

Fauna & Flora International membership application Please complete in block letters

Surname _____ First name(s) _____ Title _____
Address _____
Postcode _____

Membership categories (tick appropriate box)

- Standard (includes *Oryx* and *Fauna & Flora News*) £27
Concessionary (senior citizen, unwaged, student*) £15 Sponsor £50 (includes additional subscription for *Oryx* in a developing country)
Supporter (includes *Fauna & Flora News*) £12 Life £1000
Airmail despatch (see inside cover for standard despatch details) £8.00

*If student please give date you expect to finish studies _____

Methods of Payment

Cheque/postal or money order/giro credit (currency: £ sterling only) I enclose £

Credit card (American Express, Visa, Delta, Switch, Mastercard, Access, Eurocard)

Name of card _____ Name of card holder _____ Expiry date _____
Card No.

Direct Debit Please fill in the whole form and send it to FFI

Originator's identification number
916890

- Name and full postal address of your Bank or Building Society Branch
To: The Manager, _____ Bank or Building Society, _____
Postcode _____
 - Name(s) of account holder(s) _____
 - Branch Sort Code - -
 - Bank or Building Society Account No. _____ 5. FFI ref. no. (office use only) _____
 - Instructions to your Bank or Building Society. Please pay Fauna & Flora International Direct Debits from the account detailed on this Instruction subject to safeguards assured by The Direct Debit Guarantee
- Signature(s) _____ Date _____

Deed of Covenant

If you pay income tax in the UK you can greatly increase the value of your subscription to the FFI, at no additional cost to yourself, by signing this Deed of Covenant.

I (full name) _____ of _____
hereby covenant with the Fauna and Flora Preservation Society, whose office is Great Eastern House, Tenison Road, Cambridge CB1 2DT, that for a period of four years from the date hereof, or until my death (whichever shall be the shorter period) I will pay annually to the said Society from the ___ day of _____ (this date should be later than the date of the signature) in every year such a sum as, after deduction of income tax at the standard rate for the time being in force, amounts to £____ (please insert the actual amount of your subscription), such a sum to be paid from my general fund of taxed income.

Signed and sealed by me this ___ * day of _____ 19 _____ Signature _____
In the presence of _____ Occupation _____
(signature of witness, who should not be your spouse)
Address _____

* The first payment must be received within 1 year from this date. 3/98

ORYX: NOTES FOR CONTRIBUTORS

Scope *Oryx* is the journal of Fauna & Flora International whose mission is 'To safeguard the future of endangered species of animals and plants'. *Oryx* publishes information on the conservation of threatened species and habitats world-wide.

Readership The readership is broadly based and international. It includes conservation professionals, members of academic institutions with wildlife conservation specialisms, governmental departments, non-governmental conservation organizations, students in conservation-related disciplines and interested members of the general public.

Content *Oryx* publishes articles, Guest Editorials, News and Views (opinions, letters concerning material appearing in the journal, issues of topical interest, new discoveries.), and Briefly – an international digest of conservation news. Guidance on submitting papers is given below. Those wishing to contribute to other sections of the journal should contact the editor.

Submissions: to the Editor, FFI, Great Eastern House, Tenison Road, Cambridge CB1 2DT, UK. Manuscripts submitted for consideration should be appropriate for the readership and should focus on the conservation of threatened species

Papers occupying fewer than three pages of the journal are accepted as **Short Communications**.

Papers are accepted on the understanding that their contents have not been published, or submitted for publication, elsewhere. A covering letter accompanying the manuscript should confirm this. If there is any overlap with other papers, e.g. in press or in prep., this should be stated and the papers in question sent to the editor. The corresponding author must confirm that all authors are aware that the manuscript has been submitted.

All manuscripts are reviewed by at least two referees. It is helpful if authors suggest at least one referee who is qualified to judge the work objectively.

After acceptance papers may be edited to enhance clarity. Where major changes have been made edited manuscripts are returned to authors before type-setting. Page proofs are sent to authors for approval before going to press. Contributors receive two free copies of the journal and will be entitled to buy additional copies and offprints at cost price.

Preparation of manuscripts Contributions should be in English, be concise and readable, and should avoid jargon. Articles should be as short as possible, preferably under 3000 words. Manuscripts should be typed on one side only and double-spaced on A4 paper, with a left-hand margin of at least 40 mm. Three copies should be submitted.

An Abstract should describe the purpose of the paper, outlining any major findings or points, and stating the main conclusions. It should be concise

(between 100 and 250 words long), informative and intelligible without reference to the text.

Footnotes should be avoided but, if necessary, should be indicated with asterisks in the text. The author's name and postal address should follow any acknowledgements and references.

References should be cited in the text as, for example, Hardcastle and Wilson (1996) or, in parentheses, as (Leadbeater, 1996). Where there are three or more authors use the first authors surname followed by *et al.* Multiple references should be listed in chronological order. The reference list should be in alphabetical order and include the full article title. Titles of serial publications should be given in full. References at the end of the paper should follow the Harvard system. The following are examples of house style.

Author, A.B. and Author, B.C. 1996. Title of article. *Journal Title in Italics in Full*. 00 (Suppl. 2), 000–000.
Author, A., Author, B., Author, C. *et al.*, [if more than 6]. In press. *Book Title* (ed. A. B. Editor). Publisher, Place.

Author, A. and Author, B., Jr. 1989. Chapter title with lower case initials except for proper nouns etc. In *Book Title in Italics*, Vol. 1. *Upper-case Initials to Nouns etc.* (eds A. B. Editor and C. D. Editor), 2nd edn, pp. 00–00. Publisher, Place.

Author, A. 1996. *Thesis title with lower-case initials to words except proper nouns etc.* PhD thesis, University.

Author, A. In press. *Rapport sur quelque fois*. Report no. 1, Institution Name in Full, Place [in French].

Author, A. 1996. Abstract title. In *Symposium on How to Present References* (ed A. B. Editor), pp. 62, abstract 500. Publisher, Place.

Illustrations are welcomed and ideally should be glossy, black-and-white whole-plate prints. Good colour slides are acceptable if black-and-white photographs are not available. Plates are not normally given figure nos. Captions for photographs should be typed on a separate sheet.

Figures Maps and figures should be in black ink on strong white or translucent paper and should not be labelled. Lettering on maps and figures should be sent on a separate copy of the figure.

Tables Each table should be self-explanatory and typed on a separate sheet with an appropriate caption.

Scientific names should not be placed in parentheses where they follow English names: Thus: snow leopard *Uncia uncia*. Species' names should follow a named checklist, which should be mentioned in a covering letter. The first time a species is mentioned its scientific name should be given. English names should be in lower case throughout except where they incorporate a proper name.

Contents

Cover
Tayra *Eira barbara*, Tambopata Reserve, Peru.
This species, the only member of the genus, is found from Mexico to northern Argentina and on the island of Trinidad. A forest dweller, it nests in hollow trees or burrows made by other animals, and can climb, run and swim. The tayra can live in captivity for 18 years, loves to play and can be tamed. It was used long ago by the Indians to control rodents. The subspecies *E. b. senex* in Belize, Guatemala and Mexico is listed as Vulnerable in the 1996 IUCN Red List of Threatened Animals because of rapid population declines
