Contents

PART I (AUGUST 1964)

	PAGE
ALLISON, J. C. S. A comparison between maize and wheat in respect of leaf area after flowering and grain growth. (With Four Text-figures)	1
LAWRENCE, T. L. J. and PEARCE, J. Some effects of wintering yearling beef cattle on different planes of nutrition. I. Live-weight gain, food consumption and body measurement changes during the winter period and the subsequent grazing period. (With Three Plates and Eleven Text-figures)	5
LAWRENCE, T. L. J. and PEARCE, J. Some effects of wintering yearling beef cattle on different planes of nutrition. II. Slaughter data and carcass evaluation. (With Three Plates and Three Text-figures)	23
LAMBERT, D. A. The influence of density and nitrogen in seed production stands of S48 timothy (<i>Phleum pratense</i> L.) and S 215 meadow fescue (<i>Festuca pratensis</i> L.). (With One Text-figure)	35
HOUGHTON, T. R., BUTTERWORTH, M. H., KING, D. and GOODYEAR, R. The effects of different levels of food intake on fattening pigs in the humid tropics. (With Three Text-figures)	43
BROSTER, W. H., TUCK, VALERIE J. and BALCH, C. C. Experiments on the nutrition of the dairy heifer. V. Nutrition in late pregnancy. (With One Text-figure)	51
HUTCHINSON, J. S. M., O'CONNOR, P. J. and ROBERTSON, H. A. Observations on the onset of the breeding season and on the oestrous cycle of the Welsh Mountain ewe. (With Two Text-figures)	59
ELLIS DAVIES, W. and REUSCH, J. D. H. The assessment of herbage legume varieties. I. Lucerne	61
DEVINE, J. R. and HOLMES, M. R. J. Field experiments comparing autumn and spring applications of ammonium sulphate, ammonium nitrate and calcium nitrate for winter wheat. (With One Text-figure)	69
SMITH, C. A. Studies on the Northern Rhodesia <i>Hyparrhenia</i> veld. V. The yield of veld compared with giant Rhodes grass (<i>Chloris gayana</i>). (With Two Text-figures)	75
KHATTAB, A. G. H., WATSON, J. H. and AXFORD, R. F. E. Genetic control of blood potassium concentration in Welsh Mountain sheep. (With Four Text-figures)	81
ASHTON, W. M., OWEN, J. B. and INGLETON, JEAN W. A study of the composition of Clun Forest ewe's milk	85
BROSTER, W. H. and CURNOW, R. N. A note on the use of the analysis of covariance to reduce standard errors in experiments on milk production	91
CUNNINGHAM, R. K. Cation-anion relationships in crop nutrition. I. Factors affecting cations in Italian rye-grass. (With Two Text-figures)	97

	PAGE
CUNNINGHAM, R. K. Cation-anion relationships in crop nutrition. II. Factors affecting the ratios of sum of the cations:sum of the anions in Italian rye-grass. (With Two Text-figures)	103
CUNNINGHAM, R. K. Cation-anion relationships in crop nutrition. III. Relationships between the ratios of sum of the cations:sum of the anions and nitrogen concentrations in several plant species. (With One Text-figure)	109
BLAXTER, K. L. and WAINMAN, F. W. The utilization of the energy of different rations by sheep and cattle for maintenance and for fattening. (With Four Text-figures)	113
BATEMAN, J. V. and BLAXTER, K. L. The utilization of the energy of artificially dried lucerne	129

PART 2 (OCTOBER 1964)

WALKER, C. A. The growth and development of the beef qualities of Angoni cattle (East African zebu). Part I. Live weight. (With One Plate and Five Text-figures)	135
WALKER, C. A. The growth and development of the beef qualities of Angoni cattle (East African shorthorn zebu). Part II. Linear growth and carcass characters	155
KHATTAB, A. G. H., WATSON, J. H. and AXFORD, R. F. E. Inherited physiological differences in red cell characteristics of Welsh mountain sheep	173
WATSON, J. H. and KHATTAB, A. G. H. The effect of haemoglobin and potassium polymorphism on growth and wool production in Welsh mountain sheep	179
ROBINSON, D. W. and LEWIS, D. Protein and energy nutrition of the bacon pig. II. The effect of varying the protein and energy levels in the diets of 'finishing' pigs. (With One Text-figure)	185
BROWN, T. H. The early weaning of lambs. (With One Text-figure)	191
ARDEAN, G. M. and BROWN, T. H. X-ray diagnosis of pregnancy in sheep with special reference to the determination of the number of foetuses. (With Two Plates)	205
REITH, J. W. S., INKSON, R. H. E., HOLMES, W., MACLUSKY, D. S., REID, D., HEDDLE, R. G. and COPEMAN, G. J. F. The effects of fertilizers on herbage production. II. The effect of nitrogen, phosphorus and potassium on botanical and chemical composition.	209
LANG, R. W. and HOLMES, J. C. The growth of the swede crop in relation to seed size.	221
BOND, D. A., DRAYNER, JEAN M., FYFE, J. L. and TOYNBEE-CLARKE, GILLIAN. Male sterility in field beans (<i>Vicia faba</i> L.). I. A male-sterile bean inherited as a Mendelian recessive. (With One Text-figure)	229
BOND, D. A., FYFE, J. L. and TOYNBEE-CLARKE, GILLIAN. Male sterility in field beans (<i>Vicia faba</i> L.). II. Yield trials of F_1 hybrid winter beans produced with the aid of male sterility. (With One Text-figure)	235

