

TRANSACTIONS

OF THE

ROYAL SOCIETY OF EDINBURGH.

VOLUME LIX, PART III.—SESSION 1938-39.

(Last part of Volume LIX.)

CONTENTS.

	PAGE
XX. <i>Studies on Plumage in the Male Brown Leghorn Fowl.</i> By J. P. CHU, B.Sc., Ph.D., Institute of Animal Genetics, University of Edinburgh. Communicated by Dr A. W. GREENWOOD. (With Five Plates and Five Text-figures.) (Issued November 1, 1938.)	533
XXI. <i>The Life-history and Development of Agriolimax agrestis L., the Gray Field Slug.</i> By ROBERT CARRICK, B.Sc., Ph.D., Department of Agricultural and Forest Zoology, University of Edinburgh. (Now Department of Agriculture, University of Leeds.) Communicated by Dr A. E. CAMERON. (With Thirty-four Text-figures.) (Issued December 8, 1938.)	563
XXII. <i>The Structure and Function of the Alimentary Canal of some Tectibranch Molluscs, with a Note on Excretion.</i> By VERA FRETTER, Ph.D., Department of Zoology, Birkbeck College, University of London. Communicated by Professor H. GRAHAM CANNON, F.R.S. (With Twenty-two Text-figures.) (Issued January 31, 1939.)	599
XXIII. <i>The Cytology of the Thelytokously Parthenogenetic Saw-Fly Thrinax macula Kl.</i> By Professor A. D. PEACOCK, D.Sc., and ANN R. SANDERSON, B.Sc., Ph.D., Natural History Department, University College (University of St Andrews), Dundee. (With Four Plates.) (Issued February 17, 1939.)	647
XXIV. <i>Scientific Results of the Voyage of S.Y. "Scotia," 1902-04: The Crinoidea.</i> By Professor C. VANEY, Université de Lyon, and D. DILWYN JOHN, M.Sc., Department of Zoology, British Museum (Natural History). Communicated by Dr A. C. STEPHEN. (With One Plate and Three Text-figures.) (Issued March 13, 1939.)	661
XXV. <i>Differential Fertility in Scotland.</i> Part II. By ENID CHARLES, M.A., Ph.D., Leverhulme Research Fellow. Communicated by Professor LANCELOT HOGGEN, F.R.S. (Issued March 27, 1939.)	673
XXVI. <i>The Fresh-water Mollusca of the Tanganyika Territory and Zanzibar Protectorate, and their Relation to Human Schistosomiasis.</i> By ALAN MOZLEY, Ph.D.(Edin.), Wadsworth Scholar of the London School of Hygiene and Tropical Medicine. (With Three Plates and Ten Text-figures.) (Issued July 6, 1939.)	687
XXVII. <i>Further Contributions to our Knowledge of the Fossil Schizaceæ; Genus Senftenbergia.</i> By NORMAN W. RADFORTH, M.A.(Toronto), Ph.D., Royal Society of Canada Research Fellow, Department of Botany, University of Glasgow. Communicated by Professor J. WALTON, D.Sc. (With One Plate and Three Text-figures.) (Issued July 7, 1939.)	745
XXVIII. <i>The Arrangement of Fibre Follicles in some Mammals, with special reference to the Ovidæ.</i> Being Selected and Illustrated Notes made by the late Dr J. E. DUERDEN, Emeritus Professor of Rhodes University, Grahamstown; Honorary Worker at the Wool Industries Research Association, Leeds, 1932-1937. Compiled by Dr A. B. WILDMAN, Wool Industries Research Association. Communicated by Professor F. A. E. CREW, F.R.S. (With Four Plates and Five Text-figures.) (Issued July 11, 1939.)	763
XXIX. <i>An Early Dictyoconus, and the Genus Orbitolina: Their Contemporaneity, Structural Distinction, and Respective Natural Allies.</i> By Lieut.-Colonel L. M. DAVIES (late R.A.), M.A., Ph.D., F.G.S. (With Two Plates and Six Text-figures.) (Issued July 19, 1939.)	773
XXX. <i>Actiniaria and Zoantharia of the Scottish National Antarctic Expedition, 1902-1904.</i> By Professor OSKAR CARLGREN, Lund. Communicated by Dr A. C. STEPHEN. (With Seven Text-figures.) (Issued October 24, 1939.)	791
INDEX	801

