

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

OLIVER & BOYD, LTD.
EDINBURGH AND LONDON

FEBRUARY 1964

VOL. 6 PART 3

INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Animal Production publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

Contributions may be in the field of animal production, or in any related scientific field. Reports on techniques will also be considered but only as appendices to scientific papers.

Manuscripts should be typewritten in double spacing with wide margins and the lines on each page should be numbered. *Two* copies of the typescript (one of illustrations) should be sent to

Dr. Gerald Wiener,
A.R.C. Animal Breeding Research Organisation,
West Mains Road, Edinburgh 9.

Manuscripts are not returned with the proofs; authors should therefore retain copies.

Length of papers should not normally exceed the equivalent of 6,000 words, inclusive of tables, text figures and references.

Illustrations (figures and plates) should be simple and few, otherwise a charge may have to be made to authors. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil. Costs of touching-up diagrams found to be incomplete or unsuitable for line-block reproduction will be charged to authors.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors. Part of their cost may have to be borne by authors.
- (c) Colour plates will not be accepted unless authors bear the cost.

Tables should be as simple and as few as possible; if they are very large or numerous a charge may have to be made to authors. When constructing tables, it would be helpful if authors would take into account the size and shape of the pages of *Animal Production*.

**THE JOURNAL OF THE
AUSTRALIAN INSTITUTE OF AGRICULTURAL SCIENCE**

CONTENTS—VOL. 30, No. 2. JUNE 1964

Presidential Address

Phosphorus in Australian agriculture, by C. M. DONALD.

Articles

Fruit bud initiation, by P. MAY and A. J. ANTCLIFF.

Spray toxicity—the human aspects, by D. C. TRAINOR.

Problems in the control of the bracken fern of Victoria, by T. P. O'BRIEN.

Practical work in agricultural education, by J. A. SUTHERLAND.

Letters

Come in, Spinner, ANON.

Why keep it dark? by FRED H. W. MORLEY; ANON.

Agricultural extension scholarships, by R. N. FARQUHAR; I. F. PHIPPS.

Talks

Financing professional agriculture, by J. MELVILLE.

Principles of phosphate usage in Western Australia, by E. N. FITZPATRICK.

A definition of the extension problem and an educational approach to it, by JOAN TULLY.

Practical aspects of agricultural extension, by C. W. WINDERS.

Bloat in cattle, by A. T. JOHNS.

Application of hydrology to agriculture, by T. G. CHAPMAN.

Protein and appetite in ruminants, by A. R. EGAN.

An engineer looks at silage making, by W. L. GREENHILL.

JOURNAL OF DAIRY SCIENCE

OFFICIAL PUBLICATION OF THE AMERICAN DAIRY SCIENCE ASSOCIATION
SINCE 1917

GEORGE H. WISE, President, North Carolina State College, Raleigh
E. O. HERREID, Editor-in-Chief, University of Illinois, Urbana

Some Papers published in the February issue:

- G. C. KRESHECK, Q. VAN WINKLE and I. A. GOULD. Physical Changes in Milk Proteins at Elevated Temperatures as Determined by Light Scattering. I and II.
- E. BERLIN, N. M. HOWARD and M. J. PALLANSCH. Specific Surface Areas of Milk Powders Produced by Different Drying Methods.
- C. A. KIDDY, J. O. JOHNSTON and M. P. THOMPSON. Genetic Polymorphism in Caseins of Cow's Milk. I.
- B. R. BAUMGARDT, W. J. BYER, H. F. JUMAH and C. R. KRUEGER. Digestion in the Steer, Goat and Artificial Rumen as Measures of Forage Nutritive Value.
- C. A. ZITTE, L. A. RICHARDSON, E. F. MCFARREN, J. E. CAMPBELL, R. G. JENSEN, L. A. WISNER, W. F. SHIPE and B. L. HERRINGTON. Symposium: Dynamic State of Milk.

This Journal is published monthly. The annual subscription rate is \$20.00 in the United States and Canada and is \$20.50 in all other countries, post paid. Subscriptions should be sent to the Garrard Press, 510 North Hickory Street, Champaign, Illinois.

Membership dues to the Association are \$12.50 per year, including the *Journal of Dairy Science*. Dues should be sent to C. J. Cruse, American Dairy Science Ass'n, P.O. Box 327, Monticello, Ill. 61856.

