Marissa A. Harrison

Just as Deadly

The Psychology of
Female Serial Killers

A riveting scientific account of why and how female serial killers commit murder—and often get away with it.

You've heard of Ted Bundy and John Wayne Gacy. But have you heard of Amy Archer-Gilligan? Or Belle Gunness? Or Nannie Doss?

"Fascinating, ground-breaking, and long overdue... A must-read."

Patricia Pearson, author of *When She Was Bad: How and Why Women Get Away with Murder* and *Wish You Were Here: A Murdered Girl, a Brother's Grief and the Hunt for a Serial Killer*

"Highly accessible, extensively researched, and valuable to professional and lay reader alike."

Professor Frederick Toates and Dr. Olga Coschug-Toates, authors of *Understanding Sexual Serial Killing*

"Dr. Harrison's masterfully crafted book is a comprehensive, engaging, and thought-provoking insight into female serial homicide."

Dr. Clare S. Allely, author of *The Psychology of Extreme Violence*

"Her scholarship, insightful analysis, and penchant for detail make this book the best on the market. Excellent reading for those interested in why and how women become serial killers."

Dr. Eric W. Hickey, author of *Serial Murderers and their Victims, 7th Edition*

"This is a welcome and necessary addition to the small but growing body of literature that scrutinizes age-old preconceptions about serial murder."

Enzo Yaksic, author of *Killer Data: Modern Perspectives on Serial Murder*
