THE BIOSOCIAL SOCIETY

The Biosocial Society merged in 1989 with the British Social Biology Council and the resulting Society serves all those interested in the interaction of biological and social factors in human life. In addition to its popular journal *Social Biology and Human Affairs* (Editor: Dr H. Macbeth), the Society now also publishes the academic *Journal of Biosocial Science* (Editor: Dr C. G. N. Mascie-Taylor). Members of the Society are encouraged to submit articles for publication in these two journals. Papers for consideration should be sent to the appropriate Editor; detailed information about submissions is included in each issue of the two journals.

The main event of the Biosocial Society is the Annual Spring meeting, usually held at the Pauling Human Sciences Centre, Oxford University, when papers are given by invited speakers on a selected topic. The next meeting, on *Ethnicity*, will be held in May 1991. The proceedings are published by Oxford University Press in the Biosocial Society series, available from bookshops.

Membership of the Biosocial Society is open to all qualified persons and to students. Information on membership and on the concessionary subscriptions to *Social Biology and Human Affairs* and the *Journal of Biosocial Science* is available from the Society's Secretary: Dr A. Powell, Department of Life Sciences, The Polytechnic, Queensgate, Huddersfield, HD1 3DH.

Contents

EDITORIAL	page 1
G. A. HARRISON <i>Memorial address: Alan Sterling Parkes, 1900–1990</i>	page 3
