched with microencapsulated fish oil. <i>J. M. W. Wallace, A. T. McCabe, M. K. Keogh, C. A. Murray, P. M. Kelly, W. S. Gilmore & J. J. Strain</i>	86A
Modulation by α -tocopherol and α -tocopherol acetate of oxysterol-induced apoptosis in U937 cells. <i>N. M. Lyons, J. A. Woods & N. M. O'Brien</i>	86A
Effect of vitamin E on hydrogen peroxide and menadione-induced Sister Chromatid Exchange (SCE) in V79 cells. <i>K. A. O'Leary, J. A. Woods & N. M. O'Brien</i>	87A
The effect of flavonoids on repair of hydrogen peroxide-induced DNA damage in Caco-2 cells. <i>S. A. Aherne & N. M. O'Brien</i>	87A
The effect of the citrus phytochemicals limonin and nomilin on glutathione-S-transferase activity in rat liver. <i>C. Kelly, C. Jewell & N. M. O'Brien</i>	88A
The effect of meal casein phosphopeptide content on calcium absorption in the rat. <i>T. Bennett, A. Desmond, D. McDonagh, R. Fitzgerald, A. Flynn & K. D. Cashman</i>	88A
The effect of dietary sodium and protein intakes on bone composition and bone resorption in the rat. <i>A. Creedon, A. Flynn & K. D. Cashman</i>	89A
The effect of casein phosphopeptides and sugar alcohols on calcium bioavailability in Caco-2 cells. <i>T. Bennett, S. Kennefick & K. D. Cashman</i>	89A

Inhibitory effect of wheat-fibre extract on calcium bioavailability in Caco-2 cells. <i>K. D. Cashman, S. Kennefick & T. Bennett</i>	90A
Vitamin D receptor gene polymorphisms (detected by <i>Taq</i> I and <i>Fok</i> I endonucleases) and circulating osteocalcin in healthy Irish adults. <i>D. Sheehan, T. Bennett & K. D. Cashman</i>	90A
Vitamin and mineral intake in a population at high risk from coronary heart disease and its relationship with smoking and blood pressure. <i>P. M. L. Skidmore, J. W. G. Yarnell, I. S. Young, D. McMaster & J. V. Woodside</i>	91A
Can plasma antioxidant levels act as biomarkers of low density lipoprotein (LDL) antioxidant concentrations? <i>S. Higgins, Y. L. Carroll, N. M. O'Brien & P. A. Morrissey</i>	91A
Apolipoprotein E gene polymorphisms and serum cholesterol in healthy Irish adults. <i>D. Sheehan, T. Bennett & K. D. Cashman</i>	92A
Selenium content of a range of Irish foods. <i>J. Murphy, B. Mulvihill & K. D. Cashman</i>	92A
Sodium iron(III) EDTA as an iron fortificant in breakfast cereals. <i>G. Wortley, B. Teucher, S. Fairweather-Tait, A. Twaite, J. Dainty & N. Almeida</i>	93A
Regional differences in foods eaten by a national sample of 4-year-old children in 1950. <i>C. J. Prynne, A. A. Paul, R. J. Hardy & M. E. J. Wadsworth</i>	93A
Pilot study of self-reported associations between foods and heartburn in outpatients with gastroesophageal reflux. <i>H. Bonney & S. E. Morris</i>	94A
Still hungry in hospital: identifying malnutrition in acute hospital admissions. <i>S. Tessier, I. E. Kelly, A. Cahill, S. E. Morris, A. Crumley, D. McLaughlin, R. F. McKee & M. E. J. Lean</i>	94A
Relationship between the volatile composition and sensory character of cheese. <i>J. B. P. Lawlor & C. M. Delahunty</i>	95A
Factors influencing binding of low density lipoprotein to collagen. <i>J. Cundick, J. McEneny & I. S. Young</i>	95A
Decreased serum homocysteine in pregnancy: possible role in methylation cycle regulation. <i>E. P. Quinlivan, J. McPartlin, D. G. Weir & J. M. Scott</i>	96A
The use of the comet assay to determine the mode of cell death induced by oxysterols <i>in vitro</i> . <i>Y. C. O'Callaghan, J. A. Woods & N. M. O'Brien</i>	96A
DNA repair in hydrogen peroxide-treated Caco-2, HepG2 and V79 cells. <i>S. A. Aherne & N. M. O'Brien</i>	97A
The effect of α -tocopherol, γ -tocopherol and β -carotene on oxidant-induced injury of proliferating human intestinal CaCo-2 cells. <i>J. A. Woods & N. M. O'Brien</i>	97A

