Your DEAF patients' satisfaction assured with

“Radio-Aid”

The only audiometrically compensated
Valve Amplifier hearing aid.

WE CLAIM

that Radio-Aid provides the only system of scientifically prescribing hearing aids by which the medical practitioner can obtain an aid with the assurance that the specific conditions required in the apparatus will be met.

WE GUARANTEE

our claim and will refund in full the money paid for any instrument supplied on the instructions of a member of the Medical Profession if in his opinion the instrument proves unsuitable after a reasonable trial.

WE INVITE

Aurists and Doctors to try the effect of the Radio-Aid compensated amplifier on a patient, in order that we may convince them that the majority of deaf persons who have formerly been dissatisfied with hearing aids will benefit to a degree that may never have been expected.

We shall be pleased to receive full particulars of any case, together with the patients' Audiograph Chart, or you may send patients to us for fitting.

PRESCRIBE DeVilbiss

No. 15 ATOMIZER

For more than 45 years the medical profession has recognized the value of the DeVilbiss No. 15 Atomizer for applying sprayed solutions in prescribed self-treatment. The adjustable gold tip permits spraying in any direction, the vented nasal guard prevents excess pressure in the nasal cavities and the atomizer may be sterilized easily and rapidly by boiling or passing the tip through a flame. Dependable and certain in the hands of the patient, the DeVilbiss No. 15 applies the treatment you want gently and thoroughly—may we suggest that you mark "DeVilbiss Atomizer No. 15" on your prescription where its use is indicated.

AEROGRAPH Co. Ltd., 43 Holborn Viaduct, London, E.C.1. Sole distributors of DEVILBISS products in the United Kingdom. Telephone: Holborn 1257 and 1258

Ventilating Grooves prevent excess pressure in Nasal Cavities.

Adjustable gold tip for spraying in any direction.

The Hospital has **100** beds for In-patients and an annual Out-patient attendance of over **50,000**.

CLINICAL INSTRUCTION

Clinical instruction in the Diagnosis and Treatment of Diseases of the Ear, Nose and Throat is given in the Out-patient Department from 2 to 5 p.m. daily, and on Tuesdays and Thursdays from 6 to 9 p.m. also. Major operations are performed every morning and afternoon, except Saturdays, in the In-patient Operating Theatres. Minor Operations are performed in the Out-patient Operating Theatre on three mornings a week. Practitioners and Medical Students are admitted to the practice of the Hospital as Post-Graduates. Clinical Assistants, whose duty it is to assist the staff, are appointed as vacancies occur.

For further information apply to the Dean: **GILBERT H. HOWELLS**.

In addition to the General Wards, there are Semi-private Wards and 11 Private Rooms. The charge for a Private Room is 7 guineas a week, plus a fee for the surgeon.

Further particulars may be obtained from F. P. CARROLL, *Secretary-Superintendent*.

AN AMPLIVOX

YOUR PATIENTS CAN WEAR

- CRYSTAL MICROPHONE
- STANDARD BATTERIES
- WEIGHT ONLY 1½ LBS.
- AVAILABLE IN THREE DIFFERENT TONES

The Model W Amplivox solves the problem of providing a high quality hearing aid with low upkeep costs offering extreme simplicity and reliability to those who want the smallest possible instrument. It will go into a gentleman's hip pocket or lady's hand-bag with ease. It can readily be adapted to the Amplivox inductor system for telephone or theatre listening and so provides the most complete hearing aid ever made. I shall be glad to send you descriptive literature if this is not already in your possession.

A Edwin Stevens

Governing Director.

The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

WALTER HOWARTH

ASSISTED BY

W. M. MOLLISON

1. Original Articles are accepted on the condition that they have not been published elsewhere.
2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.
3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter added.
4. Orders for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.
5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.
6. Editorial Communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.
7. The Annual Subscription commencing with the January issue is Two Pounds sterling, post free, and is payable in advance.
8. Single copies, both of the present and the previous series, are on sale at Four Shillings each.
9. All Subscriptions, advertising and business communications should be sent to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

United States of America

Orders for this Journal may be sent either through a local bookseller, or to Messrs. G. E. STECHERT & CO., 31-33 East 10th Street, New York, or may be sent direct to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2, England.
