

LifeDefense Plus™ from Matrix

The New Standard in Defibrillator/Monitor/Pacers

The new standard in defibrillator/monitor/pacers, LifeDefense Plus™ is the result of a joint venture between Matrix Medical Inc., the largest distributor and manufacturer of emergency care equipment and supplies in the United States, and NEC San-ei Instruments Ltd., a worldwide leader in medical electronic technology. The new lightweight (18.7 lbs.) integrated defibrillator/monitor/pacer, LifeDefense Plus™ incorporates as standard, features that other units offer only as options.

Defibrillator

- Impedance indicator on paddle
- Energy setting on paddle
- Remote defibrillation
- Synchronized cardioversion
- Automatic recording of defibrillation event
- Pediatric paddle adapters

Monitor

- Large 7 sq. in. Sony® CRT screen
- Direct monitoring from ECG electrodes, paddles, or defibrillation electrodes
- Audio/visual message system
- Real/delay recording modes
- Annotated messages on Z-fold thermal paper

Pacer

- Demand pacing
- Fixed pacing
- High-impedance, conductive rubber electrodes

Battery support/accessories

- High-capacity 2.2 amp hour NiCad battery
- Multiple-function battery support system
- Full complement of quality Matrix accessories

For more information and a demonstration of LifeDefense Plus™, the new standard in emergency cardiac care, call Matrix at 1-800-845-3550.

Introducing the Remarkable

Heartstart® 3000

The most "intelligent" choice for early defibrillation.
Laerdal's advanced design includes:

- An incredibly lightweight defibrillator with monitor at less than 10 pounds.
- A full twenty minutes of continuous ECG data stored in a solid state module for concise case reports.
- A dual-channel microprocessor system that meets the latest regulatory and safety requirements.
- A new command display with additional messages, more ECG information and easy operation.
- The new "Quick Reporter" that instantly prints case reports in the field, ready to be delivered at the hospital with your patient.

Today nearly seven out of ten automated units used worldwide are Heartstarts. To see the remarkable Heartstart 3000, contact us at Laerdal.
