

Subject Index to Volume 43

A

Alimentary tract atresia 64
Amniotic fluid elastolytic activity 185
Antibodies 71
Arcadius amorphus 135
Assisted fecundation 9
Auto-immune 71
Autonomisation 193

B

Breast-feeding 98

C

Clinics 53
Cohort studies 89
Computerized twins research 83
Congenital heart defects 63
Congenital malformations 98
Cross-projective identifications 145

D

Deformations 64
Discordance 165
 in MZ twins 207
DZ twins 145

E

Epidemiologic 89
Epiemiology 17

F

Fetal lung maturity assessment 185
Figurativité 193

G

Gemelli 145
Gestational age 165
Gluck's L/S test 185

H

Handicap 25
Holoprosencephaly 62
Human Genome Project 15
Hydrocephaly 62
Hypospadias 63

I

Informatics 83
Integrità e unicità del gemello 145
Interaction 193

K

Knowledge Data Base System (DBMS) 83

L

Laterality 8
Low birthweight 25

332 Subject Index

M

Maternal weight gain 25
Morbidity 25
Mortality 25
Multiple births 175
 pregnancies 17, 33
Multiples 25
MZ twins 207

N

Neonatal mortality causes 139
Neonates 165
Neural tube defects 62

O

Opérativité 193
Orofacial clefts 63
Ovarian stimulation 175
Ovulation stimulator drugs 100

P

Parasitage 193
Periconceptional multivitamin supplementation 175
Perinatal mortality 45
 outcome 135
Prematurity 45
Preterm delivery 25, 34
Psychoanalytical psychotherapy 145
Psychosis 145

Q

Quadruplets 33
Quintuplets 33

R

Registries 89
Respiratory distress syndrome 185
Risk factors 17
Rorschach - testo di 145

S

Single umbilical artery 64
T-Lymphocytes 71

T

Triplets 33
Triplets 53
Twin incidence 139
Twin neonatal mortality rates 139
Twin reversed arterial perfusion (TRAP) sequence 135
Twin study 1
Twinning 33
Twins 26, 71, 89, 165

V

Vascular disruptive events 65
VATER phenotype 64
Veterans Administration 89
Volunteers 53

X

X-linked recessive diseases 207