Universidad de Navarra, Pamplona, Spain, 8–11 September 1999

Qualitative and quantitative changes in energy intake following human liver denervation. <i>I. Davidson, R. A. Richardson & O. J. Garden</i>	99A
The evaluation of the best strategy to increase muscle mass and improve the health in obese women. <i>L. O. Pereira, M. Klopfer, P. Vieira, R. Francischi, R. Camargo, C. Freitas, L. Sawada, P. Campos & A. H. Lancha Jr</i>	99A
β -hydroxy β -methylbutyrate supplementation improves lean mass retention in resistance-exercise trainers during a period of increased energy expenditure. <i>D. D. Cohen, O. Obeid & A. J. Wade</i>	100A
Nutritional status and immunocompetence in Spanish, overweight or obese, aged individuals. <i>P. Varela, P. García-García, R. M. Ortega, E. Quintas & A. M. Requejo</i>	100A

Nutritional profile according to energy density of the diet in a Mediterranean population. <i>G. C. Pastor, V. A. Val, J. Fernández-Ballart & C. Martí-Henneberg</i>	101A
Influence of regional adipose tissue fatty acid compositions on the plasmatic lipid profile. <i>M. Garaulet, F. Pérez-Llamas, M. Pérez-Ayala, F. Rueda, F. J. Tebar & S. Zamora</i>	101A
Evaluation of protein depletion in underweight anorexia nervosa patients during refeeding. <i>E. Nova, I. López-Vidriero, O. Toro, P. Varela, J. Casas & A. Marcos</i>	102A
Consumption of food and nutrients in an institutionalized group of mentally retarded people. <i>M. Arroyo & A. M. Rocandio</i>	102A
Intake of daily food servings in school children. <i>A. M. Rocandio, L. Ansotegui & I. Mellado</i>	103A
The "Toledo Area Study". Prevalence of overweight and obesity. <i>F. J. Sanchez-Muniz, S. Bastida, S. Perea, R. Cuenca & A. Aragónés</i>	103A
Prevalence of Obesity in Institutionalized Elderly People. Relationship with Sex and Age. <i>R. Royo, A. López & A. Hernández</i>	104A
Variations in the prevalence of obesity depending on different reference population data. <i>F. Soria, C. González, M. Á. López, E. Fernández, M. Garaulet, F. Pérez-Llamas & S. Zamora</i>	104A
Eating behaviour and nutritional concerns among female dance and non-dance students. <i>M. Yannakoulia, M. Sitara & A.-L. Matalas</i>	105A
Overweight and lipid profile in preschool children from low income families in Valencia, Venezuela. <i>L. Solano, A. Sanchez, M. Paez, S. Del Real & E. Peña</i>	105A
Obesity and anthropometric risk during the first trimester of pregnancy. Cluster multivariant analysis. <i>A. Sanchez, E. Peña, L. Solano & A. Garcia</i>	106A
Body fat increase during pregnancy. <i>E. Peña, A. Sanchez & L. Solano</i>	106A
Nutritional status in Chilean schoolchildren according to different classifications. <i>G. Salazar, S. Guevara, J. Kain & F. Vio</i>	107A
Association among anthropometric data, fasting insulin levels, serum lipids and dietary intake in an adolescent population. <i>J. C. Baraza, A. Martínez-González, F. Sánchez, M. Garaulet, F. Pérez-Llamas & S. Zamora</i>	107A
Nutritional status of ballet dancers and elite gymnasts: A comparative study. <i>S. López-Varela, A. Montero, E. Larque, S. Zamora, R. K. Chandra & A. Marcos</i>	108A
Changes in BMI, feeding habits and menopause. <i>P. Montero, C. Bernis, C. Varea, S. Arias, A. Barroso & B. González</i>	108A
Interstitial glycerol concentration in rat subcutaneous and epididymal adipose tissues assessed <i>in vivo</i> by microdialysis technique. <i>J. M. Villaro, M. T. Macarulla, M. I. Torres & M. P. Portillo</i>	109A
Effects of trecadrine, a β 3-adrenergic agonist, on leptin secretion and glucose uptake in primary rat adipocytes. <i>M. J. Moreno-Aliaga, P. J. Havel, K. Stanhope, M. P. Fernandez-Otero & J. A. Martinez</i>	109A
Time-dependent regulation of some white adipose tissue genes involved in adipogenesis and in thermogenesis after cafeteria feeding. <i>J. Margareto, M. Corbalán, A. Martí & J. A. Martínez</i>	110A
Leptin increases metabolites oxidation in isolated rat adipocytes. <i>W. N. William Jr, R. B. Ceddia, F. B. Lima, J. P. Giacobino & R. Curi</i>	110A
The effect of dietary fatty acids on the expression of genes involved in lipid handling. <i>C. E. Donnellan, M. Tadayyon, C. Briscoe, J. Arch & P. C. Calder</i>	111A
Effects of a cafeteria diet on the expression of Retinoic Acid (RAR), Triiodothyronine (TR) and Peroxisome Proliferator Activated (PPAR) nuclear receptors in the rat liver. <i>A. Redonnet, C. Noel-Suberville, S. Bonilla, R. Groubet, A. Martinez & P. Higuieret</i>	111A
Nutritional-induced changes in the peroxisome proliferator-activated receptor- α (PPAR α) gene expression in liver of sucking rats. <i>M. I. Panadero, E. Herrera & C. Bocos</i>	112A

