## ESSAYS ON THE ARTS AND THE HISTORY AND PHILOSOPHY OF MEDICINE

by *FELIX MARTI-IBÁÑEZ, M. D.*

*Editor-in-Chief of the Medical Newsmagazine, MD;  
Former Professor and Chairman, Department of the  
History of Medicine, New York Medical College*

This new collection of articles and essays traverses the vast expanse of human experience to present a fresh and exciting view of the world of medicine and the arts. **ARIEL: ESSAYS ON THE ARTS AND THE HISTORY AND PHILOSOPHY OF MEDICINE** combines new concepts, original observations, and imaginative thinking in a book that will give many hours of reading pleasure. One of the outstanding features of this collection of 42 essays and articles is the inclusion of the author's 13 original expanded versions of his introductions to the installments of **THE EPIC OF MEDICINE**, which originally appeared in the medical newsmagazine, *MD*. As a unit they provide a dramatic and cogent preface to the history of medicine. The other essays and articles in this volume cover a wide range of both historical and contemporary subjects.

**ARIEL** is a book for those who choose to explore the wondrous paths of the human mind. It is a book for physicians, philosophers, sociologists, educators, students—all who know the excitement of discovery and seek new ideas. 292 PAGES/CLOTH BOUND/\$6.50

## HISTORICAL MONOGRAPH SERIES: *New Additions*

**JOHN LOCKE, PHYSICIAN AND PHILOSOPHER:** a medical biography. By Kenneth Dewhurst. *11 plates*, pp. xii, 328, 1963. 42s. (\$7.00). Based on the mass of unpublished material which forms part of the Lovelace Collection of Locke's papers in the Bodleian Library, Dr. Dewhurst's account of Locke's work as a physician includes the first publication of the medical journals and shows how his philosophical theories developed from his medical empiricism.

**THE MEDICAL BACKGROUND OF ANGLO-SAXON ENGLAND.**  
A study in history, psychology and folk-lore. By W. Bonser. pp. 450, 1963. 50s. (\$8.00).

In his survey of medical beliefs and practice in pre-Conquest England, Dr. Bonser has covered a wide field. His book is based on original sources dealing with epidemics, hospitals, surgery, the Church as physician, magic as an adjunct to medicine, folk remedies, diet and veterinary and agricultural magic.

### *Already Published:*

**DR. TIMOTHIE BRIGHT (1550-1615):** a survey of his life with a bibliography of his writings. By Sir Geoffrey Keynes. *17 illus.*, pp. vii, 47, 1962. 21s. (\$3.50).

'The bibliography is very welcome for bringing into sequence the heterogeneous work of a remarkable man, while the lively and wide-ranging survey, with which Sir Geoffrey has prefaced it, relates Bright to some of the greatest of his contemporaries, most notably to Sidney and Shakespeare.'
