MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

PATRON

H.R.H. THE PRINCE PHILIP, DUKE OF EDINBURGH, F.R.S.

OFFICERS AND COUNCIL

President: Prof. C. F. A. PANTIN, Sc.D., D.Sc., Dr Univ., F.R.S.

Vice-Presidents

The Earl of IVEAGH, K.G., C.B., C.M.G., F.R.S.
Prof. A. V. HILL, C.H., O.B.E., Sc.D., LL.D., F.R.S.
Sir EDWARD J. SALISBURY, Kt., C.B.E., D.Sc.,
LL.D., F.R.S.
Major E. G. CHRISTIE-MILLER
MORLEY H. NEALE, C.B.E.

Prof. Sir JAMES GRAY, Kt., C.B.E., M.C., Sc.D.,
LL.D., F.R.S.
G. M. GRAHAM, C.M.G., O.B.E.
Prof. Sir ALISTER C. HARDY, Kt., D.Sc., F.R.S.
Prof. C. M. YONGE, C.B.E., D.Sc., F.R.S.
Rear Admiral E. G. IRVING, C.B., O.B.E.

Honorary Members

Dr H. B. BIGELOW
E. H. E. HAVELOCK, C.B., C.B.E.
Prof. Sir ALISTER C. HARDY, Kt., D.Sc., F.R.S.
Dr A. G. HUNTSMAN
Prof. HANS PETTERSSON, For. Mem. R.S.

Dr A. C. REDFIELD
Prof. G. THORSON, D.Phil.
Prof. C. M. YONGE, C.B.E., D.Sc., F.R.S.
Prof. L. A. ZENKEVITCH

COUNCIL

Elected Members

H. A. COLE, D.Sc.
Prof. D. J. CRISP, Ph.D.
R. I. CURRIE
Prof. G. E. FOGG, Ph.D.
Dr F. C. FRASER, C.B.E., D.Sc.
Prof. J. E. HARRIS, C.B.E., Ph.D., F.R.S.
Prof. A. L. HODGKIN, Sc.D., F.R.S.
Prof. B. KATZ, M.D., D.Sc., F.R.S.

R. D. KEYNES, Ph.D., F.R.S.
Prof. E. W. KNIGHT-JONES, Ph.D.
C. E. LUCAS, C.M.G., D.Sc.
C. H. MORTIMER, Dr.phil., D.Sc., F.R.S.
Prof. J. E. SMITH, Sc.D., F.R.S.
N. TEBBLE
Prof. W. F. WHITTARD, D.Sc., F.R.S.

Governors

W. C. TAME (Ministry of Agriculture, Fisheries
and Food)
The Worshipful Company of Fishmongers:
The Prime Warden
Sir EDWARD CHADWYCK-HEALEY, Bt., M.C.
Col. Sir JOHN CAREW POLE, Bt., D.S.O., T.D.
Prof. Sir ALISTER C. HARDY, Kt., D.Sc., F.R.S.
(Oxford University)

S. SMITH, Ph.D. (Cambridge University)
EDWARD HINDLE, Sc.D., F.R.S. (British
Association)
Prof. G. P. WELLS, Sc.D., F.R.S. (Zoological
Society)
Prof. Sir JAMES GRAY, Kt., C.B.E., M.C., Sc.D.,
LL.D., F.R.S. (Royal Society)
Prof. A. V. HILL, C.H., O.B.E., Sc.D., LL.D., F.R.S.
(Physiological Society)

Hon. Treasurer: Sir EDWARD CHADWYCK-HEALEY, Bt., M.C., The Mill House,
Hook, Basingstoke, Hants.

Secretary: Sir FREDERICK S. RUSSELL, Kt., C.B.E., D.S.C., D.F.C., D.Sc., LL.D., F.R.S., The Laboratory,
Citadel Hill, Plymouth, Devon

SCIENTIFIC STAFF

Director: Sir FREDERICK S. RUSSELL, Kt., C.B.E., D.S.C., D.F.C., D.Sc., LL.D., F.I.Biol., F.R.S.

