

A COURSE OF PURE GEOMETRY

*Containing a Complete Geometrical Treatment
of the Properties of the Conic Sections*

By E. H. ASKWITH, D.D., Rector of Dickleburgh, Norfolk.

New edition, revised and enlarged. Demy 8vo. 7s 6d net.

"A useful book on pure geometry, containing all the usual theorems of the geometry of the triangle and circle, with chapters on cross-ratio, inversion, and other methods. It makes an interesting departure in treating the conic sections by defining them as curves of projection of a circle, and thus establishes their geometrical properties much more simply than by defining them by means of focus and directrix."

Times

THE ALGEBRAIC THEORY OF MODULAR SYSTEMS

By F. S. MACAULAY, M.A., D.Sc.

Demy 8vo. 4s 6d net. Cambridge Mathematical Tracts, No. 19.

"This tract ought to be welcomed as one of the most valuable in the series to which it belongs."—*Nature*

THE COMBINATION OF OBSERVATIONS

By DAVID BRUNT, M.A., B.Sc.,

Lecturer in Mathematics at the Monmouthshire Training College.

Demy 8vo. 8s net.

"This valuable treatise on the Method of Least Squares will be a boon to all students who are called upon to employ this method."—*Oxford Magazine*

COMBINATORY ANALYSIS

By MAJOR PERCY A. MACMAHON, F.R.S., D.Sc., LL.D.

In 2 volumes. Royal 8vo. 18s net each.

"To any mathematician . . . it must be a most interesting experience to read a work like this, conceived on such a scale, and written on lines so totally different from those which dominate the main streams of modern mathematical research."

Cambridge Review

A TREATISE ON THE ANALYTICAL DYNAMICS OF PARTICLES AND RIGID BODIES

With an Introduction to the Problem of Three Bodies

By E. T. WHITTAKER, Hon. Sc.D., F.R.S.

Professor of Mathematics in the University of Edinburgh.

Second edition. Large royal 8vo. 15s net.

"In revising the book the author has given references to, and in some cases accounts of, the numerous original researches in dynamics which have been published by various investigators since the first edition appeared, and has added some historical matter and rewritten many of the sections, thus making the volume of exceptional value to mathematicians."—*Glasgow Herald*

MESSRS. BELL'S LATEST BOOKS

Latest Volumes in Bell's Mathematical Series.

DYNAMICS. By R. C. FAWDRY, M.A., B.Sc., sometime Scholar of Corpus Christi College, Cambridge; and Head of the Military and Engineering Side, Clifton College. A companion volume to the "Statics" by the same author. Price 3s.

A SHILLING ARITHMETIC. By JOHN W. ROBERTSON, M.A., B.Sc., Mathematical Master, Robert Gordon's College, Aberdeen, and Lecturer at Aberdeen Technical College; formerly Assistant Lecturer in the Mathematical Department of Aberdeen University. Crown 8vo, 1s. 3d. net; or with Answers, 1s. 6d. net.

COMMERCIAL ARITHMETIC AND ACCOUNTS. By A. RISDON PALMER, B.A., B.Sc., Head of Matriculation Department, and JAMES STEPHENSON, M.A., M.Com., B.Sc. (Econ.), Head of the Higher Commercial Department, The Polytechnic, Regent Street, London.

Now Ready.—Parts I. and II., 2s. 6d. net each; with Answers, 3s. net. Also in One Vol., 4s. 6d. net; with Answers, 5s. 6d. net.

Part III. *in the Press.*

STATICS. By R. C. FAWDRY, M.A., B.Sc. Crown 8vo, 4s. 6d. Or in Two Parts: Part I., 3s. Part II., 2s. 6d.

PLANE TRIGONOMETRY. By H. L. REED, M.A., Assistant Mathematical and Science Master, Westminster School. Crown 8vo. 4s.

ARITHMETIC. By F. W. DOBBS, M.A., and H. K. MARSDEN, M.A., Assistant Masters at Eton College. *Now Ready.* Part I. Crown 8vo, 3s. 6d. Answers to Revision Papers, 1s. net. Part II. *in the Press.*

Mr. Pendlebury's Latest Books.

REVISION PAPERS IN ARITHMETIC. For the Oxford and Cambridge Local Examinations, County Council Examinations for Minor Scholarships, etc. By CHARLES PENDLEBURY, M.A., late Senior Mathematical Master of St. Paul's School. Crown 8vo, cloth. 1s. 3d.

