**BOOK TOKENS**

To readers of the *Cambridge Historical Journal* the obvious Christmas gift is a book. But in these days it is more difficult than usual to choose books for others. One's most scholarly friends may have developed a passion for gardening or cookery, and the habitual novel readers be immersed in the study of trigonometry.

★

Remember, however, that **BOOK TOKENS** solve this problem, for they can be exchanged by your friends at any good bookshop for volumes of their own choice.

# GARRETT MATTINGLEY

## Catherine of Aragon

This is a fascinating book, scholarly, well-proportioned, vivid yet unobtrusive in its writing, coolly intelligent but not inhuman in its handling of character, devoid of special pleading and without a trace of religious partisanship. Mr Mattingley's familiarity with the diplomatic archives of the Continent serves him well. It is arguable that his use of these sources may have made him less than just to Henry VIII. But his two ambassadors, De Puebla and Eustache Chapuys, are notable examples of balanced portraiture. MANCHESTER GUARDIAN

Mr Garrett Mattingley's vivid and understanding biography has achieved the entirely convincing portrait of an upright woman who influenced history by her virtues; and it is written with an eloquence, a command of the sources, and a warmth of sympathy which makes it worthy to stand beside Dr Chambers' noble biography of St Thomas More. # THE PLACE-NAMES OF MIDDLESEX

## APART FROM THE CITY OF LONDON

By J. E. B. GOVER, ALLEN MAWER & F. M. STENTON  
with the collaboration of S. J. MADGE

This book was originally planned as a volume on the place-names of the City of London and the County of Middlesex, but the gradual closing of archives made continued work on unpublished documents impossible. As work upon the City of London was not in the same advanced stage of preparation as that upon Middlesex, for which Mr Gover and Dr Madge had, for some years, collected a vast mass of material, separate publication has now been decided upon. *English Place-Names Society, Vol. 18.*

# REVOLT OF THE SERBS AGAINST THE TURKS. (1804-1813)

By W. A. MORISON

The aim of this book is to make available to the English-reading public a part of the epics which has till now found no English translator, and it is perhaps not unfitting that it should appear at a moment when the Yugoslavs are groaning under the heel of an even more deadly foe. These translations (printed parallel with the Serbian text) are preceded by an Introduction explaining the origin of the ballads and discussing questions of form and method in translating them.

# SIR JOHN FORTESCUE

*De Laudibus legum Anglie*

Edited by S. B. CHRIMES

With an Introduction by Professor H. D. HAZELTINE

Fortescue's dialogue in praise of the laws of England, written for the instruction of Henry VI's son, is one of the essential sources for English legal history.

This new edition, published in the series of *Cambridge Studies in English Legal History*, provides (a) a Latin text derived directly from the earliest MSS., (b) a fresh translation avoiding assumptions from later history, and (c) adequate but concise critical annotation based where necessary on original research.

# **The British Empire, 1815–1939**

By PAUL KNAPLUND

With an Introduction by D. W. BROGAN

At the crisis in the history of the world, the role of the British Empire is of the greatest importance, not only to its members but to the whole world community. There is, therefore, a special timeliness in Professor Knaplund's book. It is the work of a scholar of Norwegian birth and American education and citizenship. He has studied the history of the great experiment, or series of experiments, that we call the British Empire, from the outside. He has brought to his study the equipment of a critical scholar. The result is a clear, learned and most instructive record of the creation and the growth of the New Empire. We are made aware of the comparative novelty of British rule over a great part of the world; we are introduced to the domestic controversies that accompanied imperial expansion; the relationship between the history of the island nucleus and the overseas dependencies, and the influence of the various parts of the Empire on each other are made plain to us; and so is the role of the Empire in world politics. Professor Knaplund writes as a scholar; he is no blind apologist or carping critic. The result of his scholarship is a fascinating record of a strange, eventful history, full of instruction for our times.

# THE HISTORY OF POLAND

by Oscar Halecki

Translated by Monica Gardner and Mary Corbridge Patkaniowska

A complete concise history of Poland from the pen of a specialist. Professor Halecki, the eminent Polish historian, published in French in 1936 the history of Poland up to 1918, upon which the present book is based; and for this English edition he has continued the narrative in a new part of some fifteen thousand words, with the picture of Poland's gigantic work of reconstruction between 1918 and 1939, tragically contrasted with the destruction following the invasion of the country.
