

GLACIOLOGICAL LITERATURE

THIS selected list of glaciological literature has been prepared by J. W. Glen with the assistance of T. H. Ellison, W. B. Harland, Miss D. M. Johnson, and the Staff of the Scott Polar Research Institute. Its field is the scientific study of snow and ice and of their effects on the earth; for the literature on polar expeditions, and also on the "applied" aspects of glaciology, such as snow-ploughs, readers should consult the bibliographies in each issue of the *Polar Record*. For Russian material the system of transliteration used is that agreed by the U.S. Board on Geographic Names and the Permanent Committee on Geographical Names for British Official Use in 1947. Readers can greatly assist by sending reprints of their publications to the Society, or by informing Dr. Glen of publications of glaciological interest.

GENERAL GLACIOLOGY

[**GLACIOLOGY: PERIODICALS.**] *Materialy Glyatsiologicheskikh Issledovaniy. Khronika. Obsuzhdeniya* [Material of Glaciological Studies. News. Discussions] (Moscow, Akademiya Nauk SSSR, Institut Geografii [Academy of Sciences of the U.S.S.R., Institute of Geography]), Vyp. 1, 1961, 179 p. [New series of duplicated reports containing short reports of Soviet glaciological work, bibliographies, translations of Western papers, and news and notes.]

KOTLYAKOV, V. M. Annotirovannyy spisok sovetskoy literatury po glyatsiologii (1956–1960 gg.) [Annotated list of Soviet literature on glaciology (1956–60)]. *Materialy Glyatsiologicheskikh Issledovaniy. Khronika. Obsuzhdeniya* [Material of Glaciological Studies. News. Discussions], Vyp. 3, 1961, p. 41–133. [661 entries arranged broadly by subject, and with subject and author indexes. Includes Soviet Antarctic work.]

NANGERONI, G. Note ed osservazioni sull'isola Spitsberg Occidentale. *Rivista Geografica Italiana*, Vol. 67, No. 4, 1960, p. 373–92. [General description of land and sea ice and periglacial features in Vestspitsbergen.]

SELIGMAN, G. Glaciology today. *Revue Canadienne de Géographie*, Vol. 13, Nos. 3–4, 1959, p. 209. [Reply to C. Laverdière's criticism, ibid., Vol. 13, Nos. 1–2, 1959, of editorial in *Journal of Glaciology*, Vol. 3, No. 25, 1959, p. 337.]

GLACIOLOGICAL INSTRUMENTS AND METHODS

ARNOLD, K. C. An investigation into methods of accelerating the melting of ice and snow by artificial dusting. (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology*. Toronto, University of Toronto Press, 1961, Vol. 2, p. 989–1013.) [Various materials and densities spread onto snow, sea ice and lake ice.]

GROSVALL'D, M. G. Nablyudenija s pomoshch'yu kriokinografa za kolebaniyami skorosti deformatsii v svigivovoy polose lednika [Observations with a cryokinograph of variations in speed of deformation in the dislocation zone of a glacier]. *Materialy Glyatsiologicheskikh Issledovaniy. Khronika. Obsuzhdeniya* [Material of Glaciological Studies. News. Discussions], Vyp. 3, 1961, p. 135–41. [Instrument for direct recording of glacier flow near ice margin.]

KELLER, G. V., and FRISCHKNECHT, F. C. Induction and galvanic resistivity studies on the Athabasca Glacier, Alberta, Canada. (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology*. Toronto, University of Toronto Press, 1961, Vol. 2, p. 809–32.) [Method for measuring ice thickness.]

KOJIMA, K. Thin section of snow cut by a heated wire. *Contributions from the Institute of Low Temperature Science*, No. 16, 1960, p. 47–59. [Apparatus for preparing microscope samples.]

PHYSICS OF ICE

KUROIWA, D. A study of ice sintering. *Tellus*, Vol. 13, Nr. 2, 1961, p. 252–59. [Adhesion of ice at temperatures below 0° C. from point of view of sintering.]

SMITH, A. U. *Biological effects of freezing and supercooling*. London, Edward Arnold, [c1961]. xi, 462 p. (Monographs of the Physiological Society, No. 9.)

SUGAWARA, K. Chemistry of ice, snow and other water substances in Antarctica. *Antarctic Record* (Tokyo), No. 11, 1961, p. 116–20. [Analysis of samples collected near Syowa Base, Dronning Maud Land. In English with Japanese abstract.]

WALZ, E., and MAGUN, S. Die mechanische Relaxation in Eis-NH₄F-Mischkristallen. *Zeitschrift für Physik*, Bd. 157, Ht. 2, 1959, p. 266–74. [Measurement of damping at various temperatures.]

