New from Stanford University Press

Labor and Love in Guatemala

The Eve of Independence

CATHERINE KOMISARUK

"In this superb study, Komisaruk delves into the realities of ordinary people's lives to help us understand the deep causes of sweeping changes. In the past, we have tended to assume that after the wars of independence, new republican laws revamped the labor system as it existed in Latin America. Komisaruk points out that most of the changes legislated in the 19th century had occurred in practice long before, in the lives of real people."

—Camilla Townsend,
Rutgers University

The Life Within

Local Indigenous Society in Mexico's Toluca Valley, 1650-1800

CATERINA PIZZIGONI

"Packed with new dimensions, approaches, and findings, the book will find its place among the monuments of early Latin American history and ethnohistory."

—James Lockhart,
author of *The Nahuas after the Conquest*

Waking from the Dream

Mexico's Middle Classes after 1968

LOUISE E. WALKER

"This is an important work. Walker makes careful use of her sources to explain carefully how and why activism increased in the middle class during the late 20th century."

—Linda B. Hall,
University of New Mexico

Copublished with the Academy of American Franciscan History

Nahua and Maya Catholicisms

Texts and Religion in Colonial Central Mexico and Yucatan

MARK CHRISTENSEN

"The analysis of the various prayers and their renditions in Nahuatl and Maya is fantastic. The study of the content of rituals such as baptism also contributes greatly to our understanding of how they functioned in the lives of everyday native peoples."

—John F. Schwaller,
SUNY Potsdam

Twilight of the Mission Frontier

Shifting Interethnic Alliances and Social Organization in Sonora, 1768-1855

JOSE DE LA TORRE CURIEL

"... demonstrates a unique mastery of the English and Spanish literature on the missions of northwestern New Spain, a thorough command of the difficult archival sources upon which the study is based, and a coherent, well-researched, and compelling argument."

—Steven W. Hackel,
University of California, Riverside
