

**THE
ANZIAM
JOURNAL**

*(The Australian & New Zealand
Industrial and Applied
Mathematics Journal)*

Editorial Office and Address

Editor-in-Chief C. E. M. PEARCE, cpearce@maths.adelaide.edu.au
Executive Editor E. HUNT, ehunt@maths.adelaide.edu.au
Assistant Editors A. GOH and Y. STOKES

Department of Applied Mathematics, The University of Adelaide, SA 5005, Australia.

Associate Editors

A. P. BASSOM
The University of Exeter
North Park Road
Exeter, Devon EX4QE
United Kingdom
AP.Bassom@ex.ac.uk

A. J. BRACKEN
Department of Mathematics
The University of Queensland
St. Lucia QLD 4072
ajb@maths.uq.edu.au

B. D. CRAVEN
Department of Mathematics
The University of Melbourne
VIC 3010
craven@ms.unimelb.edu.au

A. C. EBERHARD
Department of Mathematics
Royal Melbourne Institute of
Technology
GPO Box 2476V
Melbourne VIC 3001
andrew.eberhard@ems.rmit.edu.au

L. K. FORBES
School of Mathematics
and Physics
The University of Tasmania
Hobart TAS 7001
Larry.Forbes@utas.edu.au

J. M. HILL
Department of Mathematics
The University of Wollongong
PO Box 1144
Wollongong NSW 2500
j.hill@uow.edu.au

G. C. HOCKING
Department of Mathematics
and Statistics
Murdoch University
Murdoch WA 6150
hocking@prodigal.murdoch.edu.au

C. A. HURST
Department of Physics and
Mathematical Physics
The University of Adelaide
Australia 5005
ahurst@physics.adelaide.edu.au

P. E. KLOEDEN
Fachbereich Mathematik
Johann Wolfgang Goethe
Universität
D-60054 Frankfurt am Main
Germany
kloedен@math.uni-frankfurt.de

Cover design by HILARY BOOTH.

THE ANZIAM JOURNAL

Volume 44 Part 2

OCTOBER 2002

A note on withdrawal from a fluid of finite depth through a point sink	
G. C. Hocking, J.-M. Vanden-Broeck and L. K. Forbes	181
Optimal Hamiltonian completions and path covers for trees, and a reduction to maximum flow	
D. S. Franzblau and A. Raychaudhuri	193
Exponential decay rate of the energy of a Timoshenko beam with locally distributed feedback	
Dong-Hua Shi and De-Xing Feng	205
Two-point formulae of Euler type	
M. Matic, C. E. M. Pearce and J. Pečarić	221
Newton's diagram method for nonlinear equations with several small parameters	
Peter Aizengendler	247
Extreme stability and almost periodicity in continuous and discrete neuronal models with finite delays	
S. Mohamad and K. Gopalsamy	261
An $M/G/1$ queueing system with fixed feedback policy	
Bong Dae Choi and Bara Kim	283
Some results on generalised Voigt functions	
K. C. Gupta, S. P. Goyal and Rohit Mukherjee	299
The dual reciprocity boundary element method for magnetohydrodynamic channel flows	
Huan-Wen Liu and Song-Ping Zhu	305

Set by TeXAdel, Adelaide, Australia.

Printed by Instant Colour Press, Canberra, Australia.

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appeared in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Series B is now The ANZIAM Journal and is published in volumes comprising four quarterly parts. There is also a fifth (electronic) part designed for rapid publication (<http://jamsb.austms.org.au/>). Editor: A. J. ROBERTS, Department of Mathematics & Computing, University of Southern Queensland, Toowoomba, QLD 4350; aroberts@usq.edu.au. All five parts are refereed. All accepted papers have the option of publication in the electronic part. Information about Series A and other publications of the Society may be found on the inside back cover.

It is the editorial policy of The ANZIAM Journal to consider papers in any field of applied mathematics and related mathematical sciences. Novel applications of mathematics in real situations are especially welcomed. All papers should include some indication of applicability, and an introduction that can be understood by non-specialist readers from the whole applied mathematical community.

Manuscripts (four copies) for publication should be sent to the editor or to an appropriate associate editor at the address given on the inside front cover. Such action is a representation by the author that the manuscript has not been copyrighted or published, and that it is not being considered for publication elsewhere. Please do not make initial submissions electronically.

Authors are asked to read the section "Preparation of Manuscripts" on the last page.

Irrespective of the number of authors, 20 free offprints of each copy are provided; additional offprints may be ordered at the expense of the authors.

Excessive costs incurred by the Society through corrections to or withdrawal of articles may be charged to the authors concerned.

The ANZIAM Journal (ISSN 1446-1811) is published quarterly for A\$302.50 (Members A\$48.40) per annum by the Australian Mathematical Society, Mathematics Department, Australian National University, ACT 0200, Australia. Send address change notices to Dr A. Howe, Journal of the Australian Mathematical Society, Mathematics Department, Australian National University, ACT 0200, Australia.