EDINBURGH:

PUBLISHED BY ROBERT GRANT & SON, LTD., 126 PRINCES STREET,
AND WILLIAMS & NORGATE, LTD., 36 GREAT RUSSELL STREET, LONDON, W.C.1

MCMXXXIX.

Price Forty-two Shillings and Threepence.

CONTENTS.

PART I. (1936–1937).

NUMBER		PAGE
*I.	<i>A Study of the Vascular Supply to the Carpels in the Follicle-bearing Ranunculaceæ.</i> By MABEL S. FRASER, Ph.D., Research Scholar, University College, Nottingham. Communicated by Professor Sir WILLIAM WRIGHT SMITH, M.A. (With Eighteen Diagrams and Fourteen Text-figures),	1
II.	<i>On the Feeding Mechanism of Apseudes talpa, and the Evolution of the Peracaridan Feeding Mechanisms.</i> By RALPH DENNELL, M.Sc., Assistant Lecturer in Zoology, The Victoria University, Manchester. Communicated by Professor H. GRAHAM CANNON, F.R.S. (With Nine Text-figures),	57
*III.	<i>Perthshire Tectonics : Schiehallion to Glen Lyon.</i> By Professor E. B. BAILEY, M.C., M.A., D.Sc., F.R.S., and W. J. McCALLIEN, D.Sc., Geology Department, Glasgow University. (With Two Plates and Fifteen Text-figures),	79
IV.	<i>The Structure and Function of the Alimentary Canal of some Species of Polyplacophora (Mollusca).</i> By VERA FRETTER, B.Sc., Ph.D., Department of Zoology, Birkbeck College, University of London. Communicated by Professor H. GRAHAM CANNON, F.R.S. (With Twenty-six Text-figures),	119
*V.	<i>The Early Stages in the Development of the Ferret : The Formation of the Mesoblast and Notochord.</i> By WILLIAM J. HAMILTON, M.D., D.Sc., Professor of Anatomy (University of London), Medical College of St Bartholomew's Hospital, London. (With Seven Plates and Twelve Text-figures),	165
VI.	<i>Metamorphic Correlation in the Polymetamorphic Rocks of the Valla Field Block, Unst, Shetland Islands.</i> By H. H. READ, D.Sc., A.R.C.Sc., George Herdman Professor of Geology, University of Liverpool. (With Two Plates and Four Text-figures),	195
VII.	<i>The Middle Devonian Fish Fauna of Achanarras.</i> By C. FORSTER-COOPER, M.A., F.R.S., Director of the University Museum of Zoology, Reader in the Vertebrata, and Fellow of Trinity Hall, Cambridge. Communicated by Dr A. C. STEPHEN. (With Eight Plates and Ten Text-figures),	223

NUMBER		PAGE
VIII.	<i>On a New Long-headed Dipnoan Fish from the Upper Devonian of Scaumenac Bay, P.Q., Canada.</i> By W. GRAHAM-SMITH, B.A., Museum of Zoology and Comparative Anatomy, Cambridge, and T. S. WESTOLL, B.Sc., Ph.D., Department of Zoology and Comparative Anatomy, University College, London. <i>Communicated by</i> Dr A. C. STEPHEN. (With Two Plates and Twelve Text-figures),	241

PART II. (1937–1938).