Do YOU know the developments taking
place in the world's dairying centres?

DAIRY SCIENCE ABSTRACTS

compiled from world literature by the

COMMONWEALTH BUREAU OF DAIRY SCIENCE
AND TECHNOLOGY
SHINFIELD · READING · ENGLAND

brings that knowledge to the dairy scientist and technologist. Every month in its review articles and its abstracts will be found information on research and development reported in all branches of dairying throughout the world.

Annual subscription 70s. to subscribers in the Commonwealth and the Republic of Ireland whose governments contribute to the Commonwealth Agricultural Bureaux.

140s. to subscribers in non-contributing countries.

Order it through your bookseller or direct from

ANIMAL BREEDING ABSTRACTS

Bringing the latest information from
Sources not always available
To international
Research workers,
And contains review articles of
Current interest as well as
Titles and
Summaries of all important papers on animal breeding

If you live in the British Commonwealth or Republic of Ireland you can have this valuable guide to the latest literature on livestock breeding and production on your desk at the beginning of March, June, September and December for 65s.*

For an extra 25s. you can order your *Animal Breeding Abstracts* printed on one side only, suitable for mounting on cards.

*The subscription in
non-contributing
countries is 140s.

Prepared at the
Commonwealth Bureau of Animal
Breeding and Genetics, Edinburgh

THE EMPIRE JOURNAL OF EXPERIMENTAL AGRICULTURE

THIS JOURNAL offers agricultural research workers a medium for disseminating the records and results of their investigations on the feeding and management of livestock, cultivation and manuring of crops, trial of farm machinery, agricultural economics, and experimental technique.

Vol. XXXII. No. 127

CONTENTS

July 1964

- A Tribute to the Work of H. J. Page.
- R. ROSE INNES and G. L. MABEY: Studies on Browse Plants in Ghana. III. Browse/Grass Ingestion Ratios. (a) Determination of the Free-Choice Griffonia/Grass Ingestion Ratio for West African Shorthorn Cattle on the Accra Plains using the ' Simulated Shrub ' Technique. With Plates.
- J. C. TAYLER: The Relationship between Growth and Carcass Quality in Cattle and Sheep. A Review.
- AMBIKA SINGH: Effect of Long-term Application of Organic and Inorganic Sources of Nitrogen on the Yield of Sugar Cane, and on Soil Fertility.
- W. M. TAHIR: Sorghum Improvement for Mechanized Production in the Central Rainlands of the Sudan.
- W. M. TAHIR: Sesame Improvement for Mechanized Production in the Central Rainlands of the Sudan.
- J. T. SWARBRICK: A Note on the Rooting of Kola (*Cola* Spp.) Cuttings. With Plate.
- B. A. C. ENYI: Note on the Effect of Levels of Potassium and Nitrogen Supply on the Growth of an Upland Rice Variety.
- P. R. GOLDSWORTHY: Methods of Applying Superphosphate to Groundnuts in Northern Nigeria.
- I. THORNTON: The Effect of Fertilizers on the Uptake of Nitrogen, Phosphorus, and Potassium by the Groundnut.
- E. W. BOLLE-JONES: Incidence of Sulphur Deficiency in Africa. A Review.
- R. W. SMITH: The Establishment of Cocoa under Different Soil-moisture Regimes.
- P. R. GOLDSWORTHY and R. HEATHCOTE: Fertilizer Trials with Soya Beans in Northern Nigeria.

The Journal of Dairy Research

LIST OF SHORTENED TITLES, VOL. 31, NO. 3. OCTOBER 1964

Subscription price per Volume of 3 parts 80s. Single parts 30s.

- Factors affecting keeping quality of butter. A. K. R. McDOWELL.
- Histochemical study of cheese ripening. V. BOLCATO, C. PALLAVICINI and M. DE FELICE.
- Nutritive value and selenium content of heated milks. KATHLEEN M. HENRY.
- Effect of milk storage on butter quality. A. K. R. McDOWELL.
- Mushroom flavour in dairy products. W. STARK and D. A. FORSS.
- Staphylococci in Cheddar cheese. B. REITER, B. GILLIAN FEWINS, T. F. FRYER and M. ELIZABETH SHARPE.
- Milk analysis by infra red absorption. J. D. S. GOULDEN.
- Cysteine content of casein. R. D. HILL.
- Separation of milk proteins. R. D. HILL and RAIONE R. HANSEN.
- Media for cheese bacteria. P. S. ROBERTSON.
- Mechanics of machine milking. C. C. THIEL, P. A. CLOUGH and D. N. AKAM.
- Review. Brucellosis. W. J. BRINLEY MORGAN.
- Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1

