

Instructions to authors

Submission procedure. Submission of a paper to *European Psychiatry* is understood to imply that the data contained therein has not previously been published (except in abstract form) and is not being considered for publication elsewhere. There are no submission or page charges. Only submissions in English will be considered. One original plus three copies (one set of photographs must be original prints) should be submitted to the Editors-in-Chief. Papers will be forwarded to one of the Editors who will be in charge of the reviewing process.

Editors-in-Chief: Dr Y LECRUBIER and Dr P BOYER, Hôpital de la Salpêtrière, Pavillon Clérambault, INSERM U 302, 47, boulevard de l'Hôpital, 75651 Paris cedex 13, France. Fax: (33) 01 45 85 28 00

Papers that do not conform to the general criteria for publication in *European Psychiatry* will be returned immediately to authors to avoid unnecessary delay in submission elsewhere.

Organisation of the manuscript. Manuscripts should be typewritten double-space with wide margins throughout. Title page, abstracts, tables, legends to figures and reference list should each be provided on separate sheets of paper. The title page should include: the title, the name(s) and affiliation(s) of the author(s), a short running title, an address for correspondence, and telephone/fax numbers for editorial queries. **Original and review articles** should include an abstract (a single paragraph of no more than 150 words; and except for reviews should include an objective, methods, results and a conclusion) and 3-6 key words for abstracting and indexing purposes. Original and review articles should not exceed 5,000 words or the equivalent space including summary and references. The text should be ordered under the following headings: Introduction, Subjects and methods/Materials and methods, Results, Discussion, Conclusion, Acknowledgements (when appropriate), References. **Publication.** Upon acceptance of manuscripts, a **diskette** containing the final version of the article should be provided (following *Instructions for providing manuscripts on diskette*).

Short communications should not exceed 1,500 words or the equivalent space including figures and tables, with abstracts of no more than 50 words.

Rapid communications should not exceed 1,000 words or the equivalent space. The summary should consist of no more than 50 words. Only one table and one figure are accepted. Figures (glossy) should be submitted in a form suitable for direct reproduction. References should be limited to a maximum of 10 and are in addition to the 1,000 words. To ensure rapid publication, articles must meet a high standard, both in terms of scientific content and presentation. Following acceptance of an article in this category, no further modifications by the author will be allowed. Rapid communications are considered to be articles comprising preliminary but consistent results and will be published within three months following acceptance.

Case reports should not exceed 1,000 words and should not include a summary; references limited to ten.

Letters to the Editor (maximum 500 words) will be processed rapidly. To ensure rapid publication, please adhere strictly to the general instructions on style and arrangement: provide only figures and tables suitable for direct reproduction.

Illustrations. Photographs should be presented as glossy prints with high contrast. Figures should be completely and consistently lettered, the size of the lettering being appropriate to that of the illustration, taking into account the necessary reduction in size.

Illustrations should be designed to fit either a single column or the full text width. Each illustration should be clearly marked on the reverse side with the name of the author(s), the number of the illustration and its orientation (top). Colour figures will be included subject to the author's agreement to defray part of the cost.

Tables. All tables must be cited in the text, have titles and be numbered consecutively with roman numerals. Only horizontal lines should be included, and kept to a minimum. Figures and tables should not exceed the equivalent of 2 journal pages.

References (Vancouver system). Authors are responsible for the accuracy of the references. Only published articles and those in press (the journal should be stated) may be included; unpublished results and personal communications should be cited as such in the text. In the text, a reference should be cited by author and date; when there are more than two authors, state the first author's name followed by 'et al'. References should be arranged alphabetically at the end of the paper and include, in the following order: all authors (surname followed by initials), title of article, journal title (abbreviated according to the Serial Sources for the Biosis Data Base), year of publication, volume number, and inclusive page numbers.

Examples:

Journal article

Dolberg OT, Iancu I, Zohar J. Treatment duration of obsessive compulsive disorder. *Eur Psychiatry* 1996;12:403-6

Book

Takahashi R, Flor-Henry P, Gruzelier J, Niwa SI. *Dynamics, Laterality and Psychopathology*. Amsterdam: Elsevier, 1987

Chapter in a book

Pinard G, Tetreault L. Concerning semantic problems in psychological evaluation. In: Pichot P, ed. *Psychological Measurements in Psychopharmacology. Modern Problems in Pharmacopsychiatry*. Basel: Karger, 1974;7:8-22

Nomenclature. Metric units must be used throughout, laboratory units must be followed by SI units. The generic name of a drug should be used unless the specific trade name of the drug is directly relevant to the discussion.

Proofs and reprints. Proofs will be sent to the author indicated on the title page; no changes to the original manuscript will be allowed at this stage. They should be carefully corrected and returned (preferably by fax) to the publisher within 48 hours after reception. If this period is exceeded, the galley will be proofread by the editorial staff of the publishing house only and printed without the author's corrections.

25 free reprints are supplied per contribution. Additional reprints may be ordered at the prices quoted on the order form sent to the corresponding author.

Copyright. As soon as the article is published, the author is considered to have transferred his rights to the publisher. Requests for reproduction should be sent to the latter.
