

## INDEX OF AUTHORS.

	PAGE
BEATTIE, J. M. and LEWIS, F. C. The electric current (apart from the heat generated), a bacteriological agent in sterilization of milk and other fluids. (With 2 Text-figures) . . . . .	123
BENSON, W. N. <i>See</i> HERCUS.	
BLAIR, E. M. MCV. <i>See</i> WILSON.	
CARTER, C. L. <i>See</i> HERCUS.	
COPEMAN, W. S. C. On some recently developed methods for measles prophylaxis . . . . .	427
CRUIKSHANK, R. <i>Bacillus bifidus</i> : Its characters and isolation from the intestines of infants. (With Plate II and 1 Diagram) . . . . .	241
EASTWOOD, A. A note on immunology and malignant disease . . . . .	255
ELTON, C. S. Plague and the regulation of numbers in wild mammals. (With 4 Text-figures) . . . . .	138
GLENNY, A. T. The principles of immunity applied to protective inoculation against diphtheria. (With 7 Charts) . . . . .	301
GREENWOOD, M. and TOPLEY, W. W. C. A further contribution to the experimental study of epidemiology. (With 10 Graphs) . . . . .	45
HEIBERG, P. Has the mortality from cancer changed in Copenhagen? (With 1 Chart) . . . . .	291
HERCUS, C. E., BENSON, W. N. and CARTER, C. L. Endemic goitre in New Zealand, and its relation to soil-iodine. Studies from the University of Otago, New Zealand. (With Plate III, 4 Charts and 3 Figures) . . . . .	321
HICKLING, R. A. The significance of haemic plasma cells in various infective conditions . . . . .	120
HILL, A. B. A physiological and economic study of the diets of workers in rural areas as compared with those of workers resident in urban districts. (With 8 Charts) . . . . .	189
HIRST, L. F. Plague fleas, with special reference to the Milroy Lectures, 1924 . . . . .	1
HISCOX, E. R. and STARLING, U. The use of the fermentation-reductase test for the grading of milk . . . . .	164
HOY, W. A. <i>See</i> PROCTER.	
LEWIS, E. R. <i>See</i> TOPLEY.	
LEWIS, F. C. <i>See</i> BEATTIE.	
MACKIE, T. J. The non-specific stimulation of a natural antibody . . . . .	176
PROCTER, F. and HOY, W. A. The influence of different methods of cleansing dairy utensils on the bacterial content of churns and on the keeping properties of milk . . . . .	419
SANDERS, J. The monthly birth-rate. (With 5 Charts) . . . . .	274
SAVAGE, W. G. and WHITE, P. B. Relationship of para-typhoid fever to food poisoning outbreaks . . . . .	37
STARLING, U. <i>See</i> HISCOX.	
TOPLEY, W. W. C. and WILSON, J. Further observations on the rôle of the Twort-d'Herelle phenomenon in the epidemic spread of mouse-typhoid. (With 1 Chart) . . . . .	295

	PAGE
TOPLEY, W. W. C., WILSON, J. and LEWIS, E. R. The rôle of the Twort-d'Herelle phenomenon in epidemics of mouse-typhoid. (With 4 Charts) . . . . .	17
TOPLEY, W. W. C. <i>See</i> GREENWOOD.	
WHITE, P. B. <i>See</i> SAVAGE.	
WILSON, W. J. and BLAIR, E. M. MCV. Correlation of the sulphite reduction test with other tests in the bacteriological examination of water. (With Plate I) . . . . .	111
WILSON, J. <i>See</i> TOPLEY.	
YOUNG, M. The topographical incidence of cancer in Yorkshire and the Midland Counties of England, including the fenland. (With 2 Maps) . . . . .	403
