

JOURNAL OF THE ROYAL STATISTICAL SOCIETY

SERIES B – METHODOLOGICAL

Contents of Vol. 34, No. 1, 1972

Bayes estimates for the linear model (with Discussion) *D. V. Lindley and
A. F. M. Smith*

The numerical solution of a set of conditional estimation equations *E. B.
Andersen*

Asymptotic properties of Bayesian decision rules for two terminal decisions and
multiple sampling. II *A. Hald and N. Keiding*

Nearest neighbour systems and the autologistic model for binary data *G. E.
Besag*

Experimental designs with many classifications *G. H. Freeman*

A multisample uniform scores test on a circle and its parametric competitor
K. V. Mardia

Arbitrary event initial conditions for branching Poisson processes *A. J.
Lawrance*

Corrigendum to “Application of likelihood methods to models involving
large numbers of parameters” *J. D. Kalbfleisch and D. A. Sprott*

Comments and Queries

A note on Barnard’s modification to Wald’s sequential test for double dichotomies *M. J. Fryer*

A bivariate exponential distribution with applications to reliability *A. G.
Hawkes*

Issued in three parts per year. Annual subscription £4.75 (U.S. \$12.00)

All enquiries should be addressed to:

The Secretary, Royal Statistical Society, 21 Bentinck Street, London W1M 6AR

Siam Journal on Applied Mathematics

VOLUME 22, NUMBER 1, JANUARY 1972

Whirling of a String at Large Angular Speeds – A Nonlinear Eigenvalue Problem with Moving Boundary Layers *Chien-Heng Wu*

Asymptotic Eigenfunctions of a Scattering Problem *S. E. Shamma and S. N. Karp*

Spectral Inverses of Stochastic Matrices *J. R. Wall and R. J. Plemmons*

Families of Periodic Orbits in the Restricted Problem of Three Bodies Connecting Families of

Direct and Retrograde Orbits *Dieter S. Schmidt*

Almost Periodic Solutions for Limit Periodic Systems *George Seifert*

Finite-Dimensional Realizations of Discrete-Time Weighting Patterns *David S. Evans*

Reservoirs with Mixed Markovian-Independent Inflows *Abdel-Azim Anis and Emlyn H. Lloyd*

A Least Squares Family of Cubic Curves with an Application to Golf Handicapping *Francis Scheid*

A Note on the Bezoutian Matrix *S. Barnett*

On McShane's Belated Stochastic Integral *Zoran R. Pop-Stojanovic*

Asymptotic Properties of Cumulative Processes *Mark Brown and Sheldon M. Ross*

Lower and Upper Bounds for the Number of Lattice Points in a Simplex *Aharon Gavriel Begeg-Dov*

Diffraction Coefficients for Higher Order Edges and Vertices *Lee Kaminetzky and Joseph B. Keller*

Oscillation Criteria for a Class of Fourth Order Differential Equations *Kurt Kreith*

The Journal is published eight times per year. Subscriptions are \$36.00 per year

Orders should be placed with