D. P. WILSON, D.Sc., F.I.Biol., F.R.P.S. (*Zoologist*)
L. H. N. COOPER, D.Sc., F.R.I.C., F.G.S., F.I.Biol.,
F.R.S. (*Chemist*)
G. M. SPOONER, M.B.E., M.A., F.R.E.S. (*Zoologist*)
MARY W. PARKE, D.Sc., Ph.D., F.L.S., F.I.Biol.
(*Botanist*)
P. G. CORBIN, B.A. (*Zoologist*)
J. A. C. NICOL, D.Sc., M.A., D.Phil. (*Experimental
Zoologist*)
N. A. HOLME, M.A. (*Zoologist*)
G. R. FORSTER, B.Sc. (*Zoologist*)

F. A. J. ARMSTRONG, F.R.I.C. (*Chemist*)
E. D. S. CORNER, M.Sc., Ph.D. (*Biochemist*)
A. J. SOUTHWARD, D.Sc., Ph.D. (*Zoologist*)
T. I. SHAW, M.A., Ph.D. (*Physiologist*)
J. V. HOWARTH, B.Sc. (*Physiologist*)
Q. BONE, B.A. (*Zoologist*)
G. T. BOALCH, B.Sc., Ph.D. (*Botanist*)
G. W. BRYAN, B.Sc., Ph.D. (*Zoologist*)
A. G. DAVIES, B.Sc., Ph.D. (*Special Appointment:
Physical Chemist*)

J. H. WICKSTEAD, B.Sc., Ph.D., Department of Technical Co-operation (*Zoologist*)
Prof. E. J. DENTON, Sc.D., B.A., B.Sc., Ph.D., F.I.Biol., F.R.S. (*Physiologist*),
Royal Society Research Professor of Bristol University

March 1965

JOURNAL OF THE MARINE BIOLOGICAL ASSOCIATION
INSTRUCTIONS FOR THE PREPARATION
OF MANUSCRIPTS

TITLE

The title of the paper should be kept as short as possible.

The name of the author at the beginning of the paper should be followed only by senior qualifications.

TEXT

Manuscripts must be typed (double-spaced) on one side of the paper, leaving ample margins, with the folios numbered. Words to be printed in italic should be underlined. The first mention of Latin names of species should be followed by the authority, except where reference is made to a work in which the authority appears (e.g. *Plymouth Marine Fauna*).

Manuscripts should be as concise as possible. Undue length will undoubtedly lead to delay in publication as the paper will be returned to the author for shortening.

All linear measurements and weights should be in the metric scale.

For symbols and abbreviations, the recommendations of the Royal Society (1951) are followed.

TABLES

Tables should be set out on separate sheets numbered in Arabic numerals, and given a concise heading.

TEXT-FIGURES

Text-figures should be in black ink. It is important to make the lines sufficiently black. Areas to be mechanically stippled should be indicated by light blue pencil shading.

No drawing should be so large that it must be reduced to less than one-third of its original size. The degree of reduction need not be inserted by the author.

The size of the printed area of the *Journal* page is 18 × 12 cm. The maximum size for a full-page figure (with legend) is 19½ × 13½ cm.

Lettering, numerals, etc., should be marked clearly in blue pencil and indicating the position in which they are to be inserted by an arrow in blue pencil. This should be kept to a workable minimum, all details being included in the legend.

Axes and graduation marks on graphs must be inked in. The lines on graph paper

are not normally reproduced, and should be blue or faint grey.

Legends for figures must be typed all together on a separate sheet, and not inserted on the actual illustrations.

Text-figures are numbered in arabic numerals, and referred to in the text as 'Fig. 1', etc. Where there is a plate containing several figures, the text-figures are referred to as 'Text-fig. 1', etc.

All line-drawings are printed as text-figures, as well as photographs for which fine detail is not required.

PLATES

Photographs should be on smooth-surfaced paper, semi-matt or glossy. The edges of the photograph must be trimmed square. It is important that the background in the photograph be of a uniform tone and free from blemishes. Where several photographs make up a single plate, they are numbered 'Fig. 1', etc.

SUMMARY

Each paper must be accompanied by an informative Summary, giving the main results of the work published.

REFERENCES

References are listed alphabetically at the end of the paper. The full title of the paper must be given. Titles of papers, but not of books, are decapitalized. Titles of Journals are abbreviated as in the *World List of Scientific Publications* (4th ed., 1963 on). Volume (Vol.), Band (Bd.), or Tome (T.) numbers are in Arabic numerals. Where a volume appears in parts the part need only be specified where each has separate pagination. References to books should include the publisher. Citations in text to be given by author's name followed by date in brackets

Examples:

MARSHALL, S. M., NICHOLLS, A. G. & ORR, A. P., 1939. On the growth and feeding of young herring in the Clyde. *J. mar. biol. Ass. U.K.*, Vol. 23, pp. 427-55.

RUSSELL, F. S. & YONGE, C. M., 1928. *The Seas*. 379 pp. London: Frederick Warne.

