

The Puritan Conscience and Modern Sexuality

Edmund Leites

A "lucid and provocative" (Paul Robinson) examination of the sexual attitudes of seventeenth- and eighteenth-century Puritan England and their impact on modern ideas. Drawing upon the insights of psychoanalysis and a wide array of historical and literary sources, Leites shows that the Puritans called for a lifelong integration of sensuality, purity, and constancy within marriage. \$17.50

Victorian Autobiography

The Tradition of Self-Interpretation
Linda H. Peterson

Focusing her work on the autobiographies of Bunyan, Carlyle, Ruskin, Newman, Martineau, and Gosse, Peterson surveys the English autobiographical tradition from the seventeenth to the nineteenth centuries and finds that the dominant mode of English autobiography is one of self-interpretation.

Revolutionary Politics and Locke’s *Two Treatises of Government*

Richard Ashcraft

“This is one of the most significant contributions to Locke studies in the twentieth century. It is unparalleled in its reconstruction of the intellectual and practical context of Locke’s political thought and in its meticulous interpretation of his texts in the light of the political struggles in which he was engaged. The reconstruction of Locke’s role in the political struggles from 1670 to 1690, and of the struggles and debates themselves, will become the standard text in Locke studies. In addition, the book is a major practical contribution to the debate in the philosophy of the social sciences over the relation of knowledge and practice.”

Readings in Western Civilization

John W. Boyer and Julius Kirshner, General Editors

The University of Chicago Readings in Western Civilization makes available to students and teachers a unique selection of primary documents—many never before anthologized, many in new translations or reedited for an undergraduate audience. These readings were prepared by an outstanding group of scholars for the highly praised Western civilization sequence at the University of Chicago. An introduction by Eric Cochrane (*Western Civilization at the University of Chicago: An Introduction for Teachers*, available upon request) explains the aims and methods of the Chicago course, indicating ways in which the readings can be used in other courses, such as the History of the Middle Ages, the French Revolution, and Modern European History.

The Bloodless Revolution

ENGLAND, 1688

Stuart Prall

The Glorious Revolution of 1688 represented a crucial turning point in modern British history by decisively shifting political power from the monarchy to Parliament. In this cogent study, first published in 1972, Stuart Prall offers a well-balanced account of the Revolution, its roots, and its consequences. The events of 1688, Prall argues, cannot be viewed in isolation. Examining the tempestuous half-century that preceded and precipitated William and Mary's accession, he provides a comprehensive overview of the Revolution's context and of its historical meaning. The result is an unusually lucid text for students of seventeenth-century England and anyone interested in understanding this short, bloodless, but ultimately critical Revolution.

"This work . . . insists that . . . the Revolution of 1688 was the culmination of a long crisis begun back in 1640, and the revolution settlement was the resolution of problems which the Puritan Revolution and the Restoration had left unsolved. This is an admirable combination of analysis, commentary upon views of historians, and chronological narrative, starting with the Restoration in 1660 and continuing through the Act of Settlement in 1701. It takes full account of the traditional Whig interpretation . . . and also of the valuable correctives to that tradition which post-World War II scholars have provided . . . Highly recommended for undergraduates and graduates."—*Choice*

Prison Reform in Lancashire, 1700-1850

A Study in Local Administration

Margaret DeLacy. Like many reforms of the modern period, prison reform has evoked prolonged controversy. This work asserts that despite the continuing debate and the many books on prison reform, we actually know very little about what was being reformed. Focusing on the county of Lancashire, this is a detailed history of the conditions of local prison life and administration during the era in which the modern prison was created. The author follows Lancashire's prison system over a 150-year period in order to determine what the system was like before reform and to relate the details of Lancashire's evolving prison system to larger issues. Thus, the reader is able to evaluate the day-to-day workings of the system against the more general history of the rise of prisons and penal theory. Throughout, she tests her findings against the views of such modern historians as Michel Foucault and Michael Ignatieff. \$32.50

British Diplomats in Pre-Jacksonian America

WILLIAM H. MASTERSON

In attempts at reconciliation with its rebellious former colonies, Great Britain dispatched nine successive ministers to the United States from 1791 to 1823. William H. Masterson uses sources never before consulted to take readers along on the diplomats' assignments, revealing the skill or ineptitude with which they carried out their missions and disclosing personal factors that may have influenced early political relations between the two countries. Excerpts from letters paint a vivid picture of life in the newborn nation, including personal ambitions, domestic struggles, and fashion consciousness of the striped-pants set through wars, dress balls, and torrid American summers. 304 pp. \$29.50

Wine for Sale

*Victoria Wine and the Liquor
Trade, 1860–1984*

Asa Briggs

Foreword by John Arlott

One of England's most prominent social historians here recounts the story of the growth of the Victoria Wine Company from one small London shop to its present near-institutional stature. His account sheds new light on the history of drink consumption and business organization and at the same time shows how Victoria Wine, as an expanding retail chain, acted as a powerful democratizing force in a trade that catered almost exclusively to the affluent.