Stimulation of glucose metabolism in rat adipose tissue by substrates of semicarbazide-sensitive amine oxidase and monoamine oxidase: <i>in vitro</i> and <i>in vivo</i> studies.	
<i>N. Morin, D. Prévot, X. Testar, J. Galitzky, M. Lafontan & C. Carpéné</i>	112A
Whole seeds and a protein isolate of faba bean have different effects on faecal excretion of total lipids, cholesterol and biliary acids in hypercholesterolaemic rats.	
<i>C. Medina, M. P. Portillo, M. A. De Diego, M. A. Zulet, J. A. Martínez & M. T. Macarulla</i>	113A
Fatty acid composition of liver phospholipids and triacylglycerols in rats fed on diets containing two different saturated fats.	
<i>D. Duran, M. T. Macarulla, M. I. Torres, V. Ruiz, J. Sánchez & M. P. Portillo</i>	113A
Nitric oxide in diets with excess fat: its influence on pancreatic lipase and nutritional indicators.	
<i>M. González, B. Caride, M. A. Lamas & M. C. Taboada</i>	114A
Role of nitric oxide in the regulation of hydroxy-3-methylglutaryl-coenzyme A reductase and some plasma parameters in rats fed a hypercaloric diet.	
<i>B. Caride, M. González, M. A. Lamas & M. C. Taboada</i>	114A
Functional characterization of the short isoform of the leptin receptor (muB1.219) expressed in <i>Xenopus laevis</i> oocytes.	
<i>A. Barber, A. Marti, J. A. Martinez & M. P. Lostao</i>	115A
Protein metabolism changes and amino acid balance in overweight rats.	
<i>E. Simón, M. P. Portillo & A. S. Del Barrio</i>	115A
Amino acid balance in overweight rats after treatment with a diet containing medium-chain fatty acids.	
<i>E. Simón, M. P. Portillo & A. S. Del Barrio</i>	116A
Effects of a pharmacological induction of PPAR (Peroxisome Proliferators Activated Receptors) by Bezafibrate on the expression of nuclear receptors in rat liver.	
<i>S. Bonilla, A. Redonnet, R. Groubet, P. Huguieret & C. Noel-Suberville</i>	116A
Lipid absorption profiles associated with gastrointestinal transit responses to chronic high-fat feeding in rats.	
<i>A. Shafat, B. Murray & D. Rumsey</i>	117A
High dietary folate supplementation in weanling rats.	
<i>M. Achón, N. Úbeda, M. Gallardo, E. Alonso-Aperte & G. Varela-Moreiras</i>	117A
Methionine metabolism and hepatotoxicity induced by valproate in mice.	
<i>L. Reyes, R. Póo, G. Varela-Moreiras & E. Alonso-Aperte</i>	118A
Role of semicarbazide-sensitive amine oxidase and monoamine oxidase in glucose transport and adipogenesis in cultured adipocytes.	
<i>E. Fontana, J. Boucher, V. Trocheris, C. Merial & C. Carpéné</i>	118A
Valproate acute administration to rats: implications for mechanisms of teratogenesis.	
<i>N. Úbeda, M. Achón, G. Varela-Moreiras & E. Alonso-Aperte</i>	119A
Zucker obese (<i>fa/fa</i>) rats lipoprotein profile shows a higher proportion of chylomicra than that of the lean, which results in marked hyperlipidaemia.	
<i>J. Peinado, J. Julve, M. T. Blay, V. Rodríguez, J.-A. Fernández-López, X. Remesar & M. Alemany</i>	119A
Dietary <i>trans</i> fatty acids affect hepatic $\Delta 6$ fatty-acid desaturase activity and docosahexaenoic acid levels in plasma and liver of pregnant rats.	
<i>E. Larqué, S. Zamora & Á. Gil</i>	120A
Influence of dietary <i>trans</i> fatty acids on the polyunsaturated fatty acid content of rat milk.	
<i>E. Larqué, S. Zamora, A. Marcos, S. López-Varela & Á. Gil</i>	120A
rhGH administration induced a shift in the body fat gain/body protein gain ratio towards body fat deposition in mice fed 12% or 20% protein diet.	
<i>A. Agis-Torres, M. E. López-Oliva, M. T. Unzaga & E. Muñoz-Martínez</i>	121A
Changes in food intake, food efficiency, body weight, liver, and spleen mass associated with consumption of a high polyunsaturated fatty acid diet.	
<i>A. M. Pérez-Granados, M. P. Vaquero & M. P. Navarro</i>	121A
An investigation of the role of oro-sensory stimulation in sugar satiety.	
<i>J. Lavin & N. Read</i>	122A