THE JOURNAL OF AGRICULTURAL SCIENCE

VOL. LXIII, PART 1, AUGUST 1964

- ALLISON, J. C. S. A comparison between maize and wheat in respect of leaf area after flowering and grain growth.
- LAWRENCE, T. L. J. and PEARCE, J. Some effects of wintering yearling beef cattle on different planes of nutrition. I. Live-weight gain, food consumption and body measurement changes during the winter period and the subsequent grazing period. II. Slaughter data and carcass evaluation.
- LAMBERT, D. A. The influence of density and nitrogen in seed production stands of S 48 timothy (*Pleum pratense* L.) and S 215 meadow fescue (*Festuca pratensis* L.).
- HOUGHTON, T. R., BUTTERWORTH, M. H., KING, D. and GOODYEAR, R. The effects of different levels of food intake on fattening pigs in the humid tropics.
- BROSTER, W. H., TUCK, VALERIE J. and BALCH, C. C. Experiments on the nutrition of the dairy heifer. V. Nutrition in late pregnancy.
- HUTCHINSON, J. S. M., O'CONNOR, P. J. and ROBERTSON, H. A. Observations on the onset of the breeding season and on the oestrous cycle of the Welsh Mountain ewe.
- ELLIS DAVIES, W. and REUSCH, J. D. H. The assessment of herbage legume varieties. I. Lucerne.
- DEVINE, J. R. and HOLMES, M. R. J. Field experiments comparing autumn and spring applications of ammonium sulphate, ammonium nitrate and calcium nitrate for winter wheat.
- SMITH, C. A. Studies on the Northern Rhodesia *Hyparrhenia* veld. V. The yield of veld compared with giant Rhodes grass (*Chloris gayana*).
- KHATTAB, A. G. H., WATSON, J. H. and AXFORD, R. F. E. Genetic control of blood potassium concentration in Welsh Mountain sheep.
- ASHTON, W. M., OWEN, J. B. and INGLETON, JEAN W. A study of the composition of Clun Forest ewe's milk.
- BROSTER, W. H. and CURNOW, R. N. A note on the use of the analysis of covariance to reduce standard errors in experiments on milk production.
- CUNNINGHAM, R. K. Cation-anion relationships in crop nutrition. I. Factors affecting cations in Italian ryegrass. II. Factors affecting the ratios of sum of the cations: sum of the anions in Italian ryegrass. III. Relationships between the ratios of sum of the cations: sum of the anions and nitrogen concentrations in several plant species.
- BLAXTER, K. L. and WAINMAN, F. W. The utilization of the energy of different rations by sheep and cattle for maintenance and for fattening.
- BATEMAN, J. V. and BLAXTER, K. L. The utilization of the energy of artificially dried lucerne.

Articles are illustrated with plates and figures

The Journal of Agricultural Science is issued bi-monthly. Subscription (65s. per volume of three parts, two volumes yearly) may be sent to any Bookseller, or to the Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1