LAND ICE. GLACIERS. ICE SHELVES

AMBACH, W. Die Bedeutung des aufgefrorenen Eises (superimposed ice) für den Massen- und Energiedurchsatz eines Gletschers. *Zeitschrift für Gletscherkunde und Glazialgeologie*, Bd. 4, Ht. 3, 1961, p. 169–89. [Detailed study of heat balance at surface of an Alpine glacier including refreezing of melt water and heat conduction through the ice.]

ANDERSON, V. Geographic features observed on the Marie Byrd Land traverse, 1957–1958. *I.G.Y. Glaciological Report* (New York), No. 4, 1961, p. 143–49. [Includes list of locations and elevations of peaks in the Sentinel Mountains.]

BERGER, H. Beitrag zur Hochgebirgsforschung. Bericht über den Gletscherkurs 1959 in Obergurgl, Tirol. *Mitteilungen der Österreichischen Geographischen Gesellschaft*, Bd. 102, Ht. 1, 1960, p. 87–93. [Account of present and some past work on alpine research at Obergurgl and elsewhere with photographs showing marked retreat of the Gurgler Ferner.]

BESCHEL, R. E. Dating rock surfaces by lichen growth and its application to glaciology and physiography (lichenometry). (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology*. Toronto, University of Toronto Press, 1961, Vol. 2, p. 1044–62.)

- BROCKAMP, B. Beobachtungen an einer Druckzone auf dem Pasterzengletscher. *Zeitschrift für Gletscherkunde und Glazialgeologie*, Bd. 4, Ht. 3, 1961, p. 234–36. [Observation of the growth of a mound on a glacier.]
- FRISTRUP, B. Danish glaciological investigations in Greenland. (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology*. Toronto, University of Toronto Press, 1961, Vol. 2, p. 735–46.) [General account of Danish I.G.Y. programme on four glaciers in Greenland.]
- GROSVAL'D, M. G., and KRENKE, A. N. Issledovaniya sovremennoy oledeneniya Zemli Frantsa Iosifa [Investigation of the present ice cover of Zemlya Frantsa Iosifa]. *Izvestiya Akademii Nauk SSSR. Seriya Geograficheskaya [News of the Academy of Sciences of the U.S.S.R. Geographical Series]*, 1961, No. 2, p. 26–36. [Soviet I.G.Y. studies.]
- HATTERSLEY-SMITH, G. The ice cover of northern Ellesmere Island. *Annals of the New York Academy of Sciences*, Vol. 95, No. 1, 1961, p. 282–89. [Canadian I.G.Y. studies.]
- HATTERSLEY-SMITH, G. Some glaciological studies in the Lake Hazen region of northern Ellesmere Island. (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology*. Toronto, University of Toronto Press, 1961, Vol. 2, p. 791–808.) [Canadian I.G.Y. mass balance studies on Gilman Glacier and neighbourhood.]
- [ITALY: GLACIERS.] *Catasto dei ghiacciai italiani, Anno Geofisico 1957–1958*. Vol. 2. *Ghiacciai del Piemonte*. Torino, Consiglio Nazionale delle Ricerche, Comitato Glaciologico Italiano, 1961. 324 p. [List of glaciers with notes, maps and photographs.]
- KAPITSA, A. P. Dinamika i morfologiya lednikovogo pokrova tsentral'nogo sektora vostochnoy Antarktidy [Dynamics and morphology of the ice cover of the central sector of eastern Antarctica]. *Trudy Sovetskoy Antarkticheskoy Ekspeditsii [Transactions of the Soviet Antarctic Expedition]*, Tom 18, 1961, 93 p. [Character of land ice in coastal regions between long. 80° and 105° E.]
- KOTLYAKOV, V. M. Skhema intensivnosti pitaniya lednikovogo pokrova Antarktidy [Rate of accumulation of the Antarctic Ice Cap]. *Informatsionnyy Byulleten' Sovetskoy Antarkticheskoy Ekspeditsii [Information Bulletin of the Soviet Antarctic Expedition]*, No. 25, 1961, p. 19–22. [Map showing accumulation over Antarctica and discussion.]
- LLIBOUTRY, L., and VIVET, R. Épaisseurs de glace et débit solide de la Vallée Blanche supérieure (Massif du Mont-Blanc). *Comptes Rendus Hebdomadaires des Séances de l'Académie des Sciences* (Paris), Tom. 252, No. 15, 1961, p. 2274–76. [Depth 175 m. including 30 m. of névé and snow; annual run-off 270 cm. water equivalent; glacier in equilibrium.]
- LOEWE, F. Weiteres über den Firnstoß. *Zeitschrift für Gletscherkunde und Glazialgeologie*, Bd. 4, Ht. 3, 1961, p. 227–28. [Discussion of origin of firm tremors experienced in the Antarctic.]
- MEIER, M. F. Mass budget of South Cascade Glacier, 1957–60. *U.S. Geological Survey. Professional Paper* 424-B, 1961, p. B-206–B-11. [Detailed study of mass budgets.]
- MEIER, M. F., and TANGBORN, W. V. Distinctive characteristics of glacier runoff. *U.S. Geological Survey. Professional Paper* 424-B, 1961, p. B-14–B-16. [Comparison of run-off data from two glacier basins and three others.]
- NOBLES, L. H. Surface features of the ice-cap margin, northwestern Greenland. (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology*. Toronto, University of Toronto Press, 1961, Vol. 2, p. 752–67.) [Description of surface features and discussion of their causes.]
- WEBER, J. R. Comparison of gravitational and seismic depth determinations on the Gilman Glacier and adjoining ice-cap in northern Ellesmere Island. (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology*. Toronto, University of Toronto Press, 1961, Vol. 2, p. 781–90.) [Good agreement.]
- ZOTIKOV, I. A. Izmereniye geotermicheskogo potoka tepla v Antarktide [Measurement of geothermal heat flow in Antarctica]. *Informatsionnyy Byulleten' Sovetskoy Antarkticheskoy Ekspeditsii [Information Bulletin of the Soviet Antarctic Expedition]*, No. 29, 1961, p. 30–32. [Temperature gradient in 86 m. pit at Mirnyy.]

