ENGLAND IN THE AGE OF PITT: THREE IMPORTANT STUDIES

THE REGENCY CRISIS AND THE WHIGS, 1788-89

By J. W. Derry

Personal feuds and violent political differences among Whig leaders on the eve of the French Revolution are the focus for this study in depth. Dr Derry argues that the political crisis over regency, precipitated by George III's madness, marked the first stage in the break-up of the old Whig Party. Further dimensions of this work include detailed explanations of the constitutional problems of regency and the medical diagnoses of the King's doctors, as well as perceptive character studies of principal figures like Fox, Burke, Pitt, Loughborough, and Sheridan.

THE LATER CORRESPONDENCE OF KING GEORGE III

Volume I, 1783 - 1793

Edited by A. Aspinall

The initial volume in a projected five-volume edition opens at the moment when the great initiative of George III's reign — the policy of no surrender in America — had failed and continues to the end of Pitt's peacetime administration. The editor has collected and meticulously annotated every important previously unpublished letter, including the private papers of members of the royal family.

"It is by itself a tremendous feat of accurate and devoted scholarship, and a fitting memorial to its central figure, the king himself: a stickler for detail, who timed his letters to the minute, and for whom nothing was too much trouble." — *The Times Literary Supplement*

THE BRITISH GOVERNMENT AND COMMERCIAL NEGOTIATIONS WITH EUROPE, 1783-1793

By John Ehrman

The author provides the first thorough history of the negotiations that marked the beginning of liberal trade policy in Great Britain. Beside Pitt's Anglo-French Commercial Treaty in 1786, Mr. Ehrman explores the discussions with Spain, Portugal, Russia, Prussia, Poland, the Netherlands, and the Two Sicilies — emphasizing particularly the connections among them and the external forces that influenced them.

The Catholics in Caroline England

MARTIN J. HAVRAN

"A well-documented study of Catholic dissent during the reign of Charles I. After a nicely executed survey of recusancy under Elizabeth and James I the author proceeds to analyze the political and legal problems facing English Catholics during the years preceding the Civil War. He also deals with Catholic mistreatment at the hands of informers, the problem of Catholics in Henrietta Maria's court, continental missionary efforts in England, and Catholic contributions to national defense during the Bishops' War. . . . The careful analysis, the thoroughness of research, and the straightforward style of this book are praiseworthy." — *The Historian* \$4.75

YESTERDAY'S RULERS

The Making of the British Colonial Service

● **Robert Heussler**

Foreword by Sir John Macpherson;
Introduction by Margery Perham

"Professor Heussler('s) . . . study of the methods of recruitment and training of colonial administrators during the quarter-century beginning in 1920 when . . . Sir Ralph Furse was at the height of his powers and influence is a most valuable and very timely contribution on a major aspect of the story" — Sir John Macpherson.

"From the starting point of recruitment this study leads on to wider considerations of the British social structure. In the background lies the whole question of imperialism, now called colonialism, upon which world opinion . . . has so vigorously reversed an acceptance as old as the historical record . . . Professor Heussler is thorough and lively; as a judge he has the necessary moderation and personal and national detachment. . . . This book is likely to remain one of the most convincing parts of the evidence in a controversy which much of world opinion has turned into a prosecution" — Margery Perham.

Robert Heussler, now an official of the Ford Foundation, is an American scholar who has worked in more than 65 countries, including much of the British empire. \$5.75

THE ADMINISTRATION OF BRITISH FOREIGN RELATIONS

● **Donald G. Bishop**

"Few British writers would be at the same time qualified to undertake such a study as this and capable of doing so with complete objectivity. Mr. Bishop's purpose is not to discuss or to evaluate British foreign policy, but to dissect and display the working of the . . . machinery by which that policy has been and is now formed. His study is comprehensive, amply documented, and pleurably readable." Sir Charles Jeffries, *The Annals*. \$7.00

RECRUITS TO LABOUR

The British Labour Party, 1914-1931

● **Catherine Ann Cline**

This unusual study examines the phenomenal rise to power of the British Labour Party during and after World War I in terms of the individuals and groups — largely middle and upper class — who joined it in those years. Their identity, their motivation, their effect on party policy, both domestic and foreign, and the leadership they provided are discussed against the background of that period of cataclysmic world events.

THE HAKLUYT SOCIETY REPRINT

We are reprinting all (except superseded) volumes published by the Hakluyt Society in its FIRST SERIES which consisted of 100 volumes. These were published originally between 1847 and 1898. The series, as noted, will be available on subscription at \$1950. Parts of sets or individual volumes will be available at separate prices.

THE HAKLUYT SOCIETY, established in 1846, has for its object the publication of original narratives of important voyages, travels, expeditions, and other geographical records. Books of this class are of the highest interest to students of history, geography, literature, navigation, and ethnology; and many of them, especially the spirited accounts and translations of the Elizabethan and Stuart periods, are admirable examples of English prose at the stage of its most robust development.
