Submit an Article for the IPA Bulletin!

The *IPA Bulletin* is the quarterly newsletter of the International Psychogeriatric Association (IPA). In addition to news about IPA and related organizations, the *IPA Bulletin* contains articles on recent advances and initiatives in the field in of psychogeriatrics. The *IPA Bulletin* reaches all the members of IPA, including our affiliates around the world.

Research and Practice. The Research and Practice section of the *IPA Bulletin* highlights recent advances in psychogeriatrics and related fields. Articles from all fields related to the mental health of older people are welcome.

Around the World. The Around the World section of the *IPA Bulletin* features articles by clinicians and researchers which report on activities and issues within their country or region. These articles seek to educate others on the state of the field in other countries and provide unique perspectives from around the world.

International Psychogeriatric Association

Better Mental Health for Older People

IPA NEEDS YOU!

About IPA

The International Psychogeriatric Association (IPA), founded in 1982 and representing members in more than 50 countries, is a unique and diverse professional healthcare community promoting better geriatric mental health – across disciplines, across borders, and across geriatric issues. Psychiatrists, scientists, neurologists, geriatricians, primary care physicians, epidemiologists, nurses, psychologists, occupational therapists, social workers, and many other healthcare professionals come to the IPA community from all around the world to discuss, learn, share and research information about behavioral and biological aspects of geriatric mental health. IPA promotes research and education, facilitates an international exchange of ideas, and fosters cross-cultural understanding of the latest developments in the field.

IPA Membership

The International Psychogeriatric Association (IPA) encourages professionals from all backgrounds related to geriatric mental health to join our healthcare community. Here are some of the many benefits of joining IPA:

- Unique opportunities to interact with colleagues around the world how share an interest in advancing research, education, and theory about mental health care in older adults.
- Valuable discounts on participation in education and scientific meetings which reflect the full spectrum of disciplines related to psychogeriatrics. Reduced registration rates for the annual IPA International Congress and IPA Regional Meetings are included.
- Relevant publication on updates in the field, including *International Psychogeriatrics*, IPA's peer reviewed journal which publishes twelve issues per year and additional special-focus supplements.
- Access to online educational materials and *The IPA Complete Guides to Behavioral and Psychological Symptoms of Dementia (BPSD)*.
- Subscription to the *IPA Bulletin*, IPA's newsletter which features articles on advances in the field and information on upcoming programs around the world.
- Participation in the IPA Member Forums – smaller member groups which enable members to connect with one another and collaborate on research and clinical care practices. These forums reflect the diversity of interests within geriatric mental health.

How to Join

To learn more about IPA and become a member, please visit our website: www.ipa-online.org. IPA offers a one-year membership for \$160 USD. One-year student or retired memberships are available for \$99 USD. **A limited number of Lifetime Memberships are also available for \$1000 USD.** The IPA Secretariat is available to answer any questions you may have about IPA or membership. Please contact us at +1 414 918 9889 or by email at info@ipa-online.org.

Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are usually reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about one-third of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.423 (2016). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites (journals.cambridge.org/ipg and www.ipa-online.org).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website journals.cambridge.org/ipg. Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.