	PAGE
TOPPS, J. H. and ELLIOTT, R. C. Studies of natural herbage of the subtropics. III. Concentrations of volatile fatty acids and ammonia in the rumen of sheep fed fresh herbage. (With Two Text-figures)	245
BOYD, D. A. and DERMOTT, W. Fertilizer experiments on main crop potatoes 1955-61	249
BARUA, D. N. Effect of light intensity on assimilation characteristics of detached tea leaves. (With Two Text-figures)	265
FYFE, JAMES L. Hereditary variation in resistance to <i>Verticillium</i> wilt within cultivated lucerne	273
CHALMERS, MARGARET I. and MARSHALL, S. B. M. Ruminal ammonia formation in relation to the utilization of groundnut meal and herring meal as protein sources for milk production. (With Five Text-figures)	277
CHALMERS, MARGARET I., JAYASINGHE, J. B. and MARSHALL, S. B. M. The effect of heat treatment in the processing of groundnut meal on the value of the protein for ruminants with some additional experiments on copra. (With Four Text-figures)	283

PART 3 (DECEMBER 1964)

SCHWARZ, H. M., SCHOEMAN, C. A. and FÄRBER, M. S. Utilization of urea by sheep. I. Rates of breakdown of urea and carbohydrates <i>in vivo</i> and <i>in vitro</i> . (With Seven Text-figures)	289
FRENEY, J. R. An evaluation of naturally occurring fixed ammonium in soils. (With One Text-figure)	297
LANGLANDS, J. P. and CORBETT, J. L. A study of the 'dissolved faeces fraction' method for the indirect estimation of herbage intake	305
LEAT, W. M. F., CUTHBERTSON, A., HOWARD, A. N. and GRESHAM, G. A. Studies on pigs reared on semi-synthetic diets containing no fat, beef tallow and maize oil: composition of carcass and fatty acid composition of various depot fats	311
BUTTERWORTH, M. H. The digestible energy content of some tropical forages	319
LAZENBY, ALEC and ROGERS, H. H. Selection criteria in grass breeding. III. Chemical composition. (With Two Text-figures)	323
MOUNT, L. E. A simple instrument for the measurement of low air speeds, with special reference to pig housing. (With Five Text-figures)	335
PRESCOTT, J. H. D. and LAMMING, G. E. The effects of castration on meat production in cattle, sheep and pigs. (With Two Text-figures)	341
HORROCKS, D. and PHILLIPS, G. D. The concentration of certain mineral elements in the alimentary tracts of European and Zebu steers	359
HORROCKS, D. and PHILLIPS, G. D. Mineral balances in European and Zebu steers	365

	PAGE
HORROCKS, D. Sodium and potassium balances and growth on high and low sodium diets. I. The addition of sodium to a low energy hay diet	369
HORROCKS, D. Sodium and potassium balances and growth on high and low sodium diets. II. The feeding of protein-rich concentrates in addition to sodium	373
CLEMENT, C. R. and WILLIAMS, T. E. Leys and soil organic matter. I. The accumulation of organic carbon in soils under different leys. (With Two Text-figures)	377
LAWRIE, R. A., POMEROY, R. W. and CUTHBERTSON, A. Studies on the muscles of meat animals. VI. Comparative composition of various muscles in boars of two weight groups in relation to hogs.	385
GRESSWELL, E., BENZIE, D. and BOYNE, A. W. Studies of the skeleton of the sheep. IX. A further study of the mineralization of the skeleton of breeding ewes on two Scottish hill farms. (With Two Text-figures)	387
KERSHAW, W. J. S. <i>Piesma quadratum</i> (Fieb.) in East Anglia. (With One Text-figure)	393
STODDART, J. L. Seed ripening in grasses. III. Changes in chlorophyll and anthocyanin content. (With One Text-figure)	397
SLEE, J. Some results of multiple-mating and superovulation in sheep	403
ROBINSON, D. W., MORGAN, J. T. and LEWIS, D. Protein and energy nutrition of the bacon pig. III. The effect of reducing the protein content of pig diets at different live weights	409
THWAITES, C. J., YEATES, N. T. M. and POGUE, R. F. Objective appraisal of intact lamb and mutton carcasses. (With Five Text-figures)	415
SPEDDING, C. R. W., BROWN, T. H. and LARGE, R. V. The interaction of internal parasites and nutrition in the utilization of grassland by sheep. (With Three Text-figures)	421

The Journal of Agricultural Science is issued every other month in parts of about 136 pages with plates and figures, three parts constituting a volume. Two volumes yearly.

Quotations for available back volumes and parts may be obtained on application to the Cambridge University Press.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to Dr G. D. H. BELL, Plant Breeding Institute, Maris Lane, Trumpington, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text or coloured plates are submitted the author may be asked to bear the cost of such Plates.

The lettering on text figures should be clear of the illustration and indicating by blue pencilled lines the desired position.

Bibliography should be given under the heading of 'References' in the following form:

Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of Journal (abbreviated according to the *World List of Scientific Periodicals*), volume and page of reference. In the text a reference should be quoted by the author's name and date (in brackets).

All names of Journals and books are set in italics; they should be indicated on the typescript by underlining.

Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 65s. net per volume (post free); single numbers 27s. 6d. net. Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is \$12.50 per volume; single number \$4.75. Enquiries should be addressed to the Cambridge University Press, American Branch, 510 North Avenue, New Rochelle, N.Y.