Adaptation of Energy Intake to Energy Expenditure in Humans. <i>M. S. Westerterp-Plantenga</i>	122A
Modified sham feeding of a modest-fat meal suppresses plasma non-esterified fatty acids. <i>M. D. Robertson, K. G. Jackson, C. M. Williams, B. A. Fielding & K. N. Frayn</i>	123A
The effect of habitual exercise level upon appetite response and food intake following high and low energy preloads. <i>S. J. Long, K. H. Hart & L. M. Morgan</i>	123A
Restoration of energy balance following a diet- or exercise-induced energy deficit. <i>M. S. Moore, P. R. Murgatroyd, G. R. Goldberg & S. A. Jebb</i>	124A
Differences in substrate oxidation and risk factors for obesity in Chilean low socio-economic level women. <i>E. Diaz, R. Ratner, C. Urteaga, V. Gattas & J. Galgani</i>	124A
Body composition by dual-energy x-ray absorptiometry before, during and after weight loss in obese volunteers. <i>M. C. W. Van Wijk, T. P. Gill, E. Rennie & W. P. T. James</i>	125A
Short-term metabolic changes and de novo lipogenesis induced by a high-carbohydrate meal in lean and obese subjects. <i>I. M. Lopes, D. Ansorena, L. Forga, I. Astiasarán & J. A. Martínez</i>	125A
Influence of fresh and heated yoghurt on lactose digestion and tolerance, gastric emptying and orocecal transit time in lactose malabsorbers. <i>I. Labayen, L. Forga, A. González, I. Lenoir & J. A. Martínez</i>	126A
Arm span and knee height as indexes of stature in expression of body composition in elderly people. <i>B. Beltrán, C. Cuadrado, Á. Carbajal & O. Moreiras</i>	126A
The effects of breakfast skipping on physiological and psychological well-being. <i>R. Moore & N. W. Read</i>	127A
Maternal experience associated with changes in body mass index and distribution of body adiposity. <i>T. H. M. Da Costa, M. De Lourdes & C. F. Rodrigues</i>	127A
Pubertal maturation does not reduce total fat in the obese child. Comparative analysis of two measurement techniques: anthropometry and DEXA. <i>D. Llop, I. Barber, B. Vizmanos & C. Martí-Henneberg</i>	128A
Rate of gestational weight change in women from preconception until birth. <i>V. Arija, M. Murphy, J. Vila, R. Iranzo & J. Fernandez-Ballart</i>	128A
The role of the school canteen in the prevention of obesity. <i>A. Roset, B. Gonzalvo, A. Santaularia, J. Serra & M. Castells</i>	129A
Biochemical markers of bone formation in healthy institutionalized elderly subjects: relationship with age and sex. <i>R. Moreno-Torres, M. D. Ruíz-López, R. Artacho, P. Oliva, D. Solano, J. Jiménez & M. C. Martínez</i>	129A
Body measurement changes in obese growth hormone treated patients. <i>A. R. Ghione Pelayo, C. I. De La Mata, A. Pietrobelli, J. C. Montero & L. Del C. Zamponi</i>	130A
Changes in the quantitative and qualitative composition of fat from trout due to "sous vide" processing. Comparison with traditional cooking methods. <i>M. C. García-Linares, M. T. García-Arias, M. Tome, R. Capita & M. C. García-Fernández</i>	130A
Serum zinc levels in a HIV/AIDS population in Granada, Spain: its relationship with nutritional and immunological parameters. <i>M. T. Moreno, M. D. Ruíz-López, R. Artacho & A. Pérez de la Cruz</i>	131A
Effects of beer, wine and ethanol consumption on homocysteine metabolism in rats. <i>R. Póo, L. Reyes, E. Alonso-Aperte & G. Varela-Moreiras</i>	131A
Obesity and thiamin metabolism. <i>C. Patrini, A. Griziotti & L. Ricciardi</i>	132A
Effect of added lactoferrin on iron dialysability in infant formulas. <i>M. Jovani, R. Barbera & R. Farre</i>	132A

