

Subscription rates

Subscriptions (post free) for the 1969 volume of the *Advances* are:

U.S. \$13.00, £stg. 5.5.0, \$A. 11.00, for libraries and institutions;

U.S. \$8.00, £stg. 3.6.0, \$A. 7.20, for individuals belonging to a recognised scientific society.

All enquiries about the *Advances*, as well as other subscriptions, should be sent to the Editorial Assistant, Miss M. Hitchcock, Department of Probability and Statistics, The University, Sheffield, S3 7RH, England. Cheques, money orders, etc. should be made out to *Applied Probability*; cheques on U.S., U.K. and Australian banks will be acceptable.

Notes for Contributors

It is a condition of publication in the *Advances in Applied Probability* that papers shall not previously have appeared elsewhere, and will not be reprinted without the written permission of the Trust. The copyright of all published papers shall be vested in the Trust. It is the general policy of the *Advances* not to accept for publication papers which cannot appear in print within 15 months of their date of submission. Authors will receive 100 reprints of their papers free, and joint authors a proportional share of this number. Additional reprints will be provided at cost.

Manuscripts should be written in English or French; manuscripts in other languages may be accepted by the Editors, but will appear (subject to the author's agreement) in English or French translation in the *Advances*.

It will be of help to the Editors if the following conventions are adopted:

a) The manuscript should be typewritten, using double spacing, on one side of the paper only. The original and a copy, may be submitted to any Editor; a duplicate of the covering letter should, however, be sent to the Editor-in-Chief.

b) References should be indicated in the text by the name of the author(s) and the date, thus: Feller (1961), and the full references listed at the end of the article in alphabetical order. Journal references should include the title of the article cited, the title of the journal (abbreviated in the style of the *International Journal of Abstracts: Statistical Theory and Method*) the volume, and inclusive page numbers. Book references should give the full title, the publisher, and the place of publication. For example:

Feller, W. (1961) A simple proof of renewal theorems. *Comm. Pure Appl. Math.* **14**, 285–293.

Robinson, E. A. (1959) *An Introduction to Infinitely Many Variates*. Griffin, London.

c) Type faces should be carefully distinguished on the manuscript using the following standard methods of marking:

Italic capitals (*T, I, R*) and lower case letters (*t, i, r*) should be underlined once, e.g.

T, I, R, t, i, r.

Bold-face capitals (**T, I, R**) and lower case letters (**t, i, r**) should have a curly underline, e.g.

~T, ~I, ~R, ~t, ~i, ~r.

Greek characters (α, β, θ) and script letters (*$\mathcal{J}, \mathcal{I}, \mathcal{R}$*) should be carefully drawn and identified when first used by a marginal note of the form 'a—lower case Greek alpha' or ' \mathcal{R} —script R'.

d) Indices and subscripts should be clearly distinguished, using the marking $\overset{4}{\underbrace{\quad}}$, $\overset{4}{\widehat{\quad}}$ where necessary.

Authors will receive only first proofs for correction; charges will be made for excessive alteration to these.

Printed in Israel at the Jerusalem Academic Press, P.O.B. 2390, Jerusalem.

CONTENTS

Volume 1

Number 2

Autumn 1969

- ERHAN ÇINLAR 123 Markov renewal theory
- JEFFREY J. HUNTER 188 On the moments of Markov renewal processes
- R. E. MILES 211 Poisson flats in Euclidean space. Part I. A finite number of random uniform flats
- J. C. GITTINS 238 Optimal resource allocation in chemical research
- P. WHITTLE 271 Sequential decision processes with essential unobservables
