

# Public Health Nutrition

Volume 24, 2021 ISSN: 1368-9800  
journals.cambridge.org/phn

## **Publishing, Production, Marketing, and Subscription Sales Office:**

Cambridge University Press  
Journals Fulfillment Department  
University Printing House  
Shaftesbury Road  
Cambridge CB2 8BS  
UK

## **For Customers in North America:**

Cambridge University Press  
1 Liberty Plaza  
Floor 20, New York  
NY 10006  
USA

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

## **Subscription information**

*Public Health Nutrition* is an international journal published 18 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 24, 2021 (18 issues):  
Internet/print package: £1390/\$2666 Americas only/€2227 EU only  
Internet only: £1006/\$1909 Americas only/€1599 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and which are not, and will not be obliged to give reasons to prospective

advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to Cambridge University Press  
1 Liberty Plaza  
Floor 20, New York  
NY 10006  
USA

**Notes for Authors** are available from the publisher at the given address and can be found inside the back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

**Copyright:** As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on [phn.edoffice@cambridge.org](mailto:phn.edoffice@cambridge.org) regarding any other types of submission.

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests (financial and non-financial), all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

**In this Issue**

In This Issue: Ultra-processed food and health  
Allison Hodge 3177

**Monitoring and surveillance**

Commercial foods for infants under the age of 36 months: an assessment of the availability and nutrient profile of ultra-processed foods  
Karini F da Rocha, Célia RB de Araújo, Inês L de Moraes, Patrícia Padrão, Pedro Moreira and Karla Danielly da S Ribeiro 3179

Clinically diagnosed iron and iodine deficiencies and disorders in the entire population of US military service members from 1997 to 2015  
Joseph J Knapik, Emily K Farina, Victor L Fulgoni III and Harris R Lieberman 3187

Foods provided to children in family day care: an observational study  
Erin M Kerr, Bridget Kelly, Megan L Hammersley, Lara Hernandez, Jennifer Norman, Susan Furber, Cecilia Vuong, Sarah Ryan, Karen Wardle and AD Okely 3196

**Assessment and methodology**

Adverse childhood experiences and obesity over time  
Miriam Schiff, Jess Helton and John Fu 3205

**Nutritional status and body composition**

Optimal gestational weight gain in Chinese pregnant women by Chinese-specific BMI categories: a multicentre prospective cohort study  
Cai-Xia Zhang, Jian-Qiang Lai, Kai-Yan Liu, Nian-Hong Yang, Guo Zeng, Li-Mei Mao, Zeng-Ning Li, Yue Teng, Wei Xia, Nan Dai, Zhi-Xu Wang and Yi-Xiang Su 3210

Impacts of lockdown on dietary patterns among youths in China: the COVID-19 Impact on Lifestyle Change Survey  
Bin Yu, Dong Zhang, Wanqi Yu, Miyang Luo, Shujuan Yang and Peng Jia 3221

Impact of COVID-19 on child malnutrition, obesity in women and household food insecurity in underserved urban settlements in Sri Lanka: a prospective follow-up study  
Renuka Jayatissa, Himali P Herath, Amila G Perera, Thulasika T Dayaratne, Nawmali D De Alwis and Hiyare Palliyage Laksiri K Nanayakkara 3233

**Behavioural nutrition**

Applying the socio-ecological model to understand factors associated with sugar-sweetened beverage behaviours among rural Appalachian adolescents  
Brittany A McCormick, Kathleen J Porter, Wen You, Maryam Yuhas, Annie L Reid, Esther J Thatcher and Jamie M Zoellner 3242

A systematic review of interventions to increase breakfast consumption: a socio-cognitive perspective  
Jessica A Harris, Julia E Carins and Sharyn Rundle-Thiele 3253

Turkish version of the 'Three-Factor Eating Questionnaire-51' for obese individuals: a validity and reliability study  
Özge Küçükerdönmez, Rana Nagihan Akder, Selda Seçkiner, Esra Oksele, Şerife Akpınar and Eda Köksal 3269

