However, when a submission has been accepted for publication, authors are responsible for providing camera-ready versions. Figures (which may include photographs) and tables should each be numbered consecutively in arabic numerals. A separate, double-spaced list of figure captions should be provided.
- Contributors should keep one copy of the typescript for correcting proofs. First proofs may be read by contributors provided that they can give the editors an address through which they can be reached without delay and can guarantee to return the corrected proofs to the designated editor, by airmail where necessary, within three days of receiving them.
