

FABER & FABER

A Selection of Music Books

Tudor Church Music

By DENIS STEVENS. A survey of liturgical music from 1485 to the first decade of the seventeenth century. There is a full reference list of available editions of music, and an E.P. disc of Mr. Stevens conducting The Ambrosian Singers in four examples of Tudor music, a unique feature in music books. With musical examples in the text. 35/-

The Baroque Concerto

By A. J. B. HUTCHINGS. Professor Hutchings traces the history of early orchestral music and suggests criteria by which we may decide which concertos are still worth playing. Much original research has made this book the fullest documentation of an important field of music. With 10 plates, 2 maps and over 100 musical examples in the text. 45/-

Of Music & Music-Making

By BRUNO WALTER. Admirers of this veteran conductor's art, and young conductors who wish to profit from his advice, will find here much shrewd comment on the making of great music, born of a lifetime's experience. With musical examples in the text. 30/-

The Thematic Process in Music

By RUDOLPH RETI. Rudolph Reti's important theoretical work, a standard book on musical analysis in America, has exerted a profound influence on current approaches in this country. Supporting his claim with illustrations from works of contrasting character and chronology, Dr. Reti seeks to show that the unity of the different movements of a work derives from a demonstrable thematic homogeneity. With musical examples. 30/-

Schoenberg's 'Moses und Aron'

By K. H. WORNER. Dr. Wörner's short book describes the dramatic and musical structure of the opera and makes clear the important part played by religion in Schoenberg's approach to composition. It is the best possible guide to one of the monuments of twentieth-century music. With 54 musical examples in the text. (In preparation.) 21/-

Wagner's 'Ring'

By ROBERT DONINGTON. To the music and myth of the *Ring* this detailed study in symbolism applies the results of recent combined work in mythology, anthropology and depth psychology. With musical examples in the text. (In preparation.) 21/-

Form and Performance

By ERWIN STEIN. With an introduction by Benjamin Britten. This remarkable book was left almost finished at Stein's death and it has been seen through the press by a group of his friends. He tackles the basic problems of musical interpretation that every performer must face. There are chapters on 'The Elements of Musical Sound', 'The Elements of Musical Form', 'Structure', 'Movement' and 'Phrasing'. With many musical examples in the text. (For Spring publication.) 30/-