Effect of breakfast cereal type on portion size and nutritional implications  
Isabelle M Lewis, Lucy Boote and Tom Butler 3276

**Monitoring and surveillance**

Household food insecurity and early childhood development in Brazil: an analysis of children under 2 years of age  
Klébysa HD de Oliveira, Gabriela Buccini, Daphne C Hernandez, Rafael Pérez-Escamilla and Muriel B Gubert 3286

**Nutritional epidemiology**

Adherence to Mediterranean diet is inversely associated with the consumption of ultra-processed foods among Spanish children: the SENDO project  
Bárbara Raíela Santos da Rocha, Anaís Rico-Campá, Andrea Romanos-Nanclares, Edure Ciriza, Kinaque Barra Ferreira Barbosa, Miguel Ángel Martínez-González and Nerea Martín-Calvo 3294

Consumption of ultra-processed foods in the third gestational trimester and increased weight gain: a Brazilian cohort study  
Caroline de Barros Gomes, Maíra Barreto Malta, Maria Helena D'Aquino Benício and Maria Antonieta de Barros Leite Carvalhaes 3304

Association between the consumption of ultra-processed foods and the practice of breast-feeding in children under 2 years of age who are beneficiaries of the conditional cash transfer programme, Bolsa Família  
Giovana de Montemor Marçal, Marília Moura e Mendes, Manuela Di Guaraldi Mafra Fragoso, Telma Maria de Menezes Toledo Florêncio, Nassib Bezerra Bueno and Ana Paula Grotti Clemente 3313

Ultra-processed foods and early childhood caries in 0–3-year olds enrolled at Primary Healthcare Centers in Southern Brazil  
Maurício Santos de Souza, Juliana dos Santos Vaz, Thais Martins-Silva, Rafael Aiello Bomfim and Andreia Morales Cascaes 3322

Pro-inflammatory diet is associated with a high number of cardiovascular events and ultra-processed foods consumption in patients in secondary care  
Alessandra da Silva, Matheus Brum Felício, Ana Paula Silva Caldas, Helen Hermana Miranda Hermsdorff, Ângela Cristine Bersch-Ferreira, Camila Ragne Torreglosa, Nitin Shivappa, James R Hébert, Bernardete Weber and Josefina Bressan 3331

Early consumption of ultra-processed foods among children under 2 years old in Brazil  
Ana Maria Spaniol, Teresa Helena Macedo da Costa, Amanda de Moura Souza and Muriel Bauermann Gubert 3341

Ultra-processed foods, changes in blood pressure and incidence of hypertension: the Brazilian Longitudinal Study of Adult Health (ELSA-Brasil)  
Patrícia de Oliveira da Silva Scaranni, Leticia de Oliveira Cardoso, Dora Chor, Enirtes Caetano Prates Melo, Sheila Maria Alvim Matos, Luana Giatti, Sandhi Maria Barreto and Maria de Jesus Mendes da Fonseca 3352

Aflatoxin exposure was not associated with childhood stunting: results from a birth cohort study in a resource-poor setting of Dhaka, Bangladesh  
Mustafa Mahfuz, S M Tafsir Hasan, Mohammed Ashrafur Alam, Subhashish Das, Shah Mohammad Fahim, M Munirul Islam, Md Amran Gazi, Muttaquina Hossain, Patricia A Egner, John D Groopman and Tahmeed Ahmed 3361

Contribution of away-from-home food to the energy and nutrient intake among Brazilian adolescents  
Ilana N Bezerra, Hituanna BN Medeiros, Amanda de Moura Souza and Rosely Sichieri 3371

The association between nutrient patterns and metabolic syndrome among Iranian adults: cross-sectional analysis of Shahedieh cohort study  
Omid Sadeghi, Alireza Sadeghi, Hassan Mozaffari-Khosravi and Azad Shokri 3379

Diet quality scores in relation to fatness and nutritional knowledge in women with polycystic ovary syndrome: case-control study  
Aleksandra Bykowska-Derdz, Magdalena Czapka-Matysiak, Malgorzata Kaluzna, Marek Ruchala and Katarzyna Ziennicka 3389

