Meet our newest weapons.

Twentyeight years ago, Johnson & Johnson Medical, Inc. revolutionized disinfection with the introduction of CIDEX* Activated Dialdehyde Solution. And now, we're offering two new additions to the CIDEX Solution Family of Products.

Introducing ENZOL* Enzymatic Detergent – it breaks down and removes tough, dried-on organic matter from instruments. Plus, easy rinsing means no **clogging** of scopes.

And, new CIDEX Solution Test Strips – developed exclusively for monitoring the effectiveness of CIDEX Solution. It's the easiest, most reliable way to detect unintentional dilution. Simply dip a test strip in CIDEX Solution, remove and read.

Depend on Johnson & Johnson Medical to lead the charge in asepsis and infection control. For additional product information, call 1-800433-5009, or contact your Johnson & Johnson Medical sales representative.

With our two newest additions, the CIDEX Solution Family of Products is the most powerful weapon you have.

SOME PEOPLE TAKE DRUG ABUSE TO HEART.

Most cocaine users are so dedicated to the drug that what it does to their hearts never enters their minds. They don't realize that every time they use cocaine, they put themselves at risk for such potentially fatal cardiovascular complications as hypertensive crisis.. . myocarditis.. . myocardial infarction . . . ventricular tachycardia.. . ventricular fibrillation.. . even cardiac arrest.

Chances are, at least some of these people are your patients. And many of them may feel more comfort-

able telling a nurse what they can't-or won't-tell a doctor. That's why your role becomes critical in helping suspected drug abusers understand what illegal drug use does to their bodies.

As key members of the health care team, nurses *can* make a difference in helping to curb drug abuse, and in preventing some of its deadliest consequences. The next time you suspect a patient may be using cocaine-or any

illegal substance—have a heart-to-heart talk about the damage these drugs can do.

**A short talk
can go a long way.**

ARE YOU READY FOR OSHA?

Sherwood Medical can help your health care facility comply with the OSHA rules regarding occupational exposure to bloodborne pathogens. Our new Value Added TrainingSM program is designed to teach all levels of health care employees how to use

Universal Precautions for self-protection. It's comprehensive, easy to administer, and very effective. And most important, it meets the training, demonstration of mastery and documentation requirements of OSHA instruction CPL2-2.44B. Call Sherwood now and be ready for OSHA!

*Caring for Others,
Caring for Yourself^{S.M.}*

To find out more about Sherwood's Value Added Raining program, call 1-800-367-5036.
