
THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

Membership

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 77, 2024, which includes print and electronic access, is £878 (USA, Canada and Mexico US \$1582) and includes delivery by air; single parts are available at £170 (USA, Canada and Mexico US \$306) plus postage. The electronic-only price available to institutional subscribers is £532 (USA, Canada and Mexico US \$973). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8EA, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

For EU product safety concerns, contact us at Calle de José Abascal, 56, 1º, 28003 Madrid, Spain, or email eugpsr@cambridge.org

THE JOURNAL OF NAVIGATION

VOLUME 77 • NUMBER 4 • JULY 2024

CONTENTS

Improved Gaussian mean-shift radar dynamic bias registration <i>Jiang Huai Pan</i>	427
Review of ship navigation safety in fog <i>Gege Ding, Runze Li, Chunxu Li, Bingdong Yang, Yiqin Li, Qiaochan Yu, Xiongfei Geng, Zhixuan Yao, Ke Zhang, and Jie Wen</i>	436
A comparison study of senior and junior deck officers' interpretations of the International Regulations for the Prevention of Collisions at Sea <i>Ian Heffernan, and Tom O'Mahony</i>	457
An autonomous localisation method of wall-climbing robots on large steel components with IMU and fixed RGB-D camera <i>Wen Zhang, Tianzhi Huang, and Zhenguo Sun</i>	469
Using EEG and eye-tracking as indicators to investigate situation awareness variation during flight monitoring in air traffic control system <i>Qinbiao Li, Kam K.H. Ng, Simon C.M. Yu, Cho Yin Yiu, Fan Li, and Felix T.S. Chan</i>	485
Ship navigable route framework extraction using high-density searching from AIS big data <i>Miao Gao, Jinqiang Bi, Zhen Kang, Shuai Chen, Peiru Shi, Xi Zeng, and Anmin Zhang</i>	507
Iterative generation differential decomposition with multi-component vibration signals for marine diesel engine <i>Kangqiang Li, Haipeng Wang, Qingtao Gong, Xin Hu, Yangang Sun, and Shubo Ou</i>	526
Maritime accidents-based optimal rescue ship location using dynamic programming and particle swarm optimisation algorithm <i>Sang-Lok Yoo, and Kwang-Il Kim</i>	543
