

THE JOURNAL
OF
MENTAL SCIENCE

Published by Authority of the
Association of Medical Officers of Asylums and Hospitals
for the Insane.

EDITED BY

C. L. ROBERTSON, M.D. CANTAB.

AND

HENRY MAUDSLEY, M.D. LOND.

"Nos vero intellectum longius à rebus non abstrahimus quam ut rerum imagines et
radii (ut in sensu fit) coire possint."

FRANCIS BACON. *Proleg. Instaurat. Mag.*

VOL. XI.

LONDON:
JOHN CHURCHILL AND SONS
NEW BURLINGTON STREET.

MDCCLXVI.

‘ In adopting our title of the *Journal of Mental Science*, published by authority of the Association of Medical Officers of Asylums and Hospitals for the Insane, we profess that we cultivate in our pages mental science of a particular kind, namely, such mental science as appertains to medical men who are engaged in the treatment of the insane. But it has been objected that the term mental science is inapplicable, and that the terms, mental physiology, or mental pathology, or psychology, or psychiatry (a term much affected by our German brethren), would have been more correct and appropriate; and that, moreover, we do not deal in mental science, which is properly the sphere of the aspiring metaphysical intellect. If mental science is strictly synonymous with metaphysics, these objections are certainly valid, for although we do not eschew metaphysical discussion, the aim of this Journal is certainly bent upon more attainable objects than the pursuit of those recondite inquiries which have occupied the most ambitious intellects from the time of Plato to the present, with so much labour and so little result. But while we admit that metaphysics may be called one department of mental science, we maintain that mental physiology and mental pathology are also mental science under a different aspect. While metaphysics may be called speculative mental science, mental physiology and pathology, with their vast range of inquiry into insanity, education, crime, and all things which tend to preserve mental health, or to produce mental disease, are not less questions of mental science in its practical, that is, in its sociological, point of view. If it were not unjust to high mathematics to compare it in any way with abstruse metaphysics, it would illustrate our meaning to say, that our practical mental science would fairly bear the same relation to the mental science of the metaphysicians as applied mathematics bears to the pure science. In both instances the aim of the pure science is the attainment of abstract truth; its utility, however, frequently going no further than to serve as a gymnasium for the intellect. In both instances the mixed science aims at, and, to a certain extent, attains, immediate practical results of the greatest utility to the welfare of mankind; we therefore maintain that our Journal is not inaptly called the *Journal of Mental Science*, although the science may only attempt to deal with sociological and medical inquiries, relating either to the preservation of the health of the mind or to the amelioration or cure of its diseases; and although not soaring to the height of abstruse metaphysics, we only aim at such metaphysical knowledge as may be available to our purposes, as the mechanic uses the formularies of mathematics. This is our view of the kind of mental science which physicians engaged in the grave responsibility of caring for the mental health of their fellow-men may, in all modesty, pretend to cultivate; and while we cannot doubt that all additions to our certain knowledge in the speculative department of the science will be great gain, the necessities of duty and of danger must ever compel us to pursue that knowledge which is to be obtained in the practical departments of science, with the earnestness of real workmen. The captain of a ship would be none the worse for being well acquainted with the higher branches of astronomical science, but it is the practical part of that science as it is applicable to navigation which he is compelled to study.”

J. C. BUCKNILL.

MESSES. CHURCHILL'S PUBLICATIONS SINCE THE
1st OF OCTOBER—continued.

