

THE AERONAUTICAL JOURNAL

Covering all aspects of Aerospace

Volume 112 Number 1131

May 2008

Incorporating The Structural Health Monitoring and Damage Prognosis of Metallic and Non-Metallic Structures Special Issue

THE AERONAUTICAL JOURNAL

Editor-in-chief: Prof Peter Bearman

Associate Editors

Chairman: Prof Mike Graham

Dr Holger Babinsky
Cambridge University

Dr Trevor Birch
Dstl

Prof Rene de Borst
Eindhoven University of Technology

Wg Cdr Mike Bratby
RAeS Air Power Group

Dr Richard Brown
Glasgow University

Dr Jon Carrotte
Loughborough University

Dr Graham Coleman
Dstl

Prof Jonathan Cooper
University of Liverpool

Mr Anthony Cross
BAE Systems Warton

Prof Richard Crowther
Rutherford Appleton Lab

Prof Glyn Davies
Imperial College, London

Dr Olivier Dessens
Cambridge University

Prof Dimitris Drikakis
Cranfield University

Mr Chris Fielding
BAE Systems, Warton

Professor John Fielding
Cranfield University

Professor Nabil Gindy
University of Nottingham

Prof V Giurgiutiu
University of South Carolina

Prof Ismet Gursul
University of Bath

Prof Keith Hayward
RAeS Head of Research

Dr Michael J de C Henshaw
Loughborough University

Prof Richard Hillier
Imperial College, London

Prof Howard Hodson
University of Cambridge

Mr Julian Lea-Jones
Systems Consultant

Prof Ken Morgan
University of Wales, Swansea

Dr Ravi Nayak
National Aerospace Laboratories, India

Prof Gareth Padfield
University of Liverpool

Dr Shahrokh Shahpar
Rolls-Royce

Prof Constantinos Soutis
University of Sheffield

Prof John Stollery
Cranfield University

Prof Anthony Waas
University of Michigan

Aims and scope

The aims and scope of *The Aeronautical Journal* are intended to reflect the objectives of the Royal Aeronautical Society as expressed in its Charter of Incorporation. Briefly, these are to encourage and foster the advancement of all aspects of aeronautical and space science. Thus the topics of *The Aeronautical Journal* include most of those covered by the various Specialist Groups of the Society, which include:

Aircraft design, aerodynamics, air law, air power, air transport, air navigation, airworthiness and maintenance, aviation medicine, avionics and systems, environmental issues, flight operations, flight simulation, fluid dynamics, fluid mechanics, general aviation, guided flight, human factors, human powered flight, light aviation, management studies, propulsion, rotorcraft, safety, space, structures and materials, structural mechanics, systems and test procedures and UAVs.

Papers are therefore solicited on all aspects of research, design and development, construction and operation of aircraft and space vehicles. Papers are also welcomed which review, comprehensively, the results of recent research developments in any of the above topics.

We recognise the inhibiting pressures of time and confidentiality and acknowledge that many of the design testing, manufacturing and operational problems that industry has to solve contain important information for the whole aerospace community. *The Aeronautical Journal* provides a platform for refereeing and presenting your work to an international audience.

Papers will be considered for publication in *The Aeronautical Journal* if they meet the terms and conditions listed in The Instructions for authors. If these are not met, the Editor reserves the right to withdraw the paper without redress, which may be at any time up to publication.

Papers should be sent to: Prof Peter Bearman, Royal Aeronautical Society, 4 Hamilton Place, London W1J 7BQ, United Kingdom.

Subscriptions

Non-members

Annual subscription (12 issues) £375, Single copies, including back issues £36; *Non-member subscription orders are available from*; Royal Aeronautical Society, Publications Subscriptions Department, Dovetail Services Ltd, 800 Guillat Avenue, Kent Science Park, Sittingbourne, Kent ME9 8GU, UK.

Tel: +44 (0)8448 488 426, Fax: +44 (0)844 856 0650, email: ras@servicehelpline.co.uk

RAeS members

Annual subscription (12 issues) £60, Single copies, including back issues £6; *member subscription orders are available from*; Membership Department, Royal Aeronautical Society, 4 Hamilton Place, London W1J 7BQ, UK. Tel: +44 (0)20 7670 4300, Fax: +44 (0)20 7670 4309, email: membership@raes.org.uk

RAeS Conference Proceedings

Details, price and availability of Royal Aeronautical Society Conference Proceedings can be obtained from; RAeS Conference and Events Department, 4 Hamilton Place, London W1J 7BQ, UK. Tel: +44 (0)20 7670 4300, email: conference@raes.org.uk or via www.aerosociety.com/proceedings

Published monthly

All papers are available to view free of charge for subscribers and to purchase by others at:
www.aerosociety.com

M. Gennaretti and L. Greco

Whirl flutter analysis of prop-rotors using unsteady aerodynamics reduced-order models

233

Y. Cao, Q. Zhang and J Sheridan

Numerical simulation of rime ice accretions on an aerofoil using an Eulerian method

243

Introduction to the The Structural Health Monitoring and Damage Prognosis of Metallic and Non-Metallic Structures Special Issue

250

S.C. Reed

Indirect aircraft structural monitoring using artificial neural networks

251

G. Manson, E. Papatheou and K. Worden

Genetic optimisation of a neural network damage diagnostic

267

R.K. Schmidt

Monitoring of aircraft landing gear structure

275

C. Soutis and K. Diamanti

Technical Note

Active sensing of impact damage in composite sandwich panels by low frequency Lamb waves

279

P.A. Lloyd

Structural health monitoring systems – benefits and airworthiness issues

285