ICEBERGS, SEA, RIVER AND LAKE ICE

- CHIKOVSKIY, S. S. O vliyanii temperatury morskogo l'da na yego prochnost' [Influence of temperature of sea ice on its strength]. *Problemy Arktiki i Antarktiki [Problems of the Arctic and Antarctic]*, 1961, Vyp. 8, p. 93–96. [Results of field and laboratory experiments on sea ice.]
- GUDKOVICH, Z. M. Ob osnovnykh zakonomernostyakh dreyfa l'dov v tsentral'nom polarnom basseyne [Main principles of ice drift in the central polar basin]. *Materialy Konferentsii po probleme "Vsimodeystviye atmosfery i gidrosfery severnoy chasti Atlanticheskogo Okeana"* [Materials of the Conference on the problem "Interaction of atmosphere and hydrosphere in the northern part of the Atlantic Ocean"], Vyp. 3–4, 1961, p. 75–88.
- MARKHAM, W. E. Forecasting sea ice conditions. (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology*. Toronto, University of Toronto Press, 1961, Vol. 2, p. 1112–18.) [Discussion of ice types, ice movement and current methods of observing and forecasting.]
- PLOUFF, D., and others. Geophysical studies on IGY drifting station Bravo, T-3, 1958 to 1959, by D. Plouff, G. V. Keller, F. C. Frischknecht and R. R. Wahl. (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology*. Toronto, University of Toronto Press, 1961, Vol. 1, p. 709–16.) [Includes measurements of the thickness of the ice island.]
- SMITH, D. D. Sequential development of surface morphology on Fletcher's Ice Island, T-3. (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology*. Toronto, University of Toronto Press, 1961, Vol. 2, p. 896–914.) [Study of variations of surface morphology and their structural control.]

GLACIAL GEOLOGY

- AUGHENBAUGH, N. B. Preliminary report on the geology of the Dufek Massif. *I.G.Y. Glaciological Report* (New York), No. 4, 1961, p. 155–93. [Part of northern group of Pensacola Mountains, bordering Filchner Ice Shelf. Includes physiography, petrography, structural geology, mineralization, glacial geology and glaciology.]

- BELLAIR, P. Bilan thermique et conditions de genèse des inlandsis. *Comptes Rendus Hebdomadaires des Séances de l'Académie des Sciences* (Paris), Tom. 251, No. 19, 1960, p. 2061–63. [Discussion of relation between Antarctic Ice Sheet and the ocean; theory of formation of the ice sheet.]
- CAREY, S. W., and AHMAD, N. Glacial marine sedimentation. (*In Raasch, G. O., ed. Geology of the Arctic. Proceedings of the first International Symposium on Arctic Geology.* Toronto, University of Toronto Press, 1961, Vol. 2, p. 865–94.) [Difference between sedimentation from temperate and polar glaciers when they float above sea-water.]
- HOLMES, G. W., and LEWIS, C. R. Glacial geology of the Mount Chamberlin area, Brooks Range, Alaska. (*In Raasch, G. O., ed. Geology of the Arctic.
