

journals.cambridge.org

Advancing research. Increasing access.

Informed by detailed consultation with the library and research communities, we are constantly developing our industry-leading online journals platform.

Some recent advances include:

- **Refreshed site design**, facilitating rapid access to the most relevant content.
- **New advanced search interface** and a more detailed, fielded quick search function.
- **Enriched content** in the form of multimedia companions and editorial blogs.
- **The launch of Cambridge Open Option**, our open access initiative.

Visit journals.cambridge.org/openoption for more information.

Editors

M. B. Allen, University of Durham, UK
Graham E. Budd, University of Uppsala, Sweden
I. N. McCave, University of Cambridge, UK
D. M. Pyle, University of Cambridge, UK

Geological Magazine is one of the oldest and best-known periodicals in earth sciences. It publishes original scientific papers covering the complete spectrum of geological topics, with high quality illustrations. Its attractive layout, Rapid Communications section and extensive Book Review section keep the journal at the forefront of the field.

Editors

Chair of the IAU Editorial Board: Karel A. van der Hucht, IAU
Assistant General Secretary, Utrecht, Netherlands

The *Proceedings* Series of the International Astronomical Union (IAU) comprises high-quality and timely previews and reviews of fundamental and state-of-the-art astrophysical developments around the world, as presented at some ten IAU-sponsored conferences per year. The Series is essential reading for both professional astrophysicists and students, for finding comprehensive reviews and for studying new developments in specialized fields.

AIMS AND SCOPE

International Journal of Astrobiology publishes original papers and review articles on Astrobiology Science. News of interest to the astrobiology community and book reviews will also feature. Contact one of the editors if you have questions regarding suitability of a subject area, news submission or book review.

The fields covered include:

- * Cosmic prebiotic chemistry
- * Planetary evolution
- * Search for planetary systems and habitable zones
- * Origins, evolution and distribution of life
- * Extremophile biology and experimental simulation of extraterrestrial environments
- * Life detection in our solar system and beyond
- * Technologies and space missions for astrobiology, and planetary protection
- * Human expansion, ecosystems beyond Earth and terraforming
- * Ecosystems beyond Earth
- * Intelligent life and societal aspects of astrobiology

There are no page charges or length restrictions. All articles are submitted to peer-review.

SUBMISSION OF MANUSCRIPTS

Contributions for consideration for publication should be submitted via our online website at http://mc.manuscriptcentral.com/submit_ija

During the submission process authors will be asked to select an appropriate Editor for their paper. Areas of interest for the Editors are as follows:

Dr. Simon Mitton – General Papers, Philosophy, Astronomy

Dr. Rocco Mancinelli – Extremophiles, Microbiology, Nitrogen Cycling

Dr. Frances Westall – Origin of Life in a Geological Context, Search for Life on Mars, Biosignatures of Early Earth Sediments.

The *initial* submission should preferably be in Word or PDF format. If your paper is accepted you will need to submit a Word document with illustrations as separate eps or tif files. LateX files can also be accepted for the final version; however a PDF must also be supplied for printing.

For papers with high resolution figures or micrographs please *also* submit a hard copy version – in colour if appropriate. Black and White halftones and colour illustrations have to be scanned at a high resolution (minimum 300dpi). For very large files contact our production department for further instruction.

Please consult our full Instructions for Contributors at journals.cambridge.org/ija

International Journal of Astrobiology

Volume 8 Issue 1 January 2009

CONTENTS

Editorial

- 1 **The special issue devoted to papers from the Astrobiology Society of Britain Conference 2008**
M. J. Burchell

Research papers

- 3 **Glittery clouds in exoplanetary atmospheres?**
Ch. Helling & F. J. M. Rietmeijer
- 9 **On the deceleration of cometary fragments in aerogel**
S. G. Coulson
- 19 **Survival of organic compounds in ejecta from hypervelocity impacts on ice**
S. A. Bowden, J. Parnell & M. J. Burchell
- 27 **Electrochemical studies of iron meteorites: phosphorus redox chemistry on the early Earth**
David E. Bryant, David Greenfield, Richard D. Walshaw, Suzanne M. Evans, Alexander E. Nimmo, Caroline L. Smith, Liming Wang, Matthew A. Pasek & Terence P. Kee
- 37 **A comparative study of endolithic microborings in basaltic lavas from a transitional subglacial–marine environment**
Claire R. Cousins, John L. Smellie, Adrian P. Jones & Ian A. Crawford
- 51 **Aliens are us. An innovative course in astrobiology**
Carlos F. Oliveira & James P. Barufaldi
