THE REVOLUTION IN ETHICAL THEORY

By **GEORGE C. KERNER** This book is designed to introduce the reader to the central issues in contemporary theory. The author discusses the contributions of Moore, Stevenson, Toulmin, and Hare to the development of analytical ethics in the present century. By subjecting their views to a detailed critical analysis, he puts the fundamental questions concerning the nature of moral language and reasoning into a clearer light. Besides taking stock of work done by others, the author seeks to carry moral philosophy a step further. He makes use of Austin's insights into language and meaning and offers suggestions toward a more well-rounded theory of moral discourse. \$7.50.

BODY, SOUL, SPIRIT: A SURVEY OF THE BODY-MIND PROBLEM