- Effects of surgery for morbid obesity on serum retinol, α -tocopherol and main carotenoids levels: preliminary results from a long-term follow-up study.
I. Bretón, C. Cuerda, M. Camblor, A. Soto, F. Granado, B. Olmedilla, B. Moreno & P. García-Peris 133A
- Iron metabolism in rats fed diets containing heated Glucose-Lysine.
C. Delgado-Andrade, I. Seiquer, A. Valverde & M. P. Navarro 133A
- Effects of the heat treatment of casein on Zn transport and uptake by Caco-2 cells.
I. Seiquer, C. Delgado-Andrade & P. Navarro 134A
- Zinc bioavailability in dietetic preparations used in slimming diets consumed with and without milk.
M. P. Navarro & M. Aguirre 134A
- Endocrine, metabolic and nutritional factors in the establishment of obesity and their relative significance.
M. Garaulet, F. Pérez De Heredia, F. Pérez-Llamas, M. Canteras, M. Serrano, F. J. Tebar & S. Zamora 135A
- Relationship between regional adipose tissue cellularity and plasma levels of leptin and insulin.
M. Garaulet, F. Pérez-Llamas, M. J. Dato, T. Fuente, F. J. Tebar & S. Zamora 135A

The Bournemouth International Centre, Bournemouth, 8–10 December 1998

- The pathogenesis of chronic intestinal failure in Crohn's disease.
A. O. Agwunobi, G. L. Carlson, I. D. Anderson, M. H. Irving & N. A. Scott 137A
- Differences in body composition between colonic and ileal Crohn's disease.
D. Meister, W. Keller, W. J. Hannan, C. Millar & S. Ghosh 137A
- Judgement of health and longevity based on body size and shape.
E. K. Truscott, E. L. Gates, T. S. Han, C. E. Morrison & M. E. J. Lean 138A
- The effect of glutamine supplementation on RNA turnover in critically-ill patients.
S. B. Malik, M. O'Leary, G. K. Grimble, C. J. Hinds & J. H. Coakley 138A
- Electrode placement for multifrequency bioelectrical impedance analysis: proximal or distal electrodes?
D. Meister, W. Keller & S. Ghosh 139A
- Determining the incidence of hospital trust malnutrition to plan and target nutritional support strategies.
H. J. Peake, S. C. Evans, A. A. Maltby, J. Bartram & G. S. Frost 139A

Publisher: David Nicholson

Special sales:

This journal accepts advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. Please contact David Nicholson at the Wallingford address for further details.

Subscription information:

The *Proceedings of the Nutrition Society* is an international journal published by CABI Publishing (a division of CAB International) on behalf of The Nutrition Society as six issues per year. Symposium papers are published in February, May, August and November; Original Communications are published in two separate issues, OCA and OCB.

Annual subscription rates:

Volume 59, 2000 (6 issues): £295.00
US Dollars (Americas only): \$495.00

Japanese Agent: Maruzen Company Ltd, PO Box 5050, Tokyo International, 100-31, Japan.

Back volumes are available. Please contact CABI Publishing for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is

received within six months of publication. Replacement copies supplied after this date will be chargeable.

Despatch: deliveries outside the UK are by ASP Print-flow Airsaver unless other arrangements are made. Customers requiring airmail delivery should indicate clearly their requirements and add an additional 10 % to the relevant subscription price.

US POSTMASTERS: please send address corrections to CABI Publishing at the Wallingford address.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at <http://www.nutsoc.org.uk> (an abbreviated Notes for Authors can be found inside the back cover).

Offprints: The authors (or main author) of an accepted paper will receive 50 free offprints of their paper and a voucher copy of the issue in which their paper has been published. Additional offprints are available for a fee and should be ordered at proof stage. No page charges are levied by this journal.

Copyright: The Nutrition Society, 2000. Permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.