- ADVICE TO A MOTHER ON THE MANAGEMENT OF HER CHILDREN, AND ON THE TREATMENT, ON THE MOMENT, OF SOME OF THEIR MORE URGENT DISEASES. By PYE H. CHAVASSE, F.R.C.S. Eighth Edition, fcap. 8vo, sewed, 2s. 6d.
- GUY'S HOSPITAL REPORTS. New Series. Vol. XI. 8vo, 7s. 6d.
- CLINICAL LECTURES AND REPORTS BY THE MEDICAL AND SURGICAL STAFF OF THE LONDON HOSPITAL. Vol. II. 8vo, cloth, 7s. 6d.
- ON PSORIASIS AND LEPRO. By DR. McCALL ANDERSON, Physician to the Dispensary for Skin Diseases, Glasgow. With Chromo-Lithograph. 8vo, cloth, 5s.
- LECTURES, CHIEFLY CLINICAL. By THOMAS K. CHAMBERS, M.D., Hon. Physician to H.R.H. the Prince of Wales; Consulting Physician to St. Mary's Hospital. Fourth Edition, 8vo, cloth, 14s.
- ON INTRA-THORACIC CANCER. By JOHN COCKLE, M.D., Physician to the Royal Free Hospital. In two Parts. 8vo, 6s. 6d.
- THE ORACLES OF GOD: An Attempt at a Re-interpretation. Part I.—THE REVEALED COSMOS. By HENRY F. A. PRATT, M.D. 8vo, cloth, 10s.
- QUANTITATIVE CHEMICAL ANALYSIS. With Numerous Wood Engravings. By C. REMIGIUS FRESENIUS. Edited by J. LLOYD BULLOCK and ARTHUR VACHER. Fourth Edition. With 186 Engravings. 8vo, cloth, 18s.
- THE PRESCRIBER'S ANALYSIS OF THE BRITISH PHARMACOPEIA. By J. BIRKBECK NEVINS, M.D. Lond., Lecturer on Materia Medica in the Liverpool Royal Infirmary Medical School. Third Edition, royal 32mo, cloth, 3s. 6d.
- THE POCKET FORMULARY AND SYNOPSIS OF THE BRITISH AND FOREIGN PHARMACOPEIAS; comprising Standard and Approved Formulæ for the Preparations and Compounds employed in Medical Practice. By HENRY BEASLEY. Eighth edition, 18mo, cloth, 6s.
- ON HIP-JOINT DISEASE, WITH REFERENCE ESPECIALLY TO TREATMENT BY MECHANICAL MEANS. By WM. CURTIS HUGMAN, F.R.C.S., late Surgeon to the Hospital for Deformities. Re-issue, enlarged, with Plates. 8vo, cloth, 3s. 6d.
- ORTHOPRAXY: a Manual of the Mechanical Treatment of Deformities, Debilities, and Deficiencies of the Human Body. By HEATHER BIGG, Assoc. Inst. C.E., Anatomical Mechanician to the Queen. With numerous Engravings, post 8vo, cloth, 10s.
- A PRACTICAL TREATISE ON RUPTURE: its Causes, Management, and Cure, and the various Mechanical Contrivances employed for its Relief. By T. P. SALT, Surgical Instrument Maker to the General and Queen's Hospitals, Birmingham. Post 8vo, cloth, 3s.

JOHN CHURCHILL & SONS, NEW BURLINGTON STREET.

Shortly will be Published.

LECTURES ON MENTAL DISEASES.

By W. H. O. SANKEY, M.D. LOND.

JOHN CHURCHILL AND SONS, NEW BURLINGTON STREET.

Pulvis Jacobi Ver., Newbery's.

FRANCIS NEWBERY AND SONS,

45, St. Paul's Churchyard.

Second Edition, enlarged. 8vo, cloth, 15s.

A MANUAL OF PSYCHOLOGICAL MEDICINE: containing the History, Nosology, Description, Statistics, Diagnosis, Pathology, and Treatment of Insanity. With an Appendix of Cases. By J. C. BUCKNILL, M.D., Visitor to the Chancery Lunatics; and DANIEL H. TUKE, M.D., late Visiting Medical Officer to the York Retreat.

"This work fully supplies the desideratum so much felt by medical men, and, we are satisfied, is destined long to continue the standard work on general insanity in this country."—*Glasgow Medical Journal*.

JOHN CHURCHILL AND SONS, NEW BURLINGTON STREET.

Now complete, with Letterpress, price £2 2s.

AN ATLAS OF COLOURED PHOTOGRAPHS (from Life) of the DISEASES OF THE SKIN. By BALMANNO SQUIRE, M.B. LOND.; Surgeon to the West London Dispensary for Diseases of the Skin; Lecturer at St. Mary's Hospital Medical School.

Second edition, considerably enlarged, fcap. 8vo, cloth, 12s. 6d.

A MANUAL OF THE PRACTICE OF MEDICINE.

By G. H. BARLOW, M.D., Senior Physician to Guy's Hospital.

"This Manual is precisely what the author intended it to be—a useful, elementary, and practical book for students."—*Medical Times and Gazette*.

JOHN CHURCHILL AND SONS, NEW BURLINGTON STREET.

Fourth edition, with 410 engravings, fcap. 8vo, cloth, 12s. 6d.

A SYSTEM OF PRACTICAL SURGERY. By SIR WM.

FERGUSSON, BART., F.R.S., Professor of Surgery in King's College.

"We need hardly say how heartily we recommend this work to every surgeon. Mr. Fergusson is one of those who is not content with the knowledge of bygone days. His name is connected with some of the most signal improvements in practical surgery; and those who are endeavouring to keep up to the high standard of the present day should acquaint themselves with the precepts and practice inculcated by the author in this excellent work."—*Medical Times and Gazette*.
