

*Vital Statistics of Britain*  
Two new books from  
St. Martin's Press

**British Political Facts 1900-1979**

David Butler & Anne Sloman

*British Political Facts* is an invaluable handbook of factual information that presents, in compact form, the essential data about the dates, the numbers and the personalities of British domestic politics in this century. Facts are given for: Ministries, Parties, Parliament, Elections, Employment, Trade Unions, the Press, Religion, Social Conditions, International Relations and more. Extensive bibliographical notes are provided when the facts are given in an abbreviated form or become too bulky or complicated to be included.

*"Extremely useful compilation of data about 20th century Britain. There is nothing comparable in compactness, inclusiveness and ease of use. Highly recommended."*—Choice

5th edition. 480 pp. 9½ x 6½.

ISBN: 0-312-10466-9. \$39.50. February 1980.

**Britain in Context**

John D. Hey

*Britain in Context* is a social, political and economic portrayal of Britain as it is, not as optimists or pessimists would lead us to believe. It is a valuable fact-book covering 87 topics of broad interest which helps to place Britain in context—internationally and historically. For each topic, charts, diagrams and graphs are clearly presented in a practical facing-page format. Three major areas are examined:

- Britain as part of the World
- Britain as an Economic Aggregate
- Britain as a Society of Individuals

189 pp. 94 pp. diagrams in 4-tone color. 9½ x 6¾.

ISBN: 0-312-09741-7. \$22.50. November 1979.