PREPARATORY ARITHMETIC. By CHARLES PENDLEBURY, M.A. Second Edition, with a new set of Revision Papers. Crown 8vo. With or without Answers. 2s. 6d. Also without the Revision Papers. 1s. 9d.

G. BELL & SONS LTD.,
YORK HOUSE, PORTUGAL STREET, LONDON, W.C.

THE MATHEMATICAL ASSOCIATION.

(An Association of Teachers and Students of Elementary Mathematics.)

"I hold every man a debtor to his profession, from the which as men of course do seek to receive countenance and profit, so ought they of duty to endeavour themselves by way of amends to be a help and an ornament therunto."—BACON.

President (for 1917 and 1918) :

Professor T. P. NUNN, M.A., D.Sc.

Vice-Presidents :

Prof. G. H. BRYAN, Sc.D., F.R.S.	A. LODGE, M.A.
Prof. A. R. FORSYTH, Sc.D., LL.D., F.R.S.	G. B. MATHEWS, M.A., F.R.S.
Prof. R. W. GENESE, M.A.	A. W. SIDDONS, M.A.
Sir GEORGE GREENHILL, M.A., F.R.S.	Prof. H. H. TURNER, D.Sc., F.R.S.
Prof. E. W. HOBSON, Sc.D., F.R.S.	Prof. A. N. WHITEHEAD, M.A.
R. LEVETT, M.A.	Sc.D., F.R.S.

Hon. Treasurer :

F. W. HILL, M.A., City of London School, London, E.C. 4.

Hon. Secretaries :

C. PENDLEBURY, M.A., 39 Burlington Road, Chiswick, London, W. 4.

Miss M. PUNNETT, B.A., The London Day Training College, Southampton Row, W.C. 1.

Hon. Secretary of the General Teaching Committee :

P. ABBOTT, B.A., 5 West View, Highgate Hill, N. 19.

Editor of *The Mathematical Gazette* :

W. J. GREENSTREET, M.A., The Woodlands, Burghfield Common, near Mortimer, Berks.

Hon. Librarian :

C. E. WILLIAMS, M.A., 9 Tavistock Square, W.C. 1.

Other Members of the Council :

Miss M. R. BALDWIN, M.A.	Miss J. M. LEWIS.
F. C. BOON, M.A.	W. P. MILNE, M.A., D.Sc.
Miss E. GLAUERT, B.A.	G. W. PALMER, M.A.
G. GOODWILL, M.A.	W. M. ROBERTS, M.A.
J. L. S. HATTON, M.A.	J. STRAHAN, M.A., B.Sc.

THE MATHEMATICAL ASSOCIATION, which was founded in 1871, as the *Association for the Improvement of Geometrical Teaching*, aims not only at the promotion of its original object, but at bringing within its purview all branches of elementary mathematics.

Its purpose is to form a strong combination of all persons who are interested in promoting good methods of teaching mathematics. The Association has already been largely successful in this direction. It has become a recognised authority in its own department, and has exerted an important influence on methods of examination.

The Annual Meeting of the Association is held in January. Other Meetings are held when desired. At these Meetings papers on elementary mathematics are read and discussed.

Branches of the Association have been formed in London, Southampton, Bangor, and Sydney (New South Wales). Further information concerning these branches can be obtained from the Honorary Secretaries of the Association.

"*The Mathematical Gazette*" (published by Messrs. G. BELL & SONS, LTD.) is the organ of the Association. It is issued at least six times a year. The price per copy (to non-members) is 1s. 6d.; special numbers 2s. each. *The Gazette* contains—

- (1) ARTICLES, mainly on subjects within the scope of elementary mathematics;
- (2) NOTES, generally with reference to shorter and more elegant methods than those in current text-books;
- (3) REVIEWS, written by men of eminence in the subject of which they treat. They deal with the more important English and Foreign publications, and their aim, where possible, is to dwell on the general development of the subject, as well as upon the part played therein by the book under notice;
- (4) SHORT NOTICES of books not specially dealt with in the REVIEWS;
- (5) QUERIES AND ANSWERS, on mathematical topics of a general character.

Intending members are requested to communicate with one of the Secretaries. The subscription to the Association is 10s. per annum, and is due on Jan. 1st. It includes the subscription to "*The Mathematical Gazette*."