International Psychogeriatrics

Issue Theme: Improving Healthcare in Long-Term Care and Nursing Homes

CONTENTS

- Commentaries**
- 291 Reducing psychotropic drug use in people with dementia living in nursing homes**
Clive Ballard and Anne Corbett
- 295 The complexities of sexual behavior in residential aged care**
Linda McAuliffe and Deirdre Fetherstonhaugh
- 299 We need to do better: most people with dementia living in aged care facilities use antipsychotics for too long, for off-label indications and without documented consent**
Lisa M. Kalisch Ellett and Renly Lim
- 303 A Montessori-based approach to treat behavioral and psychological symptoms in dementia**
JoAnn T. Tszchanz and Alexandra G. Hammond
- 307 Unpicking the costs of dementia care in care homes**
Sarah Cullum and Adelina Comas-Herrera
- 311 Researchers, please take due care of the formal caregivers in nursing homes**
Terence W. H. Chong and Edmond Chiu
- Theme Articles**
- 315 The "CHROME criteria": Tool to optimize and audit prescription quality of psychotropic medications in institutionalized people with dementia**
Ruben Muñiz, Alia I. Pérez-Wehbe, Francisco Couto, María Pérez, Noemí Ramírez, Alejandro López, Javier Rodríguez, Teresa Usieto, Lietzan Lavin, Ana Rigueira, Luís Agüera-Ortiz, Jorge López-Alvarez, Manuel Martín-Carrasco, and Javier Olazarán
- 325 Sexual harassment from older residents at long-term care facilities: is it really part of the job?**
Feliciano Villar, Josep Fabà, Rodrigo Serrat, Montserrat Celdrán, and Teresa Martínez
- 335 Prolonged use of antipsychotic medications in long-term aged care in Australia: a snapshot from the HALT project**
Fleur Harrison, Monica Cations, Tiffany Jessop, Liesbeth Aerts, Lynn Chenoweth, Allan Shell, Perminder Sachdev, Sarah Hilmer, Brian Draper, and Henry Brodaty
- 347 A cluster-randomized crossover trial of Montessori activities delivered by family carers to nursing home residents with behavioral and psychological symptoms of dementia**
Lingani Mbakile-Mahlanza, Eva S. van der Ploeg, Lucy Busija, Cameron Camp, Helen Walker, and Daniel W. O'Connor
- 359 Healthcare utilization and monetary costs associated with agitation in UK care home residents with advanced dementia: a prospective cohort study**
A. Buylova Gola, S. Morris, B. Candy, S. Davis, M. King, N. Kupeli, G. Leavey, K. Moore, I. Nazareth, R. Omar, V. Vickerstaff, L. Jones, and E. L. Sampson
- 371 Specific components of a complex depression care program can affect staff outcomes differently: post-hoc analyses of a stepped-wedge cluster-randomized trial in nursing homes**
Ruslan Leontjevas, Linda Hooijschuur, Martin Smalbrugge, Raymond T.C.M. Koopmans, and Debby L. Gerritsen
- Original Research Articles**
- 381 Neuropsychiatric symptoms as predictors of conversion from MCI to dementia: a machine learning approach**
Sabela C. Mallo, Sonia Valladares-Rodríguez, David Facal, Cristina Lojo-Seoane, Manuel J. Fernández-Iglesias, and Arturo X. Pereiro
- 393 Depressive role impairment and subthreshold depression in older black and white women: race differences in the clinical significance criterion**
Mary F. Wyman, Erin M. Jonaitis, Earlise C. Ward, Megan Zuelsdorff, and Carey E. Gleason
- Letters to the Editor**
- 407 The impact of the use of Facebook™ on social support networks and symptoms of depression reported by the elderly**
Bruno César Spinelli Silva, Adriana Aparecida de Ávila, Greiciane da Silva Rocha, Daniella Pires Nunes, Flávia Della Lucia, and Tábata Renata Pereira de Brito
- 409 How are medics approaching people with dementia in Latin America?**
Pablo Richly, Santiago Oneill, Daniel Flichtentrei, and Pablo Lopez
- 411 Assessment of the decision-making capacity of hospital discharge**
Mouna Romdhani, Pierre Koskas, Samuel Kohler, and Olivier Drunat
- 413 Person-centered attitudes mediate the association between dementia knowledge and help-giving intentions in Singapore**
Anna P. Lane and Freya C.H. Yu
- 415 Dementia knowledge is low in adults with HIV disease**
Steven Paul Woods, Pariya L. Fazeli, Anastasia Matchanova, David E. Vance, Luis D. Medina, and Erin E. Morgan
- Corrigendum**
- 417 Thought–feeling discrimination in people with dementia: adaptation and preliminary validation of the first dementia-specific measure - CORRIGENDUM**
Joshua Stott, Tim Cadman, Henry Potts, Katrina Scior, Janina Brede, and Georgina Charlesworth
