The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

A. LOGAN TURNER AND J. S. FRASER

ASSISTED BY

DOUGLAS GUTHRIE AND IRWIN MOORE

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter should be added.

4. The order for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications should be addressed to "EDITORS, *Journal of Laryngology*, c/o Messrs OLIVER AND BOYD, Tweeddale Court, Edinburgh."

7. The Annual Subscription is Forty Shillings, post free, and is payable in advance.

8. Single copies of back numbers, both of the present and the previous series, are on sale at Four Shillings each.

9. An Annual Subscription can be commenced with any number of the Journal, and the preceding numbers of the current year can be purchased at Four Shillings each.

UNITED STATES OF AMERICA

Orders for this Journal, for single parts or yearly subscriptions, can be sent either through a local bookseller, or to Messrs G. E. STECHERT & CO., 31-33 East 10th Street, New York.

CHEVALIER JACKSON'S INSTRUMENTS FOR ŒSOPHAGOSCOPY, LARYNGOSCOPY, AND BRONCHOSCOPY

New Models as made for Walter G. Howarth, F.R.C.S.

Each Instrument is made in accordance with the details of Chevalier Jackson's most recent models, and each is supplied with a *spare light carrier*, i.e., 2 light carriers and 2 lamps. All the models have been redesigned with a view to rendering them more easily cleansed; all the crevices and corners for the dirt have been taken away.

To ensure better visibility the tips of the forceps are *black*.

The Howarth-Jackson's Instruments are **less expensive than other American or English models**, and a further economy has been effected by rendering the instrument tips interchangeable, thus reducing the number of forceps handles and tips required.

The lamps are 2.5 volt and more durable than the usual models.

Manufactured only by

DOWN BROS., LTD.

A. LOGAN TURNER, M.D., F.R.C.S. (Ed.)

Senior Lecturer on Diseases of the Ear, Nose, and Throat, University of Edinburgh

With the collaboration of

J. S. FRASER, M.B., F.R.C.S. (Ed.)

J. D. LITHGOW, M.B., F.R.C.S. (Ed.)

W. T. GARDINER, M.C., M.B., F.R.C.S. (Ed.)

G. EWART MARTIN, M.B., F.R.C.S. (Ed.)

Lecturers on Diseases of the Ear, Nose, and Throat, University of Edinburgh

and

DOUGLAS GUTHRIE, M.D., F.R.C.S. (Ed.)

Lecturer on Diseases of the Ear, Nose, and Throat, School of Medicine of the Royal Colleges, Edinburgh

PRESS NOTICES

"The illustrations are many and good, the book is well balanced and clearly written, and may confidently be recommended for the use of students and practitioners."—*Lancet*.

"The high standard of efficiency of the work of those engaged in the specialty in the Edinburgh School of Medicine is highly reflected in this book, and the editor and his collaborators are to be very warmly congratulated on producing a work of the highest merit."—*Edinburgh Medical Journal*.

"Will prove of the greatest value to students and indeed to those devoting themselves to the specialty."—*Journal of Laryngology and Otology*.
