

Erratum

Thomas, D. M. (2011) A critical review of Richard Lynn's reports on reaction time and race.
Journal of Biosocial Science **43**(1), 113–123.

Page 120, lines 27–29, should read:

... insignificant differences are those for which the pairwise mean difference's confidence interval included zero, and significant differences are those for which the confidence interval excluded zero.