IX.	<i>The Structure and Function of the Alimentary Canal of Æolid Molluscs, with a Discussion on their Nematocysts.</i> By ALASTAIR GRAHAM, M.A., B.Sc., Department of Zoology, Birkbeck College, University of London. <i>Communicated by</i> Dr C. H. O'DONOGHUE. (With Fourteen Text-figures),	267
*X.	<i>On Some Undescribed Species from the Lower Carboniferous Flora of Berwickshire ; together with a Note on the Genus Stenomyelon Kidston.</i> By MARY G. CALDER, B.Sc., Ph.D. <i>Communicated by</i> Professor J. WALTON, D.Sc. (With Two Plates and Twenty-five Text-figures),	309
XI.	<i>The Hairs of the Monotremata, with Special Reference to their Cuticular-scale Pattern.</i> By A. B. WILDMAN, B.Sc., Ph.D., Wool Industries Research Association, sometime Ackroyd Memorial Research Fellow of the University of Leeds, and J. MANBY, F.R.P.S., University of Leeds. <i>Communicated by</i> Professor JAMES RITCHIE, D.Sc. (With Seven Plates and Two Text-figures),	333
XII.	<i>On Tetrastichia bupatides: A Carboniferous Pteridosperm from East Lothian.</i> By Professor W. T. GORDON, M.A., D.Sc., F.L.S., V.-P.G.S., Fellow of King's College, London. (With Six Plates and Three Text-figures),	351
XIII.	<i>Differential Fertility in Scotland, 1911–1931. Part I.</i> By ENID CHARLES, M.A., Ph.D., Leverhulme Research Fellow. <i>Communicated by</i> Professor LANCELOT HOBGEN, F.R.S. (With Twelve Text-figures and Seven Tables),	371
*XIV.	<i>An Analysis and Comparison of the Structural Features of Dactylotheca plumosa Artis sp. and Senftenbergia ophiodermatica Göppert sp.</i> By NORMAN W. RADFORTH, M.A. (Toronto), Department of Botany, University of Glasgow. <i>Communicated by</i> Professor J. WALTON, D.Sc. (With Two Plates and Two Text-figures),	385
XV.	<i>On Rhamphodopsis, a Ptyctodont from the Middle Old Red Sandstone of Scotland.</i> By Professor D. M. S. WATSON, F.R.S. <i>Communicated by</i> Dr C. H. O'DONOGHUE. (With One Plate and Five Text-figures),	397

NUMBER		PAGE
*XVI.	<i>An Investigation of the Mucorales in the Soil.</i> By MARIE E. CAMPBELL, B.Sc., Ph.D., Mycology Department, Edinburgh University, and Botany Department, St Andrews University. <i>Communicated by</i> Dr MALCOLM WILSON. (With Three Plates and Fifteen Text-figures),	411
XVII.	<i>The Actinopterygian Fishes from the Lower Carboniferous of Glencartholm, Eskdale, Dumfriesshire.</i> By J. A. MOY-THOMAS, M.A., and M. BRADLEY DYNE, B.A., Department of Zoology and Comparative Anatomy, Oxford. <i>Communicated by</i> Dr A. C. STEPHEN. (With Two Plates and Forty Text-figures),	437
*XVIII.	<i>The Food and Feeding of the Brown Trout (Salmo trutta L.) in Relation to the Organic Environment.</i> By R. M. NEILL, M.C., M.A., University of Aberdeen. <i>Communicated by</i> Professor LANCELOT HOGBEN, F.R.S. (With Ten Text-figures and Sketch Map),	481
*XIX.	<i>The Female Reproductive System and Corpora Lutea of the False Killer Whale, Pseudorca crassidens Owen.</i> By L. C. COMBIE, B.Sc., and ANN B. ADAM, B.Sc., Natural History Department, University College, Dundee (University of St Andrews). <i>Communicated by</i> Professor A. D. PEACOCK, D.Sc. (With One Plate and Four Text-figures),	521

PART III. (1938-1939).

