

Medi-Scrub

Because infection control should be everybody's job.

Choosing the right product can make all the difference in getting the staff to stop and take the time to wash their hands. Medi-Scrub® is the right medicated health care personnel handwash for three reasons:

1. Medi-Scrub's formula. Our combination of P.C.M.X. and emollients is fast acting and persistent against bacteria, but gentle to your hands. Tests prove Medi-Scrub's effectiveness against a broad range of pathogenic organisms including antibiotic-resistant Staph and Candida albicans. Participants in these tests, even after repeated handwashing, reported no sign of skin irritation.

2. Disposable dispensing system. Medi-Scrub is packed in our exclusive DisposaCare cartridge, a factory-sealed container with a built-in measuring pump. When it's empty, throw it away. Pump and all. The matching wall-mount dispenser puts Medi-Scrub exactly where you need it. And the dispenser's unique window design lets you see the Medi-Scrub label so there's no question about what's inside.

3. Educational systems. Medi-Scrub is backed by a complete program. A video tape, bilingual filmstrips, posters, buttons and more to help you get Medi-Scrub out of the dispenser and into their hands. And your Huntington representative is always ready with technical and training assistance. For more information on Medi-Scrub and the Care System of products, call us now toll-free:

WHAT'S THE BEST HANDWASH/SCRUB? HANDS UP OR HANDS DOWN IT'S

HIBICLENS[®]

(CHLORHEXIDINE GLUCONATE)

It is well established that hand-washing is the most important single procedure in preventing transmission of hospital-acquired infections. HIBICLENS, the only proven antiseptic/antimicrobial, is the best agent available for both personnel handwashing and surgical scrubbing. HIBICLENS

provides the most immediate and prolonged protection against infection, with the best bactericidal "kill rate." And to encourage skin cleansing among hospital personnel, HIBICLENS offers cosmetic acceptability coupled with an excellent safety profile. Gentle to the skin, HIBICLENS is virtually

nonirritating and nonsensitizing, with a low potential for toxicity.

Available as both a liquid and impregnated in a disposable Sponge/Brush, HIBICLENS remains the single most effective antiseptic/antimicrobial skin cleanser for use throughout the hospital.

THE BEST ANTISEPTIC/ANTIMICROBIAL SKIN CLEANSER