Validation of semiquantitative FFO administered to adults: a systematic review  
Erika Sierra-Ruelas, María F Bernal-Orozco, Gabriela Macedo-Ojeda, Yolanda F Márquez-Sandoval, Martha B Altamirano-Martínez and Barbara Vizmanos 3399

Dietary quality differs among cannabis use groups: data from the National Health and Nutrition Examination Survey 2005–16  
Amy R Gelfand and Christy C Tangney 3419

A cross-sectional study using the Childhood Measurement Programme for Wales to examine population-level risk factors associated with childhood obesity  
Claire Beynon, Nora Pashayan, Elizabeth Fisher, Dougal S Hargreaves, Linda Bailey and Rosalind Raine 3428

**Economics and environment**

Soft drinks and premiums with children's meals marketed on the websites of the top restaurant chains worldwide  
Ameena Batada and Audrey E Thomas 3437

**Community nutrition**

Regional differences in the impact of the COVID-19 pandemic on food sufficiency in California, April–July 2020: implications for food programmes and policies  
Evelyn Blumenberg, Miriam Pinski, Lilly A Nhan and May C Wang 3442

Dietary sodium and potassium intake: knowledge, attitude and behaviour towards dietary salt intake among adults in Addis Ababa, Ethiopia  
Semira Mitiku Saje, Bilal Shikur Endris, Bikila Nagasa, Genet Ashebir and Seifu Hagos Gebreyesus 3451

Eastern North Carolina Head Start Teachers' personal and professional experiences with healthy eating and physical activity: a qualitative exploration  
Virginia C Stage, Lorelei Jones, Jocelyn Bayles, Archana V Hegde, Dipti A Dev and L Suzanne Goodell 3460

La Niña weather impacts dietary patterns and dietary diversity among children in the Peruvian Amazon  
Ramya Ambikapathi, Margaret N Kosek, Gwerny O Lee, Maribel Paredes Olortegui, Benjamin Zaitchik, Pablo Peñañaro Yori, Aubrey Bauck and Laura E Caulfield 3477

Staff-perceived barriers to nutrition intervention in substance use disorder treatment  
David A Wiss, Lisa Russell and Michael Praelip 3488

**Interventions**

Interventions to improve vitamin D status in at-risk ethnic groups during pregnancy and early childhood: a systematic review  
Nuttan K Tanna, Emma C Alexander, Charlotte Lee, Monica Lakhnampaul, Rickin M Popat, Pamela Almeida-Meza, Alice Tuck, Logan Manikam and Mitch Blair 3498

Evaluating the implementation and impact of a healthier checkout programme at a regional convenience store chain  
Barbara Baquero, Elizabeth Anderson Steeves, Michele Polacsek, Molly De Marco, Leah Chapman, Lucia A Leone and Caitlin Simon 3520

**Public policies**

The risk to child nutrition during and after COVID-19 pandemic: what to expect and how to respond  
James Mtambara and Minjie Chu 3530

A mixed-method analysis of the #SugarTax debate on Twitter  
Gemma Bridge, Stuart W Flint and Ralph Tench 3537

Do nutritional warnings encourage healthier choices on food ordering websites? An exploratory experimental study in Uruguay  
Vanessa Gugliucci, Leandro Machin, Maria Rosa Curutchet and Gastón Ares 3547

Association between hourly wages and dietary intake after the first phase of implementation of the Minneapolis minimum wage ordinance  
Leah Elizabeth Chapman, Seth A Berkowitz, Alice Ammerman, Molly De Marco, Shu Wen Ng, Catherine Zimmer and Caitlin E Caspi 3552

The role of colour and summary indicators in influencing front-of-pack food label effectiveness across seven countries  
Simone Pettigrew, Llyunwork Mitiku Dana, Zenobia Talati, Maoyi Tian and Devarsetty Praveen 3566

Longer-term impacts of sugar-sweetened beverage taxes on fast-food beverage prices: evidence from Oakland, California, 2-year post-tax  
Samantha Marinello, Andrea A Pipito, Julien Leider, Oksana Pugach and Lisa M Powell 3571
