CONTENTS

E. ANSARI-PIRI A class of factorable topological algebras	53
BRUCE A. BARNES When is the spectrum of a convolution operator on L^p independent of p ?	327
F. K. BELL AND P. ROWLINSON On the index of tricyclic Hamiltonian graphs	233
F. F. BONSAALL Some dual aspects of the Poisson kernel	207
C. BONZINI AND A. CHERUBINI Modularity of the lattice of congruences of a regular ω -semigroup	405
BOOK REVIEWS	165, 333, 497
SYDNEY BULMAN-FLEMING AND KENNETH McDOWELL Monoids over which all weakly flat acts are flat	287
C. M. CAMPBELL, E. F. ROBERTSON AND R. M. THOMAS Finite groups of deficiency zero involving the Lucas numbers	1
A. CHERUBINI, see C. BONZINI	
R. COSTA Principal train algebras of rank 3 and dimension ≤ 5	61
DANG DING HAI Existence and uniqueness of solutions for a nonlinear second order differential equation in Hilbert space	89
F. DEMENGEL AND J. RAUCH Measure valued solutions of asymptotically homogeneous semilinear hyperbolic systems in one space variable	443
HARRY DYM AND NICHOLAS YOUNG A Schur–Cohn theorem for matrix polynomials	337
SILVANA FRANCIOSI AND FRANCESCO de GIOVANNI On central automorphisms of finite-by-nilpotent groups	191
SHIAN GAO A further result on the complex oscillation theory of periodic second order linear differential equations	143
JUAN A. GATICA, GASTON E. HERNANDEZ AND P. WALTMAN Radially symmetric solutions of a class of singular elliptic equations	169
FRANCESCO de GIOVANNI, see SILVANA FRANCIOSI	
A. M. W. GLASS Finitely presented ordered groups	299
T. N. T. GOODMAN AND A. A. TAANI Cardinal interpolation by symmetric exponential box splines on a three-direction mesh	251
D. J. HALLENBECK AND K. SAMOTIJ On radial variation of holomorphic functions with l^p Taylor coefficients	475
J. F. T. HARTNEY On the decomposition of the s -radical of a near-ring	11

GASTON E. HERNANDEZ, see JUAN A. GATICA	
HONORARY MEMBER ROBERT A. RANKIN	495
F. E. A. JOHNSON On normal subgroups of direct products	309
F. J. KORKES AND T. PORTER Pro- C completions of crossed modules	39
J. K. LANGLEY On the zeros of second order linear differential polynomials	265
MARK V. LAWSON Rees matrix semigroups	23
SUNGYUN LEE Kinematic formula and tube formula in space of constant curvature	79
T. H. LENAGAN AND EDWARD S. LETZTER The fundamental prime ideals of a noetherian prime PI ring	113
EDWARD S. LETZTER, see T. H. LENAGAN	
D. D. LONG On pseudo-Anosov maps which extend over two handlebodies	181
KENNETH McDOWELL, see SYDNEY BULMAN-FLEMING	
K. D. MAGILL, Jr. More on the countability index and the density index of $S(X)$	159
V. B. MOSCATELLI AND M. THOMPSON Asymptotic distribution of Liusternik–Schnirelman eigenvalues for elliptic nonlinear operators	381
C. J. MOZZOCHI An upper bound for λ_1 for $\Gamma(q)$ and $\Gamma_0(q)$	241
M. E. MULDOON On the positive roots of an equation involving modified Bessel functions	491
T. PORTER, see F. J. KORKES	
J. RAUCH, see F. DEMENGEL	
WERNER J. RICKER Completeness of the L^1 -space of closed vector measures	71
E. F. ROBERTSON, see C. M. CAMPBELL	
P. ROWLINSON, see F. K. BELL	
K. SAMOTIJ, see D. J. HALLENBECK	
A. D. SANDS On the lower radical construction of Tangeman and Kreiling	203
S. E. SCHIAVONE Bilateral Laplace multipliers on spaces of distributions	461
R. M. SEYMOUR Stability in pro-homotopy theory	419
KAREL STROETHOFF Nevanlinna-type characterizations for the Bloch space and related spaces	123
A. A. TAANI, see T. N. T. GOODMAN	
SIN-EI TAKAHASI The Baker–Pym theorem and multipliers	303

CONTENTS

v

R. M. THOMAS, see C. M. CAMPBELL

M. THOMPSON, see V. B. MOSCATELLI

JOHN M. VEROSKY Differential algebra of the “even order Korteweg–De Vries equations” 321

KAREN VOGTMANN Local structure of some $Out(F_n)$ -complexes 367

P. WALTMAN, see JUAN A. GATICA

B. A. F. WEHRFRITZ Some matrix groups over finite-dimensional division algebras 97

I. O. YORK The exponent of certain finite p -groups 483

NICHOLAS YOUNG, see HARRY DYM

THE EDINBURGH MATHEMATICAL SOCIETY

The Edinburgh Mathematical Society was instituted in 1883 for "the promotion and extension of Mathematical Science, Pure and Applied".

Nominations for Ordinary Membership are received at any one Ordinary Meeting and voted upon at the next. Members receive notices of all meetings and may subscribe to the Proceedings at a reduced rate. Further information about membership can be obtained from the Secretary.

The Society's Proceedings, containing papers embodying the results of research that is original in matter or manner, are published in parts. Three parts complete a volume. One volume is issued each year. Series I comprised forty-four volumes published from 1884 to 1926. Series II commenced in 1927.

Papers to be considered for publication should be sent to the Secretary. Manuscripts (**2 copies**) should be typewritten on A4 paper with double spacing and generous margins. The style and arrangement should conform to current practice in the Proceedings. Each manuscript should contain a short abstract of not more than 200 words and also a primary classification number from the American Mathematical Society's 1980 Mathematics Subject Classification Scheme. References, including titles of papers, should be given in the form adopted by Mathematical Reviews, footnotes being avoided if possible. Figures should be separated from the text and lettered, ready for photographic reduction; their intended location should be clearly indicated. Manuscripts which are not suitable for submission to the printer will not be accepted. Authors are advised to retain a copy of any material submitted, as the Society cannot accept responsibility for any loss.

A proof is supplied once. Authors are particularly requested to correct and return the proof promptly. Excessive corrections may be charged to authors. Fifty free offprints, and additional copies at cost, will be supplied if ordered on a form returned with the proof.

The *Proceedings* are published at the price of £54.00 (\$130) for a volume of three parts.

Enquiries regarding purchase of back numbers should be addressed to

Kraus Reprint Ltd.
Route 100
Millwood
N.Y. 10546
U.S.A.

for volumes of Series I and up to Volume 14 of Series II, and to the publishers

Scottish Academic Press Ltd.
139 Leith Walk
Edinburgh EH6 8NS

for subsequent issues.

The Society's address is

The Edinburgh Mathematical Society
James Clerk Maxwell Building
The King's Buildings
Edinburgh EH9 3JZ

Communications concerning the Library should be addressed to the Librarian.

All other correspondence should be addressed to the Secretary.
