

ANNOUNCEMENTS

Individual subscribers to *Utilitas* automatically become members of the International Society for Utilitarian Studies (ISUS) which sponsors conferences, meetings, and other activities of interest to readers of this journal. On 27–29 August 1994 the fourth international ISUS conference was held at Chuo University Surugadai Memorial Hall in Tokyo. Approximately 130 scholars from twenty countries attended and the conference, organized by Professor Yoshio Nagai and a distinguished and energetic Organizing Committee, was a great success. Plans are now being made to hold the fifth international conference in New Orleans in April 1997. The conference will be organized by Professor Jonathan Riley of the Murphy Institute at Tulane University on the theme of 'Reconsidering Utilitarianism'.

Membership of ISUS provides a unique way of making contact with international scholarship connected with utilitarianism. For example, ISUS is closely linked to the Iberoamerican Society for Utilitarian Studies (SIEU), which, under the direction of Professor Esperanza Guisan, sponsors various conferences and publishes the journal, *Telos*. For further information about ISUS, please contact the Honorary Secretary, Dr Philip Schofield, Bentham Project, University College London, Gower Street, London WC1E 6BT, UK.