*XX.	<i>Studies on Plumage in the Male Brown Leghorn Fowl.</i> By J. P. CHU, B.Sc., Ph.D., Institute of Animal Genetics, University of Edinburgh. <i>Communicated by</i> Dr A. W. GREENWOOD. (With Five Plates and Five Text-figures),	533
*XXI.	<i>The Life-history and Development of Agriolimax agrestis L., the Gray Field Slug.</i> By ROBERT CARRICK, B.Sc., Ph.D., Department of Agricultural and Forest Zoology, University of Edinburgh. (Now Department of Agriculture, University of Leeds.) <i>Communicated by</i> Dr A. E. CAMERON. (With Thirty-four Text-figures),	563
XXII.	<i>The Structure and Function of the Alimentary Canal of some Tectibranch Molluscs, with a Note on Excretion.</i> By VERA FRETTER, Ph.D., Department of Zoology, Birkbeck College, University of London. <i>Communicated by</i> Professor H. GRAHAM CANNON, F.R.S. (With Twenty-two Text-figures),	599
*XXIII.	<i>The Cytology of the Thelytokously Parthenogenetic Saw-Fly Thrinax macula Kl.</i> By Professor A. D. PEACOCK, D.Sc., and ANN R. SANDERSON, B.Sc., Ph.D., Natural History Department, University College (University of St Andrews), Dundee. (With Four Plates),	647

NUMBER	PAGE
XXIV. <i>Scientific Results of the Voyage of S.Y. "Scotia," 1902-04: The Crinoidea.</i> By Professor C. VANEY, Université de Lyon, and D. DILWYN JOHN, M.Sc., Department of Zoology, British Museum (Natural History). <i>Communicated by Dr A. C. STEPHEN.</i> (With One Plate and Three Text-figures),	661
XXV. <i>Differential Fertility in Scotland.</i> Part II. By ENID CHARLES, M.A., Ph.D., Leverhulme Research Fellow. <i>Communicated by Professor LANCELOT HOGBEN, F.R.S.,</i>	673
XXVI. <i>The Fresh-water Mollusca of the Tanganyika Territory and Zanzibar Protectorate, and their Relation to Human Schistosomiasis.</i> By ALAN MOZLEY, Ph.D.(Edin.), Wandsworth Scholar of the London School of Hygiene and Tropical Medicine. (With Three Plates and Ten Text-figures),	687
*XXVII. <i>Further Contributions to our Knowledge of the Fossil Schizæaceæ; Genus Senftenbergia.</i> By NORMAN W. RADFORTH, M.A.(Toronto), Ph.D., Royal Society of Canada Research Fellow, Department of Botany, University of Glasgow. <i>Communicated by Professor J. WALTON, D.Sc.</i> (With One Plate and Three Text-figures),	745
XXVIII. <i>The Arrangement of Fibre Follicles in some Mammals, with special reference to the Ovidæ.</i> Being Selected and Illustrated Notes made by the late Dr J. E. DUERDEN, Emeritus Professor of Rhodes University, Grahamstown; Honorary Worker at the Wool Industries Research Association, Leeds, 1932-1937. Compiled by Dr A. B. WILDMAN, Wool Industries Research Association. <i>Communicated by Professor F. A. E. CREW, F.R.S.</i> (With Four Plates and Five Text-figures),	763
*XXIX. <i>An Early Dictyoconus, and the Genus Orbitolina: Their Contemporaneity, Structural Distinction, and Respective Natural Allies.</i> By Lieut.-Colonel L. M. DAVIES (late R.A.), M.A., Ph.D., F.G.S. (With Two Plates and Six Text-figures),	773
XXX. <i>Actiniaria and Zoantharia of the Scottish National Antarctic Expedition, 1902-1904.</i> By Professor OSKAR CARLGREN, Lund. <i>Communicated by Dr A. C. STEPHEN.</i> (With Seven Text-figures),	791
INDEX,	801

* The thanks of the Society are due to the Carnegie Trust for the Universities of Scotland for grants towards the cost of illustrations and tables in these papers, and in the paper by Dr F. Walker and Mr C. F. Davidson (Trans. Roy. Soc. Edin., vol. lviii, 1936, pp. 869-897).
