The Bedford Introduction to Literature Reading, Thinking, Writing

Tenth Edition

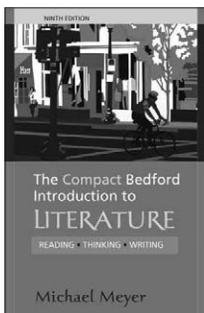

Michael Meyer, *University of Connecticut*

The Bedford Introduction to Literature is a best-seller for a reason: It brings literature to life for students, helping to make them lifelong readers and better writers. Classic works drawn from many periods and cultures appear alongside a strong showing from today's notable authors. There is plenty of support for students, with a dozen chapters on critical reading and writing, helpful sample close readings, writing assignments, and student papers. In-depth chapters on major authors like Flannery O'Connor and Emily Dickinson take students deeper into their work, and the new tenth edition features a chapter on the fiction of Dagoberto Gilb, created in collaboration with the author himself—one more way that the anthology showcases literature as a living, changing art form.

“I think it is the best introduction to literature book out there. It gets to the heart of literary emotion and process.”

—Gina L. Hochhalter, *Little Big Horn College*

Five Words

Critical Semantics in the Age of Shakespeare and Cervantes
Roland Greene

"There is nothing like *Five Words* in current criticism. Grounded upon deep erudition, it represents a genuine breakthrough in critical methodology, conceptual history, and the social and cultural task of locating literature among the other discourses."

—William Kennedy, Cornell University

Fragments and Assemblages

Forming Compilations of Medieval London
Arthur Bahr

"Arthur Bahr's scholarship is deeply learned and technically skillful, as he invests codicology with the larger promises of formalism. But have no fear: Bahr's prose sparkles with intellectual delicacy, energy, and pleasure. This is scholarship voiced in an especially agreeable and distinctive way."

—James Simpson, Harvard University

Before the Law

Humans and Other Animals in a Biopolitical Frame
Cary Wolfe

"In this timely and thought-provoking book, Cary Wolfe takes the reader on an intellectual journey that critically reexamines the human-animal relationship, a distinction that not only grounds philosophy but that largely determines our ideas of culture and politics. *Before the Law* is like Descartes's *Meditations* for the posthuman era, written by animals."

—Eugene Thacker, The New School

An Essay on Uncanny Life

The Soul of Poetry Redefined

Vacillations of Mimesis from Aristotle to Romanticism
Mats Malm

Tracking poetics from its birth in rhetorical studies to its reception across the centuries until romanticism, Mats Malm examines the many different ways scholars—from Averroës to Schlegel—have understood mimesis, looking at how these various interpretations have led to very different definitions of the soul of poetry.
