

**VISIONS OF
INTERNATIONAL RELATIONS**
Assessing an Academic Field
Edited by Donald J. Puchala

In this collection of essays by eight prominent scholars, each of whom presents a divergent ontological, epistemological, or methodological view on the study of international relations, there appears hope for redefining and reinvigorating intellectual exchange.

Political Parties and Democracy

edited by Larry Diamond and Richard Gunther

Are political parties in decline, or are they simply changing their forms and functions? In contrast to authors of most previous works on political parties, which tend to focus on long-established Western democracies, the contributors to this volume cover many regions of the world. As the authors show, political parties are now only one of many vehicles for the representation of interests, but they remain essential for recruiting leaders, structuring electoral choice, and organizing government. To the extent that parties are weak and discredited, the health of democracy will be seriously impaired.

European Defense Cooperation

Asset or Threat to NATO?

Michael Quinlan

"This book offers seasoned judgments by an authoritative British observer regarding a topic central to the future of both NATO and the European Union. It will make an important contribution to public understanding of the issues on both sides of the Atlantic."—David S. Yost, U.S. Naval Postgraduate School, author of *NATO Transformed: The Alliance's New Roles in International Security*

The Guilt of Nations

Restitution and Negotiating Historical Injustices

Elazar Barkan

"Well-researched and discriminating."
—Michael Ignatieff, *New York Times Book Review*

"Both an invaluable detailed catalog of various groups' past and present claims for restitution and a theoretical consideration of the idea's practicality and morality, this book will no doubt take its place as the starting point for a full understanding of these highly complex issues."—Jonathan Groner, *Salon*

"A remarkably lucid and even-handed account . . . Barkan makes a persuasive case that, despite all the difficulties, the recent vogue for apologies and restitution should be welcomed."
—*The Economist*

NIKITA KHRUSHCHEV AND THE CREATION OF A SUPERPOWER

Sergei N. Khrushchev

'Sergei Khrushchev is an intelligent observer; he had many opportunities to converse with his father, he overheard his father's discussions with others, and kept a record of the events which he had witnessed.... The most valuable information which this book provides bears on something that for all its importance rarely emerges from documents, namely attitudes and ambience—the imponderables that determine how statesmen act.'

PROTECTING THE ELDERLY

HOW CULTURE SHAPES SOCIAL POLICY

Charles Lockhart

'This is a well-written, well-argued work that I believe will make a significant contribution to the study of political culture and to the understanding of welfare policies.' —Richard W. Wilson, Rutgers University

Building on the work of anthropologist Mary Douglas and political scientist Aaron Wildavsky, this book develops and applies "grid-group" theory to show how political culture can be used to explain decisions about social policy and how this theory complements the now more dominant "rational choice" and "institutionalist" models.