Authors are requested to see that their manuscripts are in finished form and completely ready for publication so that corrections may be reduced to a minimum, and these are confined as far as possible to the first proof. If the cost for corrections exceeds a reasonable figure, the author is liable to be charged to the full extent of the excess.

The Journal of General Microbiology

Editors: B. C. J. G. KNIGHT and A. F. B. STANDFAST

Contents of Volume 38, No. 1, January 1965

- G. L. Bullock, S. F. Snieszko and C. E. Dunbar.** Characteristics and identification of oxidative pseudomonads isolated from diseased fish.
- C. D. Johnson.** The influence of previously X-irradiated aqueous solutions on the infectivity of the viruses of foot-and-mouth disease and vesicular stomatitis.
- I. Morris and P. J. Syrett.** The effect of nitrogen starvation on the activity of nitrate reductase and other enzymes in chlorella.
- Ligeri P. Hadjipetrou and A. H. Stouthamer.** Energy production during nitrate respiration by *Aerobacter aerogenes*.
- H. C. de Klerk and J. N. Coetzee.** The fine structure of lactobacillus bacteriophages.
- H. T. Zwartouw, J. C. N. Westwood and W. J. Harris.** Antigens from vaccinia virus particles.
- J. C. N. Westwood, H. T. Zwartouw, G. Appleyard and D. H. J. Titmuss.** Comparison of the soluble antigens and virus particle antigens of vaccinia virus.
- J. Lascelles and J. F. Szilagy.** Phospholipid synthesis by *Rhodospseudomonas spheroides* in relation to the formation of photosynthetic pigments.
- J. A. Cole and D. E. Hughes.** The metabolism of polyphosphates in *Chlorobium thiosulphatophilum*.
- Anna M. Pakoskey, Eileen C. Leshner and D. B. McNair Scott.** Hexokinase of *Escherichia coli*. Assay of enzyme activity and adaptation to growth in various media.
- A. A. Brunt, R. H. Kenten, A. J. Gibbs and H. L. Nixon.** Further studies on cocoa yellow mosaic virus.
- Ruth M. Lemcke.** A serological comparison of various species of mycoplasma by an agar gel double-diffusion technique.
- H. Smith, J. D. Anderson, J. Keppie, P. W. Kent and G. M. Timmis.** The inhibition of the growth of brucellas *in vitro* and *in vivo* by analogues of erythritol.
- J. D. Anderson and H. Smith.** The metabolism of erythritol by *Brucella abortus*.
- H. V. Jordan and A. Howell, Jun.** Nutritional control of cellular morphology in an aerobic actinomycete from the hamster.
- A. H. Rose and Lilian M. Evison.** Studies on the biochemical basis of the minimum temperatures for growth of certain psychrophilic and mesophilic micro-organisms.
- Valerie Hume, J. C. N. Westwood and G. Appleyard.** The anti-viral action of rutilantin A.
- M. Argaman and S. Razin.** Cholesterol and cholesterol esters in mycoplasma.

The subscription rate is 80s. net per volume of 3 parts, single parts 35s. each, plus postage. Three volumes will be issued each year. Orders should be sent to

THE QUARTERLY JOURNAL OF MICROSCOPICAL SCIENCE

JOINT EDITORS:

JOHN R. BAKER, D.Sc., F.R.S.

H. G. CALLAN, D.Sc.

After full discussion with the Board of Directors of the Company of Biologists it has been decided to make a gradual change in the scope of this Journal. It is the Editors' intention to transform the Quarterly Journal of Microscopical Science into a journal of cytology and of the study of organic fine structure. The subject-matter of the journal will continue to be varied, since we interpret the word cytology in the widest sense.

Subscription Price per Volume of 4 Parts £4. 4s.

DO SCIENTISTS NEED A COMPREHENSIVE INDEX TO ALL OF SCIENCE?

Every research scientist has, on one occasion or another, been stumped by the complex problems of searching the scientific literature. Today's search requirements are hobbled by the limitations of traditionally organized indexing systems.

At the Institute for Scientific Information, we have tested and developed a new dimension in indexing. We call it *Science Citation Index*.

The *Science Citation Index* instantly identifies the most recent publications referring to a particular work, since its publication. The *Science Citation Index* provides the scientist with an improved, novel starting point: the specific paper or book of a specific author . . . and from there the searcher is brought forward in time to current papers relating to the earlier work.

Write us now and we'll send details by return mail—without obligation, of course.
