THE JOURNAL OF THE American Society of Agronomy

ISSUED ON THE 15th OF EACH MONTH AT GENEVA, N.Y., U.S.A.

Object:

The increase and dissemination of knowledge concerning soils and crops and the conditions affecting them.

A Journal now in its 25th year devoted to new material of interest to investigators and teachers in the fields of crop production and soil science. It contains papers reporting on original researches by soil and crop chemists, plant physiologists, botanists, geneticists, phytopathologists, soil microbiologists, and others. Also notes on technic, book reviews, and timely items of agronomic interest.

Each volume of twelve numbers contains approximately a thousand pages, with a subject and author index; also the proceedings of the annual meeting of the American Society of Agronomy.

Author and subject index to Vols. 1 to 20, inclusive, available at 50 cents per copy. Many back numbers of the Journal still obtainable.

**Subscription price \$5.00 per volume (12 numbers)
anywhere in the world.**

THE FOUNDATIONS OF AGRICULTURAL ECONOMICS

TOGETHER WITH

AN ECONOMIC HISTORY OF
BRITISH AGRICULTURE DURING
AND AFTER THE GREAT WAR

by

J. A. VENN, Litt.D.

PRESIDENT OF QUEENS' COLLEGE

SECOND (ENLARGED) EDITION

Royal 8vo. With 20 plates and numerous maps and digrams

25s. net

This book has been entirely re-written and re-set and the opportunity has been taken to enlarge the work by the addition of seven new Chapters, of which the first, dealing with the interrelationship of economic theory and agricultural practice, makes good a serious omission in the previous edition.

A recent visit to the Far East, made under the aegis of the Ministry of Agriculture, has enabled the author to draw upon the experiences and practices of the countries in question when dealing with certain features of rural economy.

“If everyone before writing on the topic were compelled to pass an examination in Mr Venn’s book, much less nonsense would be talked and written, at least by those scribes who ‘mean well.’ The book deserves a place beside those by Lord Ernle and Sir Daniel Hall, for the interest and attractiveness of its style, as well as for its richness in information.”
AGRICULTURAL GAZETTE

“There are several books on historical agriculture in the market, but there is none that deals with the subject on quite the same lines as that of Mr Venn, and we feel sure that it will always be a book of reference for future writers, and it should be in the hands of all who are making a present-day study of the subject.”
