Printed and Published for

THE AUSTRALIAN MATHEMATICAL SOCIETY

by John Wright & Sons Ltd, Bristol, England

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics) and Series B (Applied Mathematics). Information about Series A may be found on the inside back cover.

SERIES B APPLIED MATHEMATICS

This series will be published in volumes, comprising four parts, starting with volume XIX Part I in 1975. Initially two parts will be published annually. Subscriptions may be arranged through the Business Manager (see inside back cover). The annual cost for 1979 is \$22.

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences, excluding statistics. Novel applications of mathematics in real situations are welcomed. Authors are encouraged to write an introduction accessible to the whole applied mathematical community. Every effort will be made to publish suitable material with a minimum of delay.
