

THE JOURNAL OF AGRICULTURAL SCIENCE

EDITED BY

PROFESSOR SIR R. H. BIFFEN, M.A., F.R.S., School of Agriculture, Cambridge
E. M. CROWTHER, D.Sc., F.I.C., Rothamsted Experimental Station,
Harpenden

J. HAMMOND, M.A., D.Sc., F.R.S., School of Agriculture, Cambridge

H. HUNTER, M.A., D.Sc., School of Agriculture, Cambridge

B. A. KEEN, D.Sc., F.R.S., Rothamsted Experimental Station, Harpenden

F. H. A. MARSHALL, C.B.E., Sc.D., LL.D., F.R.S., School of Agriculture,
Cambridge

SIR E. J. RUSSELL, D.Sc., F.R.S., Campsfield Wood, Woodstock, Oxon.

IN CONSULTATION WITH

PROFESSOR B. T. P. BARKER, M.A., Agricultural and Horticultural Research Station, Long
Ashton, Bristol

DR I. B. POLE-EVANS, C.M.G., Department of Agriculture, Pretoria, South Africa

PROFESSOR J. HENDRICK, B.Sc., F.I.C., Marischal College, Aberdeen

DR A. E. V. RICHARDSON, C.M.G., M.A., Commonwealth Council for Scientific and Industrial
Research, Melbourne, Australia

DR H. J. WHEELER, American Agricultural Chemical Co., Agricultural Service Bureau,
419 Fourth Avenue, New York, U.S.A.

VOLUME XXXVI 1946

CAMBRIDGE

PART 3 (JULY 1946)

	PAGE
WATSON, MARION A., WATSON, D. J. and HULL, R. Factors affecting the loss of yield of sugar beet caused by beet yellows virus. I. Rate and date of infection; date of sowing and harvesting. (With Two Text-figures)	151
BELL, G. D. H. Induced bolting and anthesis in sugar beet and the effect of selection of physiological types. (With Plates 3-6 and Ten Text-figures)	167
FINNEY, D. J. Recent developments in the design of field experiments. III. Fractional replication	184
DARK, S. O. S. and BOOTH, V. H. Total carotenoids in carrots. (With Plate 7 and Two Text-figures)	192
BLACK, D. J. G. A comparison of some methods of supplying calcium to intensively kept chicks. (With One Text-figure)	199
WAGER, H. G. Quality of potatoes in relation to soil and season. I. The content of dry matter. (With One Text-figure)	207
WAGER, H. G. Quality of potatoes in relation to soil and season. II. The colour of the cooked potato. (With Two Text-figures)	214
PETTIT, G. H. N. Wartime changes in the winter diet of dairy cows in the Eastern Counties of England	222

PART 4 (OCTOBER 1946)

HEINTZE, S. G. Manganese deficiency in peas and other crops in relation to the availability of soil manganese. (With Two Text-figures)	227
DION, H. G. and MANN, P. J. G. Three-valent manganese in soils. (With One Text-figure)	239
WILSON, S. G. The seasonal incidence of calving and of sexual activity in Zebu cattle in Nyasaland. (With Six Text-figures)	246
ANDERSON, JAMES. The buffer capacity and the specific gravity of bull semen	258
ANDERSON, JAMES. The sugar content of bull semen and its reduction during storage	260
TYLER, CYRIL. Studies in the absorption and excretion of certain minerals by poultry. I. The excretion of calcium, phosphorus, carbonate and chloride by hens, with special reference to variations during the day, and in relation to oviposition. (With Nine Text-figures)	263
TYLER, CYRIL. Studies in the absorption and excretion of certain minerals by poultry. II. Changes in the composition of food material as it moves along the alimentary tract of the hen. (With One Text-figure)	275
TYLER, CYRIL. Studies in the absorption and excretion of certain minerals by poultry. III. The influence of different levels of dietary calcium upon the retention of calcium, phosphorus, carbonate and chloride. (With One Text-figure)	283
BARTON MANN, T. Chick rearing. IX. Studies on the storage of vitamin A and carotenoid pigments by chicks from birth to six weeks, using cyclized vitamin A, vitamin-A alcohol, vitamin-A ester (cod-liver oil) and the pigments of green food and maize as criteria. (With Plate 8)	289
BLAXTER, K. L. and PRICE, H. A. Experiments on the use of home-grown foods for milk production. V. The protein requirements of growing dairy heifers. (With One Text-figure)	301