THE BRITISH JOURNAL OF NUTRITION

Shortened Versions of Titles from Vol. 18, No. 3. September 1964

Family and children's diet in Guatemalan Indian Communities. By MARINA FLORES, BERT GARCIA and ZOILA FLORES.
 Nitrogen balance studies with the milk-fed lamb. 3. By D. M. WALKER and G. J. FAICHNEY.
 Riboflavine deficiency and bone marrow function and protein metabolism in baboons. By HENRY FOY, ATHENA KONDI and VERTISTINE MBAYA.
 Effect of deoxypyridoxine on pyridoxine deficiency and intestinal 5-hydroxytryptamine. By D. J. BOULLIN.
 Physical activity and metabolism of adipose tissue in rats. By JANA PARIZKOVA and LIBUSE STANKOVA.
 Levels of protein and starch in rations and utilization of protein by sheep. By H. TAGARI, Y. DROR, I. ASCARELLI and A. BONDI.
 Studies of magnesium in ruminant nutrition. 5. By A. C. FIELD.
 Nutritional effects of autoxidized fats in animal diets. By C. H. LEA, L. J. PARR, J. L. L'ESTRANGE and K. J. CARPENTER.
 Retention of milk constituents by the newborn rabbit while doubling its weight. By J. S. DAVIES, ELSIE M. WIDDOWSON and R. A. MCCANCE.
 Severe undernutrition in growing and adult animals. 12. By C. W. M. PRATT and R. A. MCCANCE.
 Total weight of mineral in the human infant. By J. S. GARROW and K. FLETCHER.
 Food purchases of elderly women living alone: a statistical inconsistency and its investigation. By B. S. PLATT, P. G. GRAY, ELIZABETH PARR, A. H. J. BAINES, S. CLAYTON, ELIZABETH ANNE HOBSON, DOROTHY F. HOLLINGSWORTH, W. T. C. BERRY and ELIZABETH WASHINGTON.
 Diet, plasma lipid composition and aortic atherosclerosis in rabbits. By J. H. MOORE and D. L. WILLIAMS.
 A microbiological method for assessing the nutritional value of proteins. 3. By J. E. FORD.
 Studies of the growth-promoting activity for chicks of fish solubles. By G. F. HARRISON and M. E. COATES.

*Combined Subscription for The British Journal of Nutrition (4 issues) and
 The Proceedings of the Nutrition Society (2 issues) is £7 per annum.*

NUTRITION ABSTRACTS AND REVIEWS

published by the

COMMONWEALTH BUREAU OF ANIMAL NUTRITION

Rowett Research Institute, Bucksburn, Aberdeen, Scotland

A quarterly publication bringing together in abstracts whatever is available of the world literature on human and animal nutrition in all its aspects. Each number contains a Review Article dealing with some subject of current interest.

The subscription to Volume 35, for 1965, is 150s. in countries which contribute to the Commonwealth Agricultural Bureaux, and 220s. (\$33.00) in other countries. Details may be obtained from the Secretary, Nutrition Abstracts and Reviews, at the address shown above.

CONSULTATION SERVICE

The Bureau is prepared, within the limits of its information, to answer enquiries from workers in laboratory research, field investigations or nutritional planning, but not from commercial sources, who do not themselves have access to the necessary literature.

BRITISH POULTRY SCIENCE

CONTENTS OF VOLUME 5, PART 2, MAY 1964

- GUTTRIDGE, D. G. A. and LEWIS, D. Chick bio-assay of methionine and cystine. I. Development of assay procedure.
- SMITH, A. J. and LEWIS, D. Protein and energy nutrition of the laying hen. I. Protein requirement for hybrids of medium size.
- POWELL, J. C. and BOWMAN, J. C. An estimate of maternal effects in early growth characteristics and their effects upon comparative tests of chicken varieties.
- MORRIS, T. R., FOX, S. and JENNINGS, R. C. The response of laying pullets to abrupt changes in daylength.
- VALENTINE, HEATHER. A study of the effect of different ventilation rates on the ammonia concentrations in the atmosphere of broiler houses.
- CARR, J. G. and DEWAR, W. A. An anticoagulant material present in egg yolk.
- BORNSTEIN, S. and LIPSTEIN, BIANKA. Methionine supplementation of practical broiler rations. I. The value of added methionine in diets of varying fishmeal levels.
- BORNSTEIN, S. and LIPSTEIN, BIANKA. Methionine supplementation of practical broiler rations. II. The value of added methionine in chick starter rations.
- LONG, P. L. and WAKELIN, D. The effects of thiabendazole upon experimental infestations of *Ascaridia galli* and *Capillaria obsignata* in the chicken.

This journal, commencing Volume 6 (1965), will be published quarterly. The annual subscription will be 80s. (U.S.A. \$14.00), single parts 25s. (U.S.A. \$4.00). Orders and subscriptions may be sent to any bookseller or direct to the publishers:

VETERINARY ENTOMOLOGY AND ACAROLOGY FOR INDIA

by S. K. Sen and T. B. Fletcher

834 pp. (6½" × 9½") 1962. 232 figs. 50 plates. 45s. (\$6.00)

This publication by the two eminent Entomologists deals with the insects, ticks and mites which are of great importance from the veterinary point of view. They have been classified to suit the needs of the veterinary workers. Bionomics, breeding techniques and measures for control of important species have been exhaustively dealt with. Exhaustive lists of reference to literature have been given at the end of each species. This truly informative book aims to meet the requirements of all categories of veterinary workers whether in field work, research or teaching.
